(xvii) [Deleted Aug. 26, 1944]

(xviii) Any non-functional or decorative stitching except:

(a) Not more than four rows of non-functional stitching on imitation tips,

(xxix) Rawhide or other leather laces, except on work shoes.

(xxx) Leather or part leather loops performing the function of eyelets.

(2) [Deleted Aug. 26, 1944.]

(3) No person shall put into process any leather for the manufacture of any boots except men's blucher high cut laced boots ten inches or under in height (measured from heel seat, using size 7 as the standard) and men's and women's utility work cowboy boots: *Provided, however,* That upon letter application the War Production Board may permit any person to make boots higher than ten inches for use in specified hazardous occupations.

(4) No person shall put into process any material for the manufacture of footwear of more than one color (subject to unavoidable deviations in shade normally experienced in finishing leathers or dyeing fabrics). This restriction shall not apply to the color of bows, metal findings, eyelets, stitching, lacing, bindings, linings, soles, safety shoes or shearling collars; nor shall it apply to footwear using no leather for outsoles, midsoles or taps. Nothing in this paragraph shall prevent unavoidable discoloring of thread, leather, and perforations as a result of antiquing, or the use of:

(i) Embossed leather or genuine reptile leather having slight variations in shade caused by normal finishing of such leathers, or

(ii) A combination of two colors in part leather—part fabric uppers where the leather constitutes not more than 30% of the whole upper material (excluding linings.)

(5) [Deleted Aug. 26, 1944.]

(9) [Deleted Aug. 26, 1944.]

(10) [Deleted Aug. 26, 1944.]

(11) No person shall manufacture any leather or part leather bows for use on footwear, except out of scrap.

(12) No person shall attach any soles heavier than 4 iron cut from chrome, chrome retan, or any combination chrome tanned cattlehide or horse butt leather, excluding splits, to any footwear except infants', misses' and children's shoes (excluding all sizes over size 3), youths' and boys' shoes (excluding all sizes over size 6), men's work shoes, and men's and women's safety shoes manufactured in accordance with paragraph (e–1) below. This provision does not apply to repair.

(13) No person shall utilize any upper leather or lining leather set aside by tanners pursuant to Conservation Order M–310 or directions issued thereunder, for the following types of footwear:

(i) Infants';

(ii) Misses' and children's (excluding all little gents' and all sizes over size 3);

(iii) Footwear for the physically maimed and deformed manufactured on a custom-made basis and not for stock; except in the manufacture of one of those types of footwear.

(d) *Restrictions on styling and types manufactured.* (1) No person shall put into process any leather or fabric for the manufacture of any footwear of a design and construction not utilized by him between September 1, 1940 and December 31, 1942, except that:

(i) In the case of footwear the soles of which are made wholly from materials other than leather or rubber (which may, however, utilize leather for hinges or for tabs, heel inserts or other non-skid or soundproofing features covering not more than 25% of the area of the bottom of the sole) designs and constructions utilized between September 1, 1940 and October 18, 1943 may be used;

(ii) Nothing in this paragraph shall prevent the correction of patterns to the extent necessary to remove features prohibited by this order, the use of new bows (provided they are not an integral part of the upper), or the use of new designs, lasts and patterns which can be introduced without requiring additional employment.

(iii) The War Production Board may make exceptions in this paragraph in favor of patterns or designs which will conserve leather or other materials.

(2) [Deleted Aug. 26, 1944.]

(3) [Deleted Aug. 26, 1944.]

(4) No person shall attach to any footwear (except infants' footwear, house slippers or women's gold or silver evening slippers) outsoles, other than wooden soles, not conforming to the specifications contained in Schedule I annexed to this order.

(e) *Exceptions to paragraphs* (c) *and* (d) *above.* The foregoing prohibitions and restrictions of this order shall not apply to:

(1) Footwear made wholly without leather. This exemption shall extend only to paragraph (c).

(2) Special types of footwear made for the physically deformed or maimed.

(3) Football, baseball, hockey, skating, bowling, track, and ski shoes and other similar footwear designed for use in active participation in sports which require specially constructed footwear for such use. This does not include golf shoes.

(4) Footwear forming part of historical or other costumes for theatrical productions.

(5) Infants' footwear up to and including size 4.

(6) Footwear made wholly or primarily of shearlings provided no other leather is used in their manufacture.

(e–1) *Restrictions on the manufacture of safety shoes.* No person shall manufacture any safety shoes which have leather uppers with leather or rubber (including synthetic rubber) compound bottoms, except those which comply with the safety features as to safety toe box, electric conductivity, electrical properties, non-sparking and moulders protection in the American War Standards Specifications for protective occupational footwear, men's safety shoes and women's safety shoes, Z41.1 to Z41.9 inclusive, 1944. Only those parts of the specifications relating specifically and solely to the safety features listed above and to the test requirements shall be applicable.

Upon letter application the War Production Board may authorize deviations from the above-mentioned standards when necessary to meet minimum civilian requirements for safety shoes.

(f) [Deleted Aug. 26, 1944.]

(g) *General exceptions.* None of the restrictions of this order shall apply to military footwear, or to footwear made as trials or pullovers but not sold.

(h) *Restrictions relating to sales and deliveries.* (1) No person shall sell or deliver any new footwear manufactured in the United States of America in violation of this order.

(2) No tanner or sole cutter shall deliver any leather to any shoe manufacturer if he knows or has reason to believe said leather is to be used in violation of the terms of this order.

(3) The prohibitions and restrictions of this paragraph shall not apply to:

(i) Deliveries of footwear or leather by, or to, any person having temporary custody thereof for the sole purpose of transportation or public warehousing.

(ii) Any bank, banker or trust company affecting or participating in a sale or delivery of footwear or leather solely by reason of the presentation, collection, or redemption of an instrument, whether negotiable or otherwise.

(4) In making sales or delivery of any footwear, no person shall make discriminatory cuts in quantity or quality between customers who meet such person's regularly established prices, terms and credit requirements, or between customers and his own consumption of said footwear. Reduction in sales or deliveries proportionate with any curtailment in supply available for nonmilitary use shall not constitute a discriminatory cut.

(5) No manufacturer shall accept delivery of any upper leather or lining leather reserved by tanners pursuant to Conservation Order M–310, or directions issued thereunder, for the manufacture of the following types of footwear:

(i) Infants';

(ii) Misses' and children's;

(iii) Footwear for the physically maimed and deformed manufactured on the custom-made basis and not for stock; if his supply of leather suitable for such shoes and obtained on certificate pursuant to such directions shall thereby become larger than a 30-days' inventory. A 30-days' inventory shall be deemed to be the quantity of leather actually used for the production of shoes of these types during the preceding calendar month, unless no such footwear was produced in that month, in which case a 30-days' inventory shall be deemed to be the leather required to manufacture his scheduled production of such shoes for the following thirty days.

(i) *Restrictions on production of lines of footwear.* (1) No person shall in any six months' period beginning March 1, 1943 complete the manufacture of more civilian footwear within the following lines than the percentage of his civilian line quota for such line shown in the following schedule:

	Percent of each price range
Youths' and boys'	125
Infants'	125
Men's safety shoes	125
Men's work	115
Men's dress	100
Women's and growing girls'	100
House slippers	100
Athletic	100
Women's safety shoes	100

With respect to misses' and children's footwear, no manufacturer may exceed 125% of his aggregate quotas for all his lines of misses' and children's footwear, but his production may be distributed among his established lines of misses' and children's footwear in any manner desired: *Provided, however,* That to the extent that a manufacturer's production of military footwear shows a decrease below that during his six months' base period, his production within any line of civilian footwear may exceed the civilian line quota for such line by its proportionate part of such decrease; and to the extent that such manufacturer's production of military footwear shows an increase over that during the six months' base period, each civilian line quota of such manufacturer shall be diminished by its proportionate part of such increase.

(2) No person shall manufacture any line of footwear (except military footwear) not manufactured by him in his six months' base period.

(3) *Exceptions to paragraphs* (i) (1) *and* (i) (2). (i) A lower priced line of the same type of civilian footwear may be substituted in whole or in part for a higher priced line.

(ii) The unused quota of any higher priced line may be added to a lower priced line of the same type of civilian footwear.

To the extent shown in the following schedule, any person may transfer the unused portion of any civilian line quota or quotas of men's dress or women's and growing girls' footwear to the production of the following types of footwear:

Type:	Percentage of unused quota permitted to be added
Men's work	115
Youths' and boys'	125
Misses' and children's	125
Infants'	125

Provided, however, That in no event shall any unused quota be added to a higher priced line, *And provided further,* That in no event shall a new line be added until authorization has been obtained under paragraphs (d) (1) above and paragraphs (i) (3) (vi) below.

(iii) A person may exceed his civilian line quota for any line of women's safety shoes if a pairage equal to such excess is deducted from some other line or lines of footwear.

(iv) During any six months' period, beginning March 1 or September 1 in any year, a manufacturer whose total production for the period will be less than $250,000 (based on wholesale value) is not subject to paragraph (i) (1), provided that no new lines are added and provided the manufacturer does not exceed his aggregate production in pairs during his six months' base period by more than 50%. The exemption in this paragraph shall not apply to manufacturers affiliated, as a subsidiary or otherwise, with another.

(v) Paragraphs (i) (1) and (i) (2) shall not apply to footwear made for the physically maimed or deformed on a custom-made basis and not for stock or to wood sole clogs utilizing no leather.

(vi) The War Production Board may authorize transfers of quotas from one type of footwear to another, and may authorize new or additional production in: (a) Lines of which there is a critical civilian shortage, or (b) lines of reasonably durable footwear utilizing non-critical materials. It will be the general policy of the War Production Board not to authorize new or additional production involving labor requirements that will interfere with the war production in that plant or in any plant located in that area.

Application for such authorization shall be made by letter, describing fully the footwear manufactured or proposed to be manufactured, listing in detail all the materials to be used, and stating the pairs desired to be made in each price range, the source of the manpower that will be required, whether production will be reduced in any other line or lines, and all other facts pertaining to the application. All applications shall be accompanied by original and two copies of Form WPB–3820 filled in to the end of section I. Authorization of production of new lines under this paragraph will be made only with the condition that production may not begin until evidence is furnished of conformity with applicable Office of Price Administration regulations.

Until October 1, 1944, it will be the policy of the War Production Board to grant increased quotas on infants' footwear, sizes 4½ to 8, in cases where the manufacturer shows in his application that the footwear he manufactures is of styles and within price lines that are urgently needed for civilian consumption.

Production in new price lines, or increased production in established lines, may be granted by the War Production Board to cover production of civilian footwear purchased by or on behalf of United Nations Relief and Rehabilitation Administration or any other agency for foreign relief purposes.

(vii) [Deleted Mar. 9, 1944]

(4) The period selected by any person as his six months' base period shall apply to all lines and may not be subsequently changed. After July 11, 1944, lines manufactured by any person in his six months' base period as previously filed with the War Production Board may not be revised, except to bring them into conformity with this order. Manufacturers whose base period reports con-

taining overlapping price ranges have been filed and accepted prior to June 27, 1944, may continue to use the ranges now on file only until September 1, 1944.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) All persons affected by this order shall keep and preserve records concerning their operations in accordance with § 944.15 of Priorities Regulation 1.

(l) All persons affected by this order shall file such reports and questionnaires as may be requested by the War Production Board, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref.: M–217.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 26th day of August 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A

NOTE: Paragraph (c) (2) and reproduction deleted Aug. 26, 1944.

Paragraphs (c) (4) and (e) (1) of the April 21, 1944, edition of General Conservation Order M–217, which remain in force until September 1, 1944, read as follows, respectively:

(c) (4) No person shall put into process any material for the manufacture of footwear of more than one color (subject to unavoidable deviations in shade normally experienced in finishing leather or dyeing fabrics). This restriction shall apply to the color of stitching, lacing and bindings, but shall not apply to the color of linings and soles. Nothing in this paragraph shall prevent unavoidable discoloring of thread, leather, and perforations as a result of antiquing, or the use of:

(i) Embossed leather or genuine reptiles of the colors permitted in paragraph (c) (3) below but having slight variations in shade caused by normal finishing of such leathers, or

(ii) Embossed leather or genuine reptiles of any color or colors (in all-over shoes) if finished prior to October 16, 1942,

(iii) Shearling collars,

(iv) An additional color on tips or tongues of safety shoes as above defined,

(v) A combination of two colors in part leather—part fabric uppers where the leather constitutes not more than 30% of the whole upper material (excluding linings).

(e) (1) *Exceptions to paragraphs (c) and (d) above.* The foregoing prohibitions and restrictions of this order shall not apply to:

(1) Footwear made wholly without leather and without rubber or plastic soles where no two-tone effect is created. This exemption shall extend only to paragraph (c). However, shoes of multi-colored fabric (a single fabric containing more than one color) are permitted and may have bindings or other trimmings (not including tips, foxings, eye stays, platforms or heels) in one of the colors of the material.

SCHEDULE I—SPECIFICATIONS FOR SOLES

Abrasion. The material shall have a resistance to abrasion of not less than 4000 revolutions to abrade 50% of the thickness of the material, when tested on the type of machine used by and following the procedure of the National Bureau of Standards. The material may be tested on any other abrasive testing machine, using an appropriate number of abrasive strokes of revolutions to give abrasive action equivalent to the above.

Crackiness. The material shall not crack, after conditioning for 4 hours, at 32° F. and testing at that temperature, when bent 180° over a 3-inch mandrel. The material shall not crack, after aging for 48 hours at 120° F. ± 2° F. and reconditioning at 65 per cent ± 2 per cent relative humidity and 120° F. ± 2° F., when bent 180° over a 3-inch mandrel.

Tackiness. The material shall not become tacky or flow when subjected to a temperature of 120° F. ± 2° F. for 4 hours.

Stitch tear. Material which is used for stitched soles shall have a stitch tear strength of not less than 30 pounds when tested dry, and not less than 26 pounds when tested immediately after soaking in water for 4 hours. When the outsole is cemented securely to a backer or midsole, the test shall be made of the combined assembly.

Effect of water. After submerging in water at 75° F. ± 2° F. for 4 hours, the material shall not show visual evidence of delamination or separation and shall not show an increase in thickness of more than 20 per cent.

INTERPRETATION 1

The word "manufacture" in line two of paragraph (c) (1) of § 3290.191. (Conservation Order M–217), refers to the operation whereby the features mentioned in subdivisions (i) to (xvii), inclusive, of said paragraph became a part of the footwear.

Illustration: Subdivision (iv) refers to full overlaid tips or full overlaid foxings except on work shoes. The order prohibits the placing of full overlay tips or full overlay foxings on dress shoes after October 31, 1942. But it does not prohibit the completion of the shoe if an overlaid tip or an overlaid foxing has been affixed prior to said date. (Issued October 6, 1942.)

INTERPRETATION 2

FOOTWEAR

The reference to "leather outsoles or outside leather taps," in paragraph (c) (3) of § 3290.191 Conservation Order M–217 designates outsoles and outside taps the wearing qualities of which are derived primarily from leather. For example: An outsole composed primarily of leather but having a paper coating would constitute a "leather outsole," since, presumably the paper would soon disappear and the wearing quality of the sole would rest primarily upon the leather.

On the other hand, if a sole of durable substitute material were cemented on a thin leather sole so that the substitute material received the wear the leather sole would constitute a midsole rather than an outsole.

Similarly, a wooden sole having a leather heel insert to provide nonskid and soundproofing features is not a "leather outsole," because the wear of the shoe is derived mainly from the wooden portion of the sole. (Issued Oct. 18, 1943.)

INTERPRETATION 4

DEFINITIONS

The definition of "price range" in paragraph (b) (11) of Conservation Order M–217 states that price range shall have the usual trade significance so long as the highest list price in the range does not exceed the lowest by more than 10% or 25¢ a pair, whichever is the greater. The January 12, 1944 amendment in paragraph (b) (10) (iii) of the order allows manufacturers of misses' and children's and youths' and boys' footwear to consider their production in each type up to a wholesale price of $1.75 a pair as one line. This does not, however, permit manufacturers to add 25¢ to the $1.75 and consider all misses' and children's and youths' and boys' footwear up to $2.00 as falling within the line. The exemption added by the amendment is one superimposed upon the existing treatment of price lines and cannot be construed to apply to any footwear having a net wholesale price of more than $1.75. (Issued Feb. 26, 1944.)

INTERPRETATION 5

SHOES MANUFACTURED FOR DYEING BY RETAILERS OR CONSUMERS

Paragraph (c) (4) restricts the manufacture of footwear of more than one color. Where a manufacturer produces a line of footwear designed especially for taking dye on the tip, foxing, saddle or other portions, so that it can be converted into a two-tone shoe (such as a spectator or saddle oxford type), and he has reason to believe that it will be converted by retailers or consumers, he is putting material into process for the manufacture of footwear of more than one color. This is prohibited by the paragraph. (Issued Apr. 26, 1944.)

INTERPRETATION 6

TWO-COLOR SHOES ON FOOTWEAR MADE UNDER PARAGRAPH (C) (4) (V)

Paragraph (c) (4) (v) permits the combination of two colors in part leather—part fabric uppers where the leather constitutes not more than 30% of the whole upper material (excluding linings). It is permissible to use in connection with this type of footwear fabric bown in the same two colors, if all other provisions of the order are complied with, including paragraph (d) relating to new styles. (Issued May 25, 1944.)

INTERPRETATION 7

EFFECT OF COLOR RESTRICTIONS ON INVENTORY LIMITATION IN PRIORITIES REGULATION 1

Paragraph (c) (5), limiting the use of colors in footwear, affects the application to shoe manufacturers of the inventory restriction contained in § 944.14 of Priorities Regulation 1. This section of Priorities Regulation 1 provides that no person shall accept delivery of any material if the inventory of such material of the person accepting delivery is, or will, by virtue of such acceptance, become in excess of the practicable minimum working inventory reasonably necessary to meet deliveries of the products of the person accepting delivery, on the basis of his current method and rate of operation.

Paragraph (c) (5) of Conservation Order M–217 prohibits the use of any materials for uppers except material finished or dyed in certain specified colors. Accordingly, any deliveries of upper leather or other material for uppers in colors which are not permitted would constitute a violation of Priorities Regulation 1, since the practicable minimum working inventory reasonably necessary to meet deliveries is, under Priorities Regulation 1, to be computed on the basis of the current method and rate of operation. Inasmuch as manufacturers are not currently permitted to use certain colors, the priorities regulation does not permit the acceptance of deliveries of materials in these colors. (Issued Aug. 15, 1944.)

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M–317,[1] as Amended Aug. 28, 1944]

COTTON TEXTILE DISTRIBUTION AND SALE YARN PRODUCTION

§ 3290.115 *General Conservation Order M–317* The fulfillment of requirements for the defense of the United States has created a shortage in the supply of cotton textiles and materials for making cotton textiles for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense: (a) *Definitions.* In this order (which term includes orders supplementary to this order):

(1) "Cotton textiles" means the following products, containing 50% or more by weight of cotton or cotton waste, or a combination of the two:

(i) Woven and braided fabrics, whether gray, original mill or regular finish, bleached, dyed or printed, and the following cotton products: bedsheets, pillow cases, blankets, towels, diapers, face cloths and table "linens"; and

(ii) Yarns, whether gray, bleached, colored, mercerized, glazed, polished, single, plied, cabled or braided, including thread, twines and cordage (e. g. tying, sail, seine, etc. twine, rope, sash, cord, etc.) and including any of the foregoing which may be spun on roving, ring, mule or converted twister-spindles.

"Cotton textiles" does not include:

Cotton duck as defined in Conservation Order M–91;

Blankets or blanketing containing 25 per cent or more by weight of wool;

Fabrics (other than blankets or blanketing) or yarns containing wool produced on the woolen or worsted system.

(2) (i) "Producer" means any manufacturer who makes cotton textiles in the United States.

(ii) "Intermediate processor" means any person engaged in the United States in the business of bleaching, dyeing or otherwise finishing cotton textiles and delivering or using them in the United States for his own account in the bleached or otherwise finished state.

(iii) "Processor" means any person engaged in the United States in the business of manufacturing or having manufactured in the United States for his account, any product in which cotton textiles are incorporated.

(iv) "Merchant" means any person engaged in the United States in the business of purchasing cotton textiles for resale in the United States in the form in which purchased.

(v) "User" means any person other than a producer, intermediate processor or processor, who purchases cotton textiles for his own use in the United States in any business, industry, profession or occupation.

(vi) Any person who performs the functions of more than one of the foregoing—regardless of his customary manner of conducting his business—shall, for the purpose of the following be deemed a separate person with respect to each of those capacities, and he is required to:

(a) Accept rated orders for cotton textiles in preference to any other contracts, orders or uses even though he has not in the past accepted or filled orders for that particular cotton textile, and also to fill them in accordance with the rules of Priorities Regulation No. 1 (In the case of yarn, this requirement applies only to yarn required to be produced and delivered by the provision of par. (d) of Supplementary Order M317–B);

(b) Use the ratings assigned by this order (including Supplementary Orders M–317A and M–317B) and

(c) Apply the inventory restrictions of this order.

(vii) The definitions in subdivisions (i) to (v) above do not include the United States Army, Navy, Maritime Commission or War Shipping Administration.

(3) Trade terms used in this order shall have their usual trade significance unless otherwise specified.

(b) *Assignment of ratings.*[2] The preference ratings specified in the Preference Rating Schedules of Supplementary Orders M–317A and M–317B are assigned to the persons in Column I for the cotton textiles in Column II to be used only as specified in Column III.

(c) *Compulsory use of ratings assigned in schedules or by Form WPB–2842.* No intermediate processer, processor, merchant or user shall purchase or accept delivery of a cotton textile for a purpose for which a rating for that cotton textile is assigned to him in a Preference Rating Schedule of Supplementary Orders M–317A or M–317B unless he uses that rating or a rating assigned on Form WPB–2842. However, a merchant who purchases cotton textiles for sale at retail, or a user, if he wishes, may purchase or accept delivery of cotton textiles without a preference rating. The provisions of this paragraph do not apply to purchases for delivery or ultimate delivery to, or for incorporation into any product for direct or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration, nor do they prohibit the use of an AAA rating.

This rule does not change the rating on the finished product. For example, even though a manufacturer (processor), who is assigned a rating in the AA–2X Preference Rating Schedule of Supplementary Order M–317A to obtain twills to make coated abrasive products, holds an AA–1 order for coated abrasive products, he must use the AA–2X rating given by the schedule to obtain the twills, and may not extend the AA–1 rating for this purpose. The AA–1 rating, however, remains applicable to the finished coated abrasive product for all other purposes (such as to determine the sequence of deliveries). Similarly in the case of yarns, even though a manufacturer (processor), who is assigned a rating in the AA–2X Preference Rating Schedule of Supplementary Order M–317B to obtain cotton sale yarn to make transmission belts, holds an AA–1 order for transmission belts, he must use the AA–2X rating given by the schedule to obtain the cotton sale yarn and may not use the AA–1 rating for this purpose. The AA–1 rating, however, remains applicable to the product for all other purposes (such as to determine the sequence of deliveries).

(d) *How ratings for cotton textiles are to be applied or extended.* Preference ratings shall be applied and extended as provided in Priorities Regulation 3. The standard certification described in Priorities Regulation 7 may be used in applying or extending the rating, but the provisions of subparagraph (1) or (2) below must also be complied with.

(1) *Cotton textiles for export.* In the case of products which are to be exported (or to replace in inventory the exported product) in the form of cotton textiles or in the form of clothing manufactured for the United States Treasury Procurement Division from piece goods purchased by that Division for the Foreign Economic Administration (except where that product or clothing is for direct or ultimate delivery to the United States Army, Navy, Maritime Commission, War Shipping Administration or American Red Cross), the purchaser shall place upon the purchase order an appropriate

[1] Limitation Order L–99 relates to cotton textile production.

[2] Conservation Order M–328 permits other preference ratings, as well as those assigned by this order, and imposes conditions on the use of all ratings for cotton textiles.

notation (with the blanks properly filled in), substantially as follows:

These cotton textiles will be exported, or will replace in inventory cotton textiles exported after December 24, 1943.

And also one of the following statements is to be made:

The preference rating was applied by the United States Treasury Procurement Division in connection with contract number ..... [In the case of United States Treasury Procurement for Foreign Economic Administration];

or

The preference rating was applied in connection with Export License number ..... dated ....., or Release Certificate number ..... dated ..... [In the case of export in connection with licenses or release certificates issued by Foreign Economic Administration.];

or

The preference rating was applied in connection with the Canadian Cotton Administrator's serial number ..... [In the case of exports to Canada.]

When the above is complied with, the requirements of M-328 are met and it is unnecessary to use any other notation.

If a preference rating for cotton textiles which is assigned by the Foreign Economic Administration on an export license or release certificate has not been applied or extended to an order accepted by a producer or made the subject of a War Production Board scheduling direction at the end of six months from the date of issuance of the license or release certificate, it shall be deemed revoked. Ratings applied or extended to orders accepted by a producer or made the subject of War Production Board scheduling directions at any time before August 1, 1944, for delivery before October 1, 1944, are excepted, however, from this provision.

(2) *Cotton textiles for domestic use.* In all other cases a person (other than the United States Army, Navy, Maritime Commission or War Shipping Administration on their direct purchase orders), applying or extending a rating for a cotton textile, which was assigned by a Preference Rating Schedule or under a War Production Board form, shall place upon the purchase order an appropriate notation, substantially as follows:

This rating has been assigned by M-317, Group(s) No. ..... [Insert applicable group number or numbers of Preference Rating Schedule.]

or

This rating has been assigned under Form WPB ....., Serial No. ..... [Insert the War Production Board form number and its serial number.]

When the above is complied with, the requirements of M-328 are met and it is unnecessary to use any other notation.

(e) *Restrictions relating to fiber or yarn.* (1) No person shall use any preference rating which was assigned, applied or extended for cotton textiles in order to obtain any synthetic fiber or synthetic yarn, except cotton textiles for direct or ultimate delivery to, or for incorporation into any product for direct or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration.

(2) No person shall use any preference rating which was assigned, applied or extended for knitted or woven fabrics, in order to obtain cotton yarns defined in paragraph (a) (1) (ii). If he does not own or control spinning machinery, he may use the rating to obtain cotton yarns for incorporation into products for direct or ultimate delivery to the United States Army, Navy, Maritime Commission or War Shipping Administration. If he does own or control spinning machinery, upon his showing on Form WPB-2842 the extent to which it is insufficient or unsuitable to produce cotton yarns required for incorporation into products for direct or ultimate delivery to the United States Army, Navy, Maritime Commission or War Shipping Administration, the War Production Board may authorize him to use that rating to obtain a specific quantity of cotton yarns for that purpose.

(3) No person owning or controlling spinning machinery shall use any preference rating which was assigned, applied or extended for yarn, in order to obtain cotton yarns defined in paragraph (a) (1) (ii), except to the extent authorized by the War Production Board, upon his showing, on Form WPB-2842, that his own spinning is insufficient or unsuitable.

(f) *Distribution schedules.* (1) Each producer—even if he is also an intermediate processor, processor, merchant or user—shall, from the production of each calendar quarter, deliver or set aside for later delivery on rated orders those percentages of his total production (in pounds or yards according to his usual method of operation) of each cotton textile as specified in the Distribution Schedules of Supplementary Orders M-317A and M-317B. Exceptions from the requirements of the Distribution Schedules of Supplementary Orders M-317A and M-317B may be granted by the War Production Board pursuant to specific applications in writing when the fulfillment of any Distribution Schedule's requirement would prevent deliveries of cotton textiles for orders rated AA-2X or higher.

(2) The War Production Board may establish other percentages with respect to any of the cotton textiles listed in the Distribution Schedules of Supplementary Orders M-317A and M-317B.

(3) The requirements of the Distribution Schedules of Supplementary Orders M-317A and M-317B supersede all authorizations, issued before May 29, 1944, on appeal from this order, from Limitation Order L-99 or from Supplementary Limitation Order L-99-a.

(g) *Advance orders.* No person shall be required to accept any rated order for cotton textiles calling for delivery more than 90 days after the receipt of the order, except from the United States Army, Navy, Maritime Commission or War Shipping Administration.

(h) *Special conditions.* No producer, intermediate processor, processor, merchant or user shall sell, deliver, buy, accept or use a cotton textile or any product containing a cotton textile or assign, apply or extend a preference rating contrary to the provisions in Column III of a Preference Rating Schedule of Supplementary Orders M-317A and M-317B in Column V of a Distribution Schedule of Supplementary Orders M-317A and M-317B or in any written direction of the War Production Board.

(i) *Exports.* No person shall purchase for export without a preference rating any cotton textiles, except woven or braided fabrics 12" or less wide, remnants (pieces shorter than ten yards) and rags (pieces shorter than two yards commonly sold by the pound).

(j) *Inventory restrictions.* No person shall accept delivery of any cotton textiles if his aggregate inventory exceeds or would then exceed the lesser of (1) a practicable minimum working inventory, or (2) his requirements for 90 days (except in the case of merchants and users of cotton textiles used in crop cultivation).

In computing inventory include products in process of manufacture but exclude cotton textiles in transit or in process of conversion.

(k) *Allocation.* The War Production Board may assign preference ratings for or allocate and direct deliveries of cotton textiles pursuant to application on Form WPB-2842.

(l) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board.

(m) *Appeals.* Any appeal from the provisions of this order or of Supplementary Orders M-317A and M-317B shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

(n) *Records and reports.* (1) Each person applying a preference rating assigned in a Preference Rating Schedule of Supplementary Orders M-317A and M-317B shall maintain at his regular place of business accurate records of the quantities of each type of listed cotton textile ordered with the use of such a rating, the quantities of each such type of cotton textile received and entered into production, and the quantities of each listed cotton textile product manufactured. These records shall be preserved for a period of not less than two years, and shall, upon request, be submitted to audits and inspections by duly authorized representatives of the War Production Board. Subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, all persons affected by this order shall execute and file with the War Production Board such reports as the War Production Board shall from time to time request.

(2) All persons operating spindles for the production of cotton yarn of any kind shall file with the War Production Board, at the times specified in the reporting form, reports on Form WPB-658-E, giving the information therein required. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

NOTE: Paragraphs (o) and (p) formerly (n) and (o) redesignated Aug. 28, 1944.

(o) *Violations.* Any person who willfully violates any provision of this order (including Supplementary Orders M-317A and M-317B), or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control, and may be deprived of priorities assistance.

(p) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref.: M-317.

Issued this 28th day of August 1944.

Distribution Schedule 1—Fine Cotton Goods

The changes and percentage obligations in columns III, IV, and V are to be calculated from the first of each calendar quarter beginning July 1, 1944.

(a) Column I indicates the corresponding item numbers of the various cotton textiles in this schedule as each appears on Form WPB-658-C (6/9/44).

(b) Column II shows the cotton textiles covered by this schedule.

(c) Column III shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against rated export orders for cotton textiles. Only deliveries on purchase orders given in conformity with the procedures described in paragraph (d) (1) of Order M-317 (Cotton Textiles for export) may be credited toward this obligation. Export by or for the United States Army, Navy, Maritime Commission, War Shipping Administration, or the American Red Cross may not be credited toward this obligation.

In calculating the export obligation, the producer shall eliminate his production of cotton textiles wider than 42½". However, if he receives a rated export order for these goods he must treat it as a rated order, and the delivery shall be credited toward his export obligation relating to narrower goods within the same reference number.

(d) Column IV shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against all rated orders (including those specified in column III). The producer, however, is not relieved from the necessity of filling additional rated orders which are served upon him in accordance with War Production Board regulations. Where the percentage in column IV amounts to 100, unless otherwise specified, seconds which are produced in the normal course of manufacture may be disposed of without regard to this provision to the extent that rated orders are not offered.

(e) The provisions and explanations stated in column V, unless otherwise specified, apply to the producer, intermediate processor, processor, merchant and user and govern the particular cotton textiles, no matter when produced, converted or ordered, and also products containing those textiles. Piece goods referred to in column V include seconds, shorts and remnants, but not rags.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Supplementary Order M-317B]

COTTON SALE YARN PRODUCTION AND DISTRIBUTION

§ 3290.115b *Supplementary Order M-317B*—(a) *Contents of this order.* This Order M-317B is supplementary to Order M-317 and contains Preference Rating Schedules and a Distribution Schedule referred to in that order. These schedules apply only to cotton yarn. (Cotton yarn is included in the definition of "Cotton textiles" in Order M-317.) This order also contains provisions relating to production of cotton yarn, including provisions which have been transferred from Order L-99 to this order. Furthermore, it contains provisions relating to distribution of cotton yarn which are in addition to those contained in Order M-317.

(b) *Specific directions to producers and converters.* No producer or converter of cotton yarn shall produce, convert or deliver cotton yarn and no person shall accept delivery of cotton yarn from a producer or converter contrary to any specific direction which may be issued from time to time by the War Production Board.

(c) *Operation of spinning machinery.* (1) No person, regardless of the presentation of rated orders, shall operate spinning machinery (i. e., roving, ring, mule or converted twister spindles) contrary to the provisions in the Sale Yarn Production Schedule of this supplementary order.

(2) *Spinning machinery acquired after July 3, 1943.* No person shall operate any spinning machinery acquired (the term includes leasing or renting) by him after July 3, 1943, except for the production of yarn required to be produced by paragraph (d) of this supplementary order or as specifically authorized in writing by the War Production Board. For such authorizations, application may be made by letter to the War Production Board stating all facts which the applicant deems important and pertinent to his particular case. In all instances he shall state the type of yarn he wishes to produce and in instances where he has acquired used spinning machinery he shall state the name of the person who formerly owned or controlled the equipment and the yarn produced by such former owner. Authorizations will be granted to maintain a maximum practical production of cotton yarn.

(d) *Sale yarn production directions*—(1) *Yarn described in sale yarn production schedule.* Each producer of yarn must in each calendar quarter produce and deliver at least the same poundage of cotton yarn in the description and counts listed for each of the numbered groups in the "May produce only" column of the Sale Yarn Production Schedule of this supplementary order as he delivered in these groups in that calendar quarter of 1943 in which he delivered the largest percentage of his yarn production. This calendar quarter is called "base period." The required poundage of each description and count of yarn must be produced for sale at the same price (or any increase subsequently granted by the OPA for the same description and count) at which the required poundage in the particular description and count was produced in the base period. No part of this yarn required to fill rated orders shall be tinted, dyed, or otherwise colored, unless the rated order calls for a tinted, dyed, or otherwise colored yarn.

(2) *Duck yarns.* Each producer must in each calendar week produce and deliver duck yarns of at least the same poundage as he delivered in the week in 1944 in which he delivered the largest poundage of duck yarns. Each producer shall be deemed in compliance with this paragraph (d) (2) as long as he delivers each week at least the same poundage of duck yarns as he delivered in the week in 1944 in which he delivered the largest poundage of duck yarns.

Producers who have facilities which can produce additional quantities of duck yarns may receive special directions from the War Production Board to deliver specific amounts to designated weavers.

(3) *Twine layers and ring twisters operations.* Each Haskell-Dawes, Brownell or ring twister and each twine layer in the possession or under the control of any producer shall be operated at least as many hours per week as any twister or any twine layer is operated at the same plant.

(e) *Restrictions on distribution and use of cotton yarn and roving*—(1) *Roving.* No spinner shall use or dispose of roving except for spinning or on rated orders, unless specifically authorized in writing by the War Production Board. An authorization to use roving for other purposes may be granted if the War Production Board finds that the roving produced by spinners, who do not have spinning spindles, is not needed to fill rated orders, or in cases where spinners show that their spinning spindles are operating at maximum capacity. To secure such authorizations, an application must be made by letter to the War Production Board, stating the quantity of roving which the applicant wishes to use or dispose of for other than spinning or the filling of rated orders; and the hours per week which each spinning machine is being operated.

(2) (i) *Seine twine, hawser cord, cabled cord, twisted or braided cord rope. Sales.* No person shall sell, purchase, deliver or accept delivery of cotton seine twine, hawser cord or other cabled cord, or twisted or braided cord rope ⅛ to ⅜ inch in diameter, inclusive (even to fill orders of the Army, Navy, Maritime Commission or War Shipping Administration) except to fill an order bearing a preference rating assigned on Form WPB-2842, WPB-547 (distributors application for preference rating), or a rating assigned by the Foreign Economic Administration, or a rating assigned in connection with an authorization from the Canadian Cotton Administrator. Insofar as practicable, authorizations will cover quarterly periods.

(ii) The following transactions are exempted from the restrictions in subdivision (i):

(*a*) Sales by wholesalers and retailers; (*b*) sales made directly by a producer to a consumer for his own use, provided that not more than 25 pounds per month may be sold to any one customer; (*c*) sales which are authorized pursuant to written application to the War Production Board (application for such authorization shall be made by letter and will be granted within the available supply to producers of commercial fish netting who regularly sold such material prior to August 15, 1944, to commercial fish netting users for hanging and repair of netting and insofar as practicable, authorizations will cover quarterly periods); and (*d*) deliveries made prior to October 1, 1944, on orders accepted prior to August 15, 1944, from the Army, Navy, Maritime Commission or War Shipping Administration.

(3) *Use by integrated mills producing seine twine, hawser cord, or other cabled cord.* No person who produces seine twine, hawser cord or other cabled cord shall use it for the manufacture of netting or other purposes even in plants owned or controlled by him unless authorized by the War Production Board pursuant to application by letter. The authorization will be based on the procurements of the Armed Services for camouflage netting and the needs for commercial fish netting. Insofar as practicable, authorizations will cover quarterly periods.

(4) *Use of seine twine, hawser cord, cabled cord, twisted or braided cord rope obtained with a preference rating.* No person shall put into process, process or commercially use any seine twine, hawser cord or other cabled cord, or twisted or braided cord rope ⅛ to ⅜ inch in diameter, inclusive, which he obtained by the use of a preference rating, other than for the specific purpose or purposes au-

thorized by the form assigning the rating. If the rating is assigned on Form WPB-547, the authorized purpose is resale. If the rating is assigned by the Foreign Economic Administration, or in connection with an authorization from the Canadian Cotton Administrator, the authorized purpose is export. If the rating is assigned on Form WPB-2842 for delivery to or for the account of the Army or Navy of the United States, the Maritime Commission or the War Shipping Administration, the authorized purpose is filling the specific agency contract(s) listed in the form unless otherwise authorized in the form. In all other cases the authorized purpose is the one specifically stated in Form WPB-2842 assigning the rating.

Issued this 28th day of August 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

Roving, ring, mule or converted twister spindles which on July 1, 1944 produced or were assigned to produce the yarn and twine listed in the column captioned "Did produce" may produce only yarn and twine of the descriptions and counts specified in the column captioned "May produce only". All authorizations relating to the subject matter of this schedule issued before July 22, 1944, on appeal from Limitation Order L-99 or from Supplementary Limitation Order L-99-a are revoked.

Distribution Schedule—Cotton Sale Yarn, Cordage, Twine and Roving

The percentage obligations in Column III are to be calculated on production from August 1 through September 30, 1944, and from the first of each calendar quarter beginning October 1, 1944. The percentage obligations in Column III of the Distribution Schedule of Order M–317 as amended July 5, 1944, applied on production from May 29, 1944, through July 31, 1944. The changes and the percentage obligations in Columns IV and V are to be calculated on production from the first of each calendar quarter beginning July 1, 1944.

(a) Column I indicates the corresponding item numbers of the various cotton yarns in this schedule as each appears on Form WPB–658–E (6/9/44).

(b) Column II shows the descriptions and counts of yarns covered by this schedule.

(c) Column III shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against rated export orders for cotton yarns. Only deliveries on purchase orders given in conformity with the procedures described in paragraph (d) (1) (Cotton textiles for export) of Order M–317 may be credited toward this obligation. Exports by or for the United States Army, Navy, Maritime Commission or War Shipping Administration may not be credited toward this obligation.

(d) Column IV shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against all rated orders. However, where the percentage in Column IV amounts to 100, unless otherwise specified, seconds which are produced in the normal course of manufacture may be disposed of without regard to this provision to the extent that rated orders are not offered.

(e) Column V shows the percentage of the producer's current calendar quarterly production beyond which he need not accept rated orders. Priorities Regulation 1 applies up to that percentage. If receipt of an order which is rated higher than a previously accepted rated order would result in having more rated orders than the Column V percentage, then the lowest rated order shall be displaced and it may be filled only from that percentage applicable to a subsequent quarter.

(f) The provisions and explanations stated in Column VI, unless otherwise specified, apply to the producer, intermediate processor, processor, merchant and user and govern the particular types and counts of yarns, no matter when produced, converted or ordered, and also products containing these yarns. However, the restrictions in Column VI relating to exports do not apply where the export license or release certificate was issued before April 27, 1944.

ARTICLE I—PURPOSE OF REVISED PROCEDURAL REGULATION NO. 1

SECTION 1. *Purpose.* It is the purpose of this regulation to prescribe and explain the procedure used by the Office of Price Administration in making various kinds of price determinations.

(a) Article II deals with the procedure of the Office of Price Administration in issuing maximum price regulations.

(b) Article III deals with individual applications for adjustment of maximum price established by a maximum price regulation. An adjustment ordinarily affects the prices of one particular seller or group of sellers who apply for a change in the prices established for them by the provisions of a maximum price regulation. An adjustment can be granted only if the applicable maximum price regulation contains specific provision for the granting of an adjustment.

(c) Article IV deals with petitions for amendment. A petition for amendment may be filed by any person who is affected by a maximum price regulation and who desires a change of general applicability in the provisions of the regulation itself. It is the appropriate document to be filed when a person does not wish to file a formal statutory protest or is not entitled to do so because he is not subject to the regulation as defined in section 24 of this revised procedural regulation.

[Paragraph (c) amended by Am. 9, effective 9–1–44]

(d) Article V deals with protests. The nature and function of protests are set forth in general in the introduction to Article V, preceding section 24.

[Paragraph (d) amended by Am. 8, 9 F.R. 7501, effective 7–3–44 and Am. 9, effective 9–1–44]

(e) Article VI explains the way in which interpretations are rendered by officers or employees of the Office of Price Administration.

(f) Article VII contains miscellaneous provisions and definitions.

[Sec. 1 amended by Am. 7, 9 F.R. 5791, effective 5–31–44 and as otherwise noted]

ARTICLE II—ISSUANCE OF MAXIMUM PRICE REGULATIONS

SEC. 2. *Investigation prior to issuance.* A maximum price regulation may be issued by the Administrator after such studies and investigations as he deems

necessary or proper. Before issuing a maximum price regulation the Administrator shall, so far as is practicable, advise and consult with representative members of the industry which will be affected by such regulation.

SEC. 3. *Price hearing prior to issuance.* Whenever the Administrator deems it necessary or proper that a price hearing be held prior to the issuance of a maximum price regulation, he may provide for such hearing in accordance with sections 4 and 5 of this revised procedural regulation.

SEC. 4. *Notice of pre-issuance hearing.* Notice of any price hearing ordered prior to the issuance of a maximum price regulation shall be given by publication of such notice in the FEDERAL REGISTER, and may be supplemented by notice given in any other appropriate manner. The notice shall state the time and place of the price hearing and shall contain an appropriate indication of the purposes of such hearing.

SEC. 5. *Conduct of pre-issuance hearing.* A price hearing held prior to the issuance of a maximum price regulation shall be conducted in such manner, consistent with the need for expeditious action, as will permit the fullest possible presentation of evidence by such persons as are, in the judgment of the Administrator, best qualified to provide information with respect to matters considered at the hearing or most likely to be seriously affected by action which may be taken as a result of the hearing.

SEC. 6. *Statement of considerations.* Every maximum price regulation shall be accompanied by a statement of the considerations involved in its issuance. Such statement may include economic data and other facts of which the Administrator has taken official notice and facts found by the Administrator as a result of action taken under section 202 (a) of the Act.

SEC. 7. *Notice of provisions of a maximum price regulation.* Notice of the provisions of a maximum price regulation shall be given by filing such regulation with the Division of the Federal Register. As soon as possible after the filing of such regulation, the Administrator shall make copies thereof available to the press.

SEC. 8. *Effective date.* A maximum price regulation shall become effective 5 days after the date of its issuance and a temporary maximum price regulation shall become effective from the date of its issuance, unless an earlier or later date is specified therein.

[Sec. 8 amended by Am. 7, 9 F.R. 5791, effective 5-31-44]

ARTICLE III—APPLICATIONS FOR ADJUSTMENT

SEC. 9. *Right to apply for adjustment.* Unless otherwise provided, any person subject to a maximum price regulation who seeks adjustment under an adjustment provision thereof, shall make application therefor pursuant to the provisions of this Revised Procedural Regulation No. 1.

[Sec. 9 amended by Am. 7, 9 F.R. 5791, effective 5-31-44]

SEC. 10. *Place of filing.* All applications may be filed with a district, state or regional office of the Office of Price Administration or with the Office of Price Administration, Washington, D. C., without regard to whether such office is authorized to consider such applications. If the office with which the application is filed is not so authorized it will forward such application to the authorized office and shall notify the applicant by mail of such forwarding. If an adjustment provision in a maximum price regulation indicates which office of the Office of Price Administration is authorized to consider applications for adjustment, action on an application will be expedited if it is filed with the nearest office authorized to consider it.

SEC. 11. *Authorized office.* When used in this Article II the authorized office shall be the Office of Price Administration, Washington, D. C. and, when the Regional Administrator of a regional office or the State or District Director of a district office of the Office of Price Administration is authorized to act upon an application for adjustment, shall include such regional or district office, as the case may be.

[Sec. 11 amended by Am. 7, 9 F.R. 5791, effective 5-31-44]

SEC. 12. *Form of application.* Applications for adjustment shall be filed upon such forms as the Administrator, or the Regional Administrator or State or District Director of the authorized office, as the case may be, shall from time to time prescribe. If no form has been designated for applications for the particular type of adjustment sought, the application shall set forth the following:

(a) Name and post office address of the applicant, the nature of his business, and the manner in which he is subject to the price regulation in question.

(b) A designation of the provision for adjustment pursuant to which the application is filed.

(c) The information, if any, required by the terms of the applicable adjustment provision.

(d) A clear and concise statement of the facts upon which applicant relies to qualify him for adjustment under the applicable adjustment provision, to the extent that such facts are not furnished under (c) above.

(e) A statement of the specific adjustment or other relief sought.

Applications for adjustment and all accompanying documents shall be filed in duplicate.

[Sec. 12 amended by Am. 7, 9 F.R. 5791, effective 5-31-44]

SEC. 13. *Applications must be signed.* Any application for adjustment filed pursuant to the provisions of this Revised Procedural Regulation No. 1 shall be signed either by the applicant personally, or if a partnership by a partner, or if a corporation or association by a duly authorized officer thereof.

[Sec. 13 added by Am. 7, 9 F.R. 5791, effective 5-31-44. Former section 13 revoked by Am. 3, 8 F.R. 6173, effective 5-17-43]

SEC. 14. *Joint applications—Consolidation.* (a) Two or more persons may file a joint application for adjustment where at least one ground is common to all persons joining therein. A joint application shall be signed by each applicant in accordance with section 13 and shall be filed and determined in accordance with the rules governing the filing and determination of applications filed by one person. Whenever the authorized office deems it necessary or appropriate for the disposition of joint applications, it may treat joint applications separately, and, in any event, may require the filing of relevant materials by each individual applicant.

(b) Whenever the authorized office deems it necessary or appropriate for the disposition of the applications filed by more than one person, it may consolidate the applications.

[Sec. 14 amended by Am. 3, 8 F.R. 6173, effective 5-17-43 and Am. 7, 9 F.R. 5791 effective 5-31-44]

SEC. 15. *Investigation of application.* Upon receipt of an application for adjustment, the authorized office or any office designated by the authorized office may make such investigation of the facts involved in the application, hold such conferences, and request the filing of such supplementary information as may be necessary to the proper disposition of the application.

SEC. 16. *Action by the authorized office on applications for adjustment.* Within a reasonable time after the authorized office receives an application for adjustment, the Administrator, or the authorized Regional Administrator or State or District Director, as the case may be, may either

[Above sentence amended by Am. 7, 9 F.R. 5791, effective 5-31-44]

(a) Dismiss any application for adjustment which fails substantially to comply with this Revised Procedural Regulation No. 1; or

(b) Grant or deny, in whole or in part, any application for adjustment which is properly pending before it. The applicant shall be informed in writing of the action so taken; or

(c) In cases of unusual difficulty or importance, refer the application for action either to the Regional Office for the region in which the authorized office is located; or if the authorized office is itself a Regional Office, to the Administrator. An office so referring an application shall inform the applicant of such action.

SEC. 17. *Requests for review.* (a) Any applicant whose application for adjustment has been denied in whole or in part by a State or District Director of a district office of the Office of Price Administration may, within 60 days after the date on which notice of denial was mailed to him, file with such office a request for review by the Regional Administrator for the region in which such office is located. Where no form has otherwise been provided, a request for review shall be filed on Form OPA-1PR-2 set out in Appendix A. This form may be obtained from any field office of the Office of Price Administration or may be copied by the applicant from Appendix A.

[Paragraph (a) amended by Am. 9, effective 9-1-44]

(b) Any applicant whose application for adjustment has been denied in whole or in part by a Regional Administrator in the first instance, may, within 60 days after the date on which notice of denial was mailed to him, file with the regional office a request for review by the Administrator of such denial.

[Paragraph (b) amended by Am. 8, 9 F.R. 7501, effective 7-3-44]

(c) *Timely filing.* Requests for review shall be deemed filed on the date received by the state or district or regional office: *Provided,* That requests for review properly addressed to the appropriate district or regional office, bearing a post-mark dated within 60 days after the date on which the order of denial was mailed but received after the expiration thereof, shall be deemed to have been filed on the date of the post-mark.

[Paragraph (c) added by Am. 8, 9 F.R. 7501, effective 7-3-44]

[Sec. 17 amended by Am. 2, 8 F.R. 3533, effective 3-20-43; Am. 3, 8 F.R. 6173, effective 5-17-43; Am. 7, 9 F.R. 5791, effective 5-31-44 and as otherwise noted]

SEC. 18. *Action on review.* After due consideration the Administrator or the Regional Administrator, as the case may be, shall grant or deny in whole or in part, any application for adjustment as to which a proper request for review has been filed. The applicant shall be informed in writing of the action so taken.

SEC. 19. *Protest of denial of application.* Any applicant whose application for adjustment has been denied in whole or in part by the Administrator, or, upon request for review, by any Regional Administrator, may file a protest against such order in accordance with the provisions of this Revised Procedural Regulation No. 1. There is no specific statutory limit of time within which protests must be filed. However, as the United States Emergency Court of Appeals has stated in its opinion in the case of R. E. Schanzer, Inc. v. Bowles, 141 F. (2d) 262 (1944), if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. Where such an order is issued denying a seller's application for adjustment of his own maximum price, ordinarily there will be no reason why he cannot file a protest promptly after the order of denial is issued. Accordingly, in such a case, if a protest is filed more than 90 days after the issuance of the order, the Administrator will ordinarily regard the delay as unreasonable and dismiss the protest unless special circumstances are shown which justify the delay. An order denying an application for adjustment may be protested, under Article V, in the same manner as a maximum price regulation. However, the protest may be based only upon grounds raised in the application for adjustment.

[Secs. 18 and 19 amended by Am. 7, 9 F.R. 5791, effective 5-31-44; and Am. 8, 9 F.R. 7501, effective 7-3-44]

ARTICLE IV—PETITION FOR AMENDMENT

SEC. 20. *Right to file a petition.* (a) A petition for amendment may be filed at any time by any person subject to or affected by a provision of a maximum price regulation. A petition for amendment shall propose an amendment of general applicability and shall be granted or denied solely on the merits of the amendment proposed. The denial of a petition for amendment is not subject to protest or judicial review under the act.

(b) Any governmental agency exercising regulatory authority over prices which are subject to a maximum price regulation may file a petition for amendment of either general or specific applicability based upon findings made by such agency after public hearing.

SEC. 21. *Time and place for filing petitions; form and contents.* A petition for amendment shall be filed with the Secretary, Office of Price Administration, Washington, D. C. Five copies of the petition and of all accompanying documents and briefs shall be filed. Each copy shall be printed, typewritten, mimeographed, or prepared by a similar process, and shall be plainly legible. Copies shall be double spaced, except that quotations shall be single spaced and indented. Every petition shall contain, upon the first page thereof, the number and the date of issuance of the maximum price regulation to which the petition relates, and shall be designated "Petition for Amendment"; shall state the name and address of the petitioner, shall specify the manner in which the petitioner is subject to or affected by the provision of the maximum price regulation involved, and shall include a specific statement of the particular amendment desired and the facts which make that amendment necessary or appropriate. The petition shall be accompanied by statements setting forth the evidence upon which the petitioner relies in his petition.

[Sec. 21 amended by Am. 3, 8 F.R. 6173, effective 5-17-43 and Am. 4, 8 F.R. 11806, effective 8-24-43]

SEC. 22. *Joint petitions for amendment.* Two or more persons may file a joint petition for amendment. Joint petitions shall be filed and determined in accordance with the rules governing the filing and determination of petitions filed by one person. A joint petition may be filed only where at least one ground is common to all persons joining it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint petitions, he may treat such joint petitions as several and, in any event, he may require the filing of relevant material by each individual petitioner.

SEC. 23. *Action by the Administrator on petition.* In the consideration of any petition for amendment the Administrator may afford to the petitioner and to other persons likely to have information bearing upon such proposed amendment, or likely to be affected thereby, an opportunity to present evidence or argument in support of, or in opposition to, such proposed amendment. Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more petitions for amendment, the Administrator may consolidate such petitions.

ARTICLE V—PROTESTS

INTRODUCTION

Article V deals with protests. A protest is the means provided by section 203 (a) of the act for making formal objections to a maximum price regulation. Ordinarily, the filing of a protest is also a prerequisite to obtaining judicial review by the Emergency Court of Appeals of the validity of a maximum price regulation. The only other method of obtaining judicial review is the filing of a complaint in the Emergency Court of Appeals after obtaining special leave to do so in an enforcement proceeding pursuant to section 204 (e) of the Act.

Article V also contains provisions for consideration of protests by boards of review in accordance with section 203 (c) of the Act. A protestant is entitled to consideration of his objections by a board of review if he files a protest in accordance with the provisions of this regulation, making a specific request for consideration by a board of review in accordance with section 35 (b) of this regulation.

[Introduction added by Am. 9, effective 9-1-44]

GENERAL PROVISIONS

SEC. 24. *Right to protest.* Any person subject to any provision of a maximum price regulation may file a protest against such provision in the manner set forth below. A person is, for the purposes of this revised procedural regulation, subject to a provision of a maximum price regulation only if such provision prohibits or requires action by him, *Provided, however,* That a producer of an agricultural commodity shall be considered to be subject to a maximum price regulation for the purpose of asserting any right created by section 3 (c) of the Emergency Price Control Act of 1942 or section 3 of the Stabilization Act of 1942 (Pub. Law 729, 77th Cong.), as amended by the Stabilization Extension Act of 1944 (Pub. Law 383, 78th Cong.), for the benefit of producers of such an agricultural commodity. Any protest filed by a person not subject to the provision protested, or otherwise not in accordance with this revised procedural regulation, may be dismissed by the Administrator.

[Sec. 24 amended by Am. 9, effective 9-1-44]

SEC. 25. *Action by representative.* Any action which by this revised procedural regulation is required of, or permitted to be taken by, a protestant may, unless otherwise expressly stated [as in section 35 (a) (7)] be taken on his behalf by any person whom the protestant has by written power of attorney authorized to represent him. Such power of

attorney, signed by the protestant, shall be filed with the protest.

[Sec. 25 amended by Am. 7, 9 F.R. 5791, effective 5-31-44 and Am. 9, effective 9-1-44]

SEC. 26. *Time and place for filing protests.* (a) A protest against a provision of a maximum price regulation may be filed at any time after the issuance thereof. Protests shall be filed with the Secretary, Office of Price Administration, Washington D. C., except that the protest of any person having his principal place of business in a territory may be filed with the director of the appropriate territorial office.

(b) Protests shall be deemed filed on the date received by the Secretary, Office of Price Administration, Washington D. C., or by the director of the appropriate territorial office, as the case may be.

[Sec. 26 amended by Am. 3, 8 F.R. 3533, effective 3-20-43; Am. 6, 9 F.R. 3075, effective 3-20-44; Am. 8, 9 F.R. 7501, effective 7-3-44; and Am. 9, effective 9-1-44]

SEC. 27. *Form of protest and number of copies.* Every protest shall contain upon the first page thereof a heading or title clearly designating it as a protest. The protest shall also contain on the first page thereof the number of the maximum price regulation against a provision of which the protest is directed. Five copies of the protest and of all accompanying documents and briefs shall be filed.

[Sec. 27 amended by Am. 7, 9 F.R. 5791, effective 5-31-44 and Am. 9, effective 9-1-44]

SEC. 28. *Assignment of docket number.* Upon receipt of a protest it shall be assigned a docket number, of which the protestant shall be notified, and all further papers in the proceedings shall contain on the first page thereof the docket number so assigned and the number of the maximum price regulation protested.

[Sec. 28 amended by Am. 9, effective 9-1-44]

SEC. 29. *Protest and evidential material not conforming to this regulation.* In any case where a protest or accompanying evidential material does not conform, in a substantial respect, to this revised procedural regulation, the Administrator may dismiss such protest, or, in his discretion, may strike such evidential material from the record of the proceedings in connection with the protest.

[Sec. 29 amended by Am. 8, 9 F.R. 7501, effective 7-3-44 and Am. 9, effective 9-1-44]

SEC. 30. *Joint protests.* Two or more persons may file a joint protest. Joint protests shall be filed and determined in accordance with the rules governing the filing and determination of protests filed by one person. A joint protest shall be verified in accordance with section 35 (a) (7) by each protestant. A joint protest may be filed only where at least one ground is common to all persons joining in it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by each individual protestant.

[Sec. 30 amended by Am. 8, 9 F.R. 7501, effective 7-3-44 and Am. 9, effective 9-1-44]

SEC. 31. *Consolidation of protests.* Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests the Administrator may consolidate such protests.

SEC. 32. *Amendment of protests and presentation of additional evidence.* In general, all of the objections upon which a protestant intends to rely in the protest proceedings must be clearly stated in the protest when it is filed and all of the evidence which the protestant wishes to offer in support of the protest must be filed at the same time. Exceptions to this rule are stated in sections 36 (b) and 37, relating to evidence not subject to protestant's control and the submission of oral testimony. A protestant may, however, be granted permission to amend his protest so as to state additional objections or to present further evidence in connection therewith upon a showing of reasonable excuse for failure to present such objections, or evidence, at the time the protest was first filed. The permission will be granted only if, in the judgment of the Administrator, it will not unduly delay the completion of the proceedings on the protest.

[Secs. 31 and 32 amended by Am. 9, effective 9-1-44]

SEC. 33. *Action by the Administrator on protest.* (a) Within a reasonable time after the filing of any protest in accordance with this revised procedural regulation, but in no event more than thirty days after such filing, the Administrator shall:

(1) Grant or deny such protest in whole or in part;

(2) Notice such protest for hearing of oral testimony in accordance with sections 37 or 42 of this revised procedural regulation;

(3) Notice such protest for hearing of oral argument by a board of review in accordance with section 46;

(4) Provide an opportunity to present further evidence in connection with such protest. Within a reasonable time after the presentation of such further evidence, the Administrator may notice such protest for hearing of oral testimony in accordance with subparagraph (2) of this section, notice the protest for hearing of oral argument by a board of review in accordance with subparagraph (3) of this section, include additional material in the record of the proceedings on the protest in accordance with section 40 of this revised procedural regulation, or take such other action as may be appropriate to the disposition of the protest.

(b) Notice of any such action taken by the Administrator shall promptly be served upon the protestant.

(c) Where the Administrator has ordered a hearing on a protest or has provided an opportunity for the presentation of further evidence in connection therewith, he shall, within a reasonable time after the completion of such hearing or the presentation of such evidence, grant or deny such protest in whole or in part.

[Sec. 33 amended by Am. 8, 9 F.R. 7501, effective 7-3-44, and Am. 9, effective 9-1-44]

SEC. 34. *Basis for determination of protest*—(a) *Record of the proceedings.* The factual basis upon which a protest is determined is to be found in the record of the proceedings. This record consists of the following:

(1) The protest and supporting evidential material properly filed with the Secretary of the Office of Price Administration, or the director of the appropriate territorial office, in accordance with sections 35 and 36 of this revised procedural regulation;

(2) Materials incorporated into the record of the proceedings by the Price Administrator under sections 40 and 41, inclusive, of this regulation;

(3) Oral testimony taken in the course of the proceedings in accordance with sections 37 and 42;

(4) All orders and opinions issued in the course of the proceedings;

(5) The statement of considerations accompanying the maximum price regulation protested; and

(6) If the protest is to an order denying an application for adjustment under a provision of a maximum price regulation, the application, materials filed in support thereof in accordance with the provisions of the maximum price regulation, and the order and opinion denying the application.

(b) *Facts of which the Administrator has taken official notice.* The above-listed documents may contain, as provided by section 202 (b) of the Act, statements of economic data and other facts of which the Administrator has taken official notice, including facts found by him as a result of reports filed and studies and investigations made pursuant to section 202 of the Act.

(c) *Briefs and arguments.* Briefs and oral arguments submitted or presented in accordance with this revised procedural regulation are, of course, considered in the determination of a protest. They are, however, not a part of the record of the proceedings and are not included in the transcript of protest proceedings which is filed, in case of appeal, with the Emergency Court of Appeals.

[Sec. 34 amended by Am. 9, effective 9-1-44]

CONTENTS OF PROTESTS AND SUPPORTING MATERIALS

SEC. 35. *Contents of protests*—(a) *What each protest must contain.* Every protest shall set forth the following:

(5) A clear and concise statement of all facts alleged in support of each objection;

(6) A statement of the relief requested by the protestant, including, if the protestant requests modification of a provision of the maximum price regulation, the specific changes which he seeks to have made in the provision;

(7) A statement signed and sworn to (or affirmed) before an officer authorized to take oaths either by the protestant personally, or, if a partnership, by a partner, or, if a corporation or association, by a duly authorized officer, that the protest and the documents filed therewith are prepared in good faith and that the facts alleged are true to the best of his knowledge, information and belief. The protestant shall specify which of the facts are alleged and known to be true and which are alleged on information and belief.

(b) *Request for consideration by a board of review.* A protestant who wishes his protest considered by a board of review must specifically so request, indicating, if he wishes to offer oral argument, the order of his preference as to (1) argument before a board of review in Washington, D. C.; (2) argument before a subcommittee consisting of one member of a board at a location named by him. Section 45 of this revised procedural regulation sets forth the considerations which will be determinative in the decision as to where oral argument may be heard. The request for consideration by a board of review must be made either in the protest or in an amendment thereto filed within fifteen days of the date the protest is filed. Such an amendment shall be deemed filed within the fifteen day period if it is received by the Secretary, Office of Price Administration, Washington, D. C., or by the director of the appropriate territorial office, no later than the fifteenth day after the protest was filed. Further provisions with respect to proceedings before a board of review are to be found in sections 43 to 50, inclusive, of this regulation.

[Sec. 35 amended by Am. 8, 9 F.R. 7501, effective 7-3-44 and Am. 9, effective 9-1-44]

SEC. 36. *Affidavits or other written evidence in support of protest.* Every protestant shall file, together with his protest, the following:

(a) Affidavits setting forth in full all the evidence the presentation of which is subject to the control of the protestant upon which the protestant relies in support of the facts alleged in the protest. Each such affidavit shall state the name, post office address, and occupation of the affiant; his business connection, if any, with the protestant; and whether the facts set forth in the affidavit are stated from personal knowledge or on information and belief. In every instance the affiant shall state in detail the sources of his information.

(b) A statement by the protestant in affidavit form setting forth in detail the nature and sources of any further evidence, not subject to his control, upon which he believes he can rely in support of the facts alleged in his protest. Such statement shall be accompanied by an application for assistance, by way of subpoena, interrogatories, or otherwise, in obtaining the documentary evidence, or the evidence of persons, not subject to protestant's control, showing, in any case, what material facts would be adduced thereby. Such application, if calling for the evidence of persons; shall specify the name and address of each person, and the facts to be proved by him, and if calling for the production of documents, shall specify them with sufficient particularity to enable them to be identified for purposes of production.

SEC. 37. *Receipt of oral testimony.* (a) In most cases, evidence in protest proceedings will be received only in written form. Experience in the consideration of protests has demonstrated that this procedure is most conducive to the fair and expeditious disposition of protests. However, the protestant may request the receipt of oral testimony. Such request shall be accompanied by a showing by the protestant as to why the filing of affidavits or other written evidence will not permit the fair and expeditious disposition of the protest.

(b) In the event that the Administrator orders the receipt of oral testimony, notice shall be served on the protestant not less than five days prior to the receipt of such testimony. If a hearing is to be held to receive the testimony, the notice shall state the time and place of the hearing and the presiding officer designated by the Administrator.

(c) A stenographic report of any hearing of oral testimony shall be made, a copy of which shall be available during business hours in the Office of the Secretary, Office of Price Administration, Washington, D. C.

SEC. 38. *Submission of brief by protestant.* The protestant may file with his protest and accompanying evidential material a brief in support of the objections set forth in the protest. Such brief shall be submitted as a separate document, distinct from the protest and evidential material.

MATERIAL IN SUPPORT OF THE REGULATION PROTESTED

SEC. 39. *Statements of considerations.* The statement of considerations accompanying a maximum price regulation at the time of issuance contains economic and other material supporting the regulation. This statement, a copy of which can be obtained from the Office of Price Administration, is a document of public record, filed with the Division of the Federal Register. It is considered a part of the record of protest proceedings without formal incorporation therein.

SEC. 40. *Incorporation of material in the record by the Administrator.* In addition to the statement of considerations, the Administrator shall include in the record of the proceedings on the protest such evidence, in the form of affidavits or otherwise, as he deems appropriate in support of the provisions against which the protest is filed. When such evidence is incorporated into the record, and is not so incorporated at a hearing of oral testimony, copies thereof shall be served upon the protestant, and the protestant will be given a reasonable opportunity to present evidence in rebuttal thereof.

SEC. 41. *Other written evidence in support of the maximum price regulation.* (a) Any person affected by the provisions of a maximum price regulation may at any time after the issuance of such regulation submit to the Administrator a statement in support of any such provision or provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum price regulation in question, and may be accompanied by affidavits and other data in written form. Each such supporting statement shall conform to the requirements of section 27 of this revised procedural regulation.

(b) In the event that a protest has been, or is subsequently, filed to a provision of a maximum price regulation in support of which a statement has been submitted, the Administrator may include such statement in the record. If such supporting statement is incorporated into the record, and is not so incorporated at a hearing of oral testimony, copies of such supporting statement shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

[Secs. 36, 37, 38, 39, 40, and 41 amended by Am. 9, effective 9-1-44]

SEC. 42. *Receipt of oral testimony in support of the regulation.* Ordinarily, material in support of the maximum price regulation protested, like material in support of protests, will be received in the protest proceeding only in written form. Where, however, the Administrator is satisfied that the receipt of oral testimony is necessary to the fair and expeditious disposition of the protest, he may, on his own motion, direct such testimony to be received. In that event, the oral testimony will be taken in the manner provided in section 37 of this regulation.

[Sec. 42 amended by Am. 4, 8 F.R. 11806, effective 8-24-43 and Am. 9, effective 9-1-44]

BOARDS OF REVIEW

SEC. 43. *Right to consideration by a board of review.* Under section 203 (c) of the Act, a protest filed after September 1, 1944 must, upon the protestant's request, be considered by a board of review before it can be denied in whole or in part. Consideration of the record in a protest proceeding by a board of review is undertaken for the purpose of reconsidering the provision or provisions of the maximum price regulation protested and recommending action relative thereto to the Administrator. A board of review considers the protest upon the basis of the record which has been developed in the proceedings. Protestant is accorded an opportunity to present oral argument to a board, upon the basis of the objections raised in the protest and the evidence in the record, and guided by the explanatory statement of the issues in the notice of consideration by a board of review. Section 34 of this revised procedural regulation explains the nature of the record in the proceedings. Section 35 (b) explains the nature of such a request and states the time within which it must be filed.

SEC. 44. *Composition of boards of review.* A board of review is composed of one or more officers or employees of the Office of Price Administration designated by the Administrator to review the record of the proceedings on a particular protest and make recommendations to him as to its disposition. The number of members constituting a board will be determined in the light of the scope and complexity of the issues presented. When a board consists of more than one member, ordinarily at least one member shall be selected who has been directly responsible for the formulation or administration of the maximum price regulation protested. The protestant will be advised of the membership of a board considering his protest, and, if the board consists of more than one member, of the member selected to preside, in the notice of consideration by a board provided for in section 46. When necessitated by incapacity of a member or other good cause, the Administrator may make substitutions in the membership of the board as originally constituted.

SEC. 45. *Where boards of review hear oral argument.* A board of review consisting of more than one member will ordinarily hear oral argument at the National Office in Washington, D. C., and only in exceptional cases and for good cause shown will the full board hold hearings elsewhere. A board consisting of only one member may hear argument at a Regional or District Office or elsewhere. Where the protestant has requested that oral argument be heard at some other place than the National Office and where the board consists of more than one member, a subcommittee thereof may be designated to hear argument at the place requested or at some other convenient place.

SEC. 46. *Notice of consideration by a board of review.* Before denial of any protest in whole or in part in which the protestant has requested consideration by a board of review in accordance with section 35 (b) of this revised procedural regulation, which has not subsequently been waived by the protestant, notice of consideration by a board of review will be sent by registered mail to the protestant. Sending of the notice marks a close of the record of the evidence in a protest proceeding. The notice will indicate the issues thought to be determinative of the case which may serve as a guide to the protestant in planning oral argument. The notice of consideration shall contain, or be accompanied by, the following items, as nearly as the circumstances permit:

(a) Information identifying the protest, including the maximum price regulation being protested and the docket number;

(b) A list of the documents comprising the completed record of the proceeding;

(c) A brief statement of the issues involved;

(d) A statement of the time (which shall not be less than seven days from the date of the mailing of the notice) and place where a board of review or a subcommittee thereof will hear oral argument.

(e) A list of persons comprising the board of review which is thereby appointed to consider the protest, with their official titles and a designation of the presiding member if the board of review is composed of more than one person.

SEC. 47. *Waiver of right to consideration in whole or in part.* A protestant who has properly requested consideration by a board of review in accordance with section 35 (b) may, if he so desires, waive his right to consideration by a board. If he chooses, he may have his protest considered by a board, waiving his right to oral argument before a board. Such waiver shall be in writing and shall constitute a part of the record of proceedings on the protest. Failure of a protestant to appear at a hearing of oral argument, which he has not waived in accordance with the foregoing, at the time and place specified in the notice of consideration, shall, unless a reasonable excuse is shown, also constitute waiver of his right to consideration by a board. Unexcused failure to appear at a hearing of oral argument shall be noted on the record of proceedings. A waiver by less than all of a group of joint protestants shall not affect the rights of a protestant who has made no waiver.

SEC. 48. *Hearing of oral argument.* (a) Argument before a board of review by a protestant shall ordinarily be limited to one hour except for good cause shown. Where the magnitude of the issues involved warrants more extended discussion, or where the protestants are

numerous, the board may extend or limit the time of each protestant in its discretion. A board may exclude specific argument deemed to be irrelevant to the objections set forth in the protest or unsupported by any evidence in the record. Hearings of argument will be open to the public. Where argument is to be heard by a board of review consisting of more than one member, a majority of such board shall constitute a quorum for the purpose of hearing argument. Presentation of oral argument may be accompanied by submission of a brief.

(b) A stenographic report of all hearings of oral argument by boards of review or subcommittees thereof shall be taken. The report will be transcribed at the direction of the board if a transcription is desired to facilitate consideration of the protest. The report will ordinarily be transcribed if the argument is heard by a subcommittee of a board. If the report is transcribed, a copy shall be available for inspection during business hours in the Office of the Secretary, Office of Price Administration, Washington, D. C. Protestants who wish a copy of the report may obtain it by requesting the reporter at the hearing to make a copy for them and paying the cost thereof.

[Secs. 43, 44, 45, 46, 47, and 48 amended by Am. 9, effective 9-1-44]

SEC. 49. *Action by boards of review at the conclusion of their consideration of a protest.* Within a reasonable time after the hearing of oral argument or after the closing of the record, if such argument has been waived, a board of review shall submit its recommendations in writing to the Administrator as to the disposition of the protest. The recommendations of a majority of the members of a board shall constitute the recommendations of the board but the disagreement of any member with the recommendations shall be expressly noted. The protestant will be advised of the recommendations of the board in an appendix to the Administrator's opinion disposing of the protest or closing the docket. Copies of these documents containing a board's recommendations will be sent to the protestant by registered mail. A board of review shall have authority to recommend to the Administrator that the protest be granted or denied in whole or in part. If it is the opinion of the board that the record in the proceeding should be expanded, it may refer the record of the proceeding to the Administrator in order that the Administrator may consider permitting the amendment of the protest or the receipt of additional evidence. Records will, however, be reopened only in very exceptional circumstances and where the requirements of section 32 can be met.

SEC. 50. *Action by Administrator after receipt of board of review's recommendations.* After receipt of a board of review's recommendations as to the disposition of the protest, the Administrator shall, within a reasonable time, grant or deny the protest in whole or in part.

DETERMINATION OF PROTEST

SEC. 51. *Opinion denying protest in whole or in part.* In the event that the Administrator denies any protest in whole or in part, the protestant shall be informed of any economic data or other facts of which he has taken official notice, the grounds upon which such decision is based, and (if the protest has been considered by a board of review) the recommendations of a board of review and, if any recommendation of such a board has been rejected, the reason for rejection.

[Secs. 49, 50, 51 added; former Secs. 49, 50, 51, and 52 redesignated Secs. 52, 53, 54, and 55, respectively, by Am. 9, effective 9-1-44]

SEC. 52. *Treatment of protest as petition for amendment or an application for adjustment or exception.* Any protest filed against a provision of a maximum price regulation may, in the discretion of the Administrator, be treated not only as a protest but also as a petition for amendment of the regulation protested or as an application for adjustment or exception pursuant thereto, when the facts produced in connection with the protest justify such treatment.

SEC. 53. *Petitions for reconsideration.* An order denying a protest may include leave to file a petition for reconsideration within a specified period. If the order of denial does include leave to file a petition for reconsideration, the filing of such a petition within the time provided shall automatically vacate the order of denial and reopen the protest proceeding.

[Sec. 53, formerly Sec. 50 added; original Sec. 50 revoked by Am. 7, 9 F.R. 5791 effective 5-31-44]

ARTICLE VI—INTERPRETATIONS

SEC. 54. *Interpretations.* An interpretation rendered by an officer or employee of the Office of Price Administration with respect to any provision of the Act or of any regulation, price schedule, order, requirement, or agreement thereunder, will be regarded by the Office of Price Administration as official only if such interpretation was requested and issued in accordance with section 55 of this regulation. Action taken in reliance upon and in conformity with an official interpretation and prior to any revocation or modification thereof or to any superseding thereof by regulation, order or amendment, shall constitute action in good faith pursuant to the provision of the Act, or of the regulation, price schedule, order, requirement or agreement to which such official interpretation relates. An official interpretation shall be applicable only with respect to the particular person to whom, and to the particular factual situation with respect to which, it is rendered, unless publicly announced as an interpretation of general application.

Such request shall set forth in full the factual situation out of which the interpretative question arises and shall, so far as is practicable, state the names and post office addresses of the persons involved. If the inquirer has previously requested an interpretation on the same or substantially the same facts, his request shall so indicate and shall name the official or office to whom his previous request was addressed. If the interpretation will affect operations of establishments located in more than one state, the request shall name the states in which the establishments are located. No interpretation shall be requested or given with respect to any hypothetical situation or in response to any hypothetical question.

[Paragraph (a) amended by Am. 7, 9 F.R. 5791, effective 5-31-44]

(b) *Interpretation to be written; authorized officials.* Official interpretations shall be given only in writing, signed by one of the following officers of the Office of Price Administration: The Price Administrator, the General Counsel, any Associate or Assistant General Counsel, any Regional Attorney, any Regional Price Attorney, any District Price Attorney, and any Division Counsel to a Price Division or Chief Counsel to a Price Branch in the Office of Price Administration, Washington, D. (c) *Revocation or modification of interpretation.* Any official interpretation, whether of general application or otherwise, may be revoked or modified by publicly announced statement by any official authorized to announce such interpretations of general application or by a statement or notice by the Price Administrator or General Counsel published in the FEDERAL REGISTER. An official interpretation addressed to a particular person may also be revoked or modified at any time by a statement in writing mailed to such person and signed by the General Counsel or any Associate or Assistant General Counsel.

An official interpretation addressed to a particular person by a Regional Attorney, a Regional Price Attorney, or a District Price Attorney may also be revoked or modified at any time by a statement in writing mailed to such person and signed by the Regional Attorney or by the attorney who issued it or his successor.

§ 1300.201 *Purposes of this regulation.* It is the purpose of this regulation to prescribe and explain the procedure of the Office of Price Administration in making various kinds of determinations in connection with the establishment of maximum rents.

(a) Subpart A deals with petitions for adjustment and other relief, provided for by the maximum rent regulations. An adjustment in maximum rent or any other relief can be granted only if the applicable maximum rent regulation contains specific provision for the adjustment or other relief sought.

(b) Subpart B deals with petitions for amendment. A petition for amendment may be filed by any person who is affected by a maximum rent regulation and who desires a change of general applicability in the provisions of the regulation itself. It is the appropriate document to be filed when a person does not wish to file a formal statutory protest or is not entitled to do so because he is not subject to the regulation as defined in § 1300.216 of this revised procedural regulation.

[Paragraph (b) amended by Am. 9, effective 9-1-44]

(c) Subpart C deals with protests. The nature and function of protests are set forth in general in the introduction to Subpart C, preceding § 1300.216.

(e) Subpart E contains miscellaneous provisions, and definitions.

SUBPART A—LANDLORDS' PETITIONS AND TENANTS' APPLICATIONS

§ 1300.202 *Right to file petition.* A petition for adjustment or other relief may be filed by any landlord subject to any provision of a maximum rent regulation who requests such adjustment or relief pursuant to a provision of the maximum rent regulation authorizing such action.

§ 1300.203 *Method of filing, form, and contents.* A petition for adjustment or other relief provided for by a maximum rent regulation shall be filed with the rent director of the Office of Price Administration for the defense-rental area within which the housing accommodations involved are located. Petitions shall be filed upon forms prescribed by the Administrator and pursuant to instructions stated on such forms and may be accompanied by affidavits or other documents setting forth the evidence upon which the petitioner relies in support of the facts alleged in his petition.

§ 1300.204 *Joint petitions, consolidation.* Two or more landlords may file a joint petition for adjustment or other relief where the grounds of the petition are common to all landlords joining therein. A joint petition shall be filed and determined in accordance with the rules governing the filing and determination of petitions filed by one landlord. A landlord's petition may include as many housing accommodations as present common questions which can be expeditiously determined in one proceeding. Whenever the rent director deems it necessary or appropriate, he may order the filing of separate petitions or he may consolidate separate petitions presenting common questions which can be determined expeditiously in one proceeding.

§ 1300.205 *Tenants' applications.* All tenants' applications provided for by any maximum rent regulation shall be filed with the rent director for the defense-rental area within which the housing accommodations involved are located. The application shall be filed on forms prescribed by the Administrator and pursuant to directions set forth on such forms. Action upon any tenant's application shall be within the discretion of the rent director and the procedure thereon shall be the same as in proceedings initiated by the rent director pursuant to provisions of a maximum rent regulation authorizing such action.

§ 1300.206 *Investigation of petitions and applications.* Upon the filing of a petition or application pursuant to the provisions of this regulation, the rent director may make such investigation of the facts involved in the petition or application, hold such conferences, and require the filing of such reports, evidence in affidavit form or other material relevant to the proceeding, as he may deem necessary or appropriate for the proper disposition of the petition or application.

§ 1300.207 *Action by rent director on his own initiative.* In any case where the rent director pursuant to the provisions of a maximum rent regulation, deems it necessary or appropriate to enter an order on his own initiative, he shall, before taking such action, serve a notice upon the landlord of the housing accommodations involved stating the proposed action and the grounds therefor.

§ 1300.208 *Action by the rent director on petitions for adjustment or other relief.* (a) Upon receipt of a petition for adjustment or other relief, and after due consideration, the rent director may either:

(1) Dismiss any petition which fails substantially to comply with the provisions of the applicable maximum rent regulation or of this regulation; or

(2) Grant or deny in whole or in part, any petition which is properly pending before him; or

(3) Notice such petition for oral hearing to be held in accordance with § 1300.211 of this regulation; or

[Subparagraph (3) amended by Am. 9, effective 9-1-44]

(4) Provide an opportunity to present further evidence in affidavit form, in connection with such petition.

(b) An order entered by a rent director upon a petition for adjustment or other relief, or an order entered by a rent director on his own initiative, shall be effective and binding until changed by further order and shall be final subject only to application for review or protest as provided in §§ 1300.209 and 1300.210 and §§ 1300.216 to 1300.242, inclusive, of this regulation. An order entered by a rent director may be revoked or modified at any time upon due notice to the petitioner.

[Paragraph (b) amended by Am. 3, 8 F.R. 5481, effective 4-24-43 and Am. 9, effective 9-1-44]

APPLICATION FOR REVIEW OF RENT DIRECTOR'S ACTION

§ 1300.209 *Applications for review.* (a) Any landlord whose petition for adjustment or other relief has been dismissed or denied in whole or in part by the rent director, or any landlord subject to an order entered by the rent director on his own initiative may file with the rent director an application for review of such determination by the Regional Administrator for the region in which the defense-rental area office is located: *Provided,* That any landlord subject to an order entered under section 5 (d) of any maximum rent regulation or subject to an order entered by the rent director under § 1300.207 of this regulation, may either apply for review of such order as provided in this section, or may protest any provision of such order as provided in §§ 1300.216 to 1300.242, inclusive, of this regulation. An application for review shall be filed in triplicate upon forms prescribed by the Administrator and pursuant to instructions stated on such forms. Upon the filing of an application for review of such determination, the rent director shall forward the record of the proceedings with respect to which such application is filed to the appropriate Regional Administrator.

[Paragraph (a) amended by Am. 9, effective 9-1-44]

(b) Applications for review may be filed within ninety (90) days after the date of issuance of the determination to be reviewed (or before October 1, 1944, with respect to determinations made prior to July 1, 1944). An application for review which is not filed within the specified time ordinarily will be dismissed unless special circumstances are shown to justify a later filing.

[§ 1300.209 amended by Am. 1, 8 F.R. 1798, effective 2-13-43, Am. 2, 8 F.R. 3534, effective 3-20-43; Am. 3, 8 F.R. 5481, effective 4-24-43; Am. 7, 9 F.R. 7560, effective 7-3-44 and as otherwise noted]

§ 1300.210 *Action on applications for review.* Upon the filing of an application for review in accordance with § 1300.209 of this regulation, and after due consideration, the Regional Administrator may affirm, revoke, or modify, in whole or in part, the determination of the rent director sought to be reviewed and may enter such order as is necessary or proper. In any case where an application for review does not conform in a substantial respect to the requirements of this regulation, the Regional Administrator may dismiss such application. An order entered by a Regional Administrator upon an application for review shall be effective and binding until changed by further order and shall be final subject only to protest as provided in §§ 1300.216 to 1300.242, inclusive, of this regulation. An order entered by a Regional Administrator upon an application for review may be revoked or modified at any time upon due notice to the applicant.

[§ 1300.210 amended by Am. 3, 8 F.R. 5481, effective 4-24-43 and Am. 9, effective 9-1-44]

§ 1300.211 *Oral hearings*—(a) *Requests for oral hearing.* Any petitioner or applicant may request an oral hearing. Such request shall be accompanied by a showing as to why the filing of affidavits or other written evidence and briefs will not permit the fair and expeditious disposition of the petition or application. In the event that an oral hearing is ordered, notice thereof shall be served on the petitioner or applicant not less than five days prior to such hearing. The time and place of hearing

shall be stated in the notice. A presiding officer will be appointed with all necessary powers to conduct the hearing. Any such oral hearing may be limited in such manner and to such extent as deemed appropriate to the expeditious determination of the proceeding.

(b) *Stenographic report of oral hearing.* A stenographic report of the oral hearing shall be made, a copy of which shall be available for inspection during business hours in the appropriate regional office or defense-rental area office.

[§ 1300.211 added; former §§ 1300.211 through 1300.214 redesignated §§ 1300.212 through 1300.215, respectively, by Am. 9, effective 9-1-44]

SUBPART B—PETITION FOR AMENDMENT

§ 1300.212 *Right to file petition.* A petition for amendment may be filed at any time by any person subject to or affected by a provision of a maximum rent regulation. A petition for amendment shall propose an amendment of general applicability and shall be granted or denied on the merits of the amendment proposed. The denial of a petition for amendment is not subject to protest or judicial review under the Act.

§ 1300.213 *Place for filing petitions for amendment; form and contents.* A petition for amendment shall be filed with the Secretary, Office of Price Administration, Washington, D. C. One original and four copies of the petition and of all accompanying documents and briefs shall be filed. Each copy shall be printed, typewritten, mimeographed, or prepared by a similar process, and shall be plainly legible. Copies shall be double spaced, except that quotations shall be single spaced and indented. Every such petition shall be designated "Petition for Amendment" and shall contain, upon the first page thereof, the name of the defense-rental area and the number and date of issuance of the maximum rent regulation to which the petition relates, and the name and address of the petitioner. The petition shall specify the manner in which the petitioner is subject to or affected by the provision of the maximum rent regulation involved, and shall include a specific statement of the particular amendment desired and the facts which make that amendment necessary or appropriate. The petition shall be accompanied by affidavits setting forth the evidence upon which the petitioner relies in his petition.

[§ 1300.213, formerly § 1300.212, amended by Am. 1, 8 F.R. 1798, effective 2-13-43]

§ 1300.214 *Joint petitions for amendment.* Two or more persons may file a joint petition for amendment, where the amendments proposed are identical or substantially similar. Joint petitions shall be filed and determined in accordance with the rules governing the filing and determination of petitions filed by one person. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint petitions, he may treat such joint petitions as several, and, in any event, he may require the filing of relevant material by each individual petitioner.

§ 1300.215 *Action by the Administrator on petition.* In the consideration of any petition for amendment, the Administrator may afford to the petitioner and to other persons likely to have information bearing upon such proposed amendment, or likely to be affected thereby, an opportunity to present evidence or argument in support of, or in opposition to, such proposed amendment. Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more petitions for amendment, the Administrator may consolidate such petitions.

SUBPART C—PROTESTS

[Subpart C added by Am. 9, effective 9-1-44. Former Subpart C amended by Am. 2, 8 F.R. 3534, effective 3-20-43; Am. 3, 8 F.R. 5481, effective 4-24-43; Am. 6, 9 F.R. 337, effective 2-24-44; Am. 7, 9 F.R. 7500, effective 7-3-44; Am. 8, 9 F. R. 9411, effective 8-9-44; and deleted by Am. 9]

INTRODUCTION

Subpart C deals with protests. A protest is the means provided by section 203 (a) of the Act for making formal objections to a maximum rent regulation or order. Ordinarily, the filing of a protest is also a prerequisite to obtaining judicial review by the Emergency Court of Appeals of the validity of a maximum rent regulation or order. The only other method of obtaining judicial review is the filing of a complaint in the Emergency Court of Appeals after obtaining special leave to do so in an enforcement proceeding pursuant to section 204 (e) of the Act.

Subpart C also contains provisions for consideration of protests by boards of review in accordance with section 203 (c) of the Act. A protestant is entitled to consideration of his objections by a board of review if he files a protest in accordance with the provisions of this regulation, making a specific request for consideration by a board of review in accordance with § 1300.226 (b) of this regulation.

GENERAL PROVISIONS

§ 1300.216 *Right to protest.* Any landlord subject to any provision of a maximum rent regulation, or of an order issued under § 1300.210 of this regulation, or of an order entered under section 5 (d) of any maximum rent regulation, or of an order entered by the rent director under § 1300.207 of this regulation, may file a protest in the manner set forth below. A landlord is, for the purposes of this regulation, subject to a provision of a maximum rent regulation or of an order only if such provision prohibits or requires action by him. Any protest filed by a landlord not subject to the provision protested, or otherwise not in accordance with the requirements of this regulation, may be dismissed by the Administrator.

§ 1300.217 *Time and place of filing protests.* (a) Any protest against the provisions of a maximum rent regulation or order may be filed at any time after the issuance thereof.

(b) The Act provides no specific time limit for filing a protest against an order issued under § 1300.210 of this regulation, or of an order entered under section 5 (d) of any maximum rent regulation, or of an order entered by the rent director under § 1300.207 of this regulation. However, as the United States Emergency Court of Appeals has stated in its opinion in the case of R. E. Schanzer, Inc. v. Bowles, 141 F. 2d 262 (1944), if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. There will ordinarily be no reason why a protest against an order of the kind specified in this paragraph, affecting only an individual landlord, cannot be filed promptly after the issuance of such order. Accordingly, if a protest is not filed within ninety (90) days after the date of issuance of such order (or before October 1, 1944 in the case of an order entered prior to July 1, 1944), the Administrator ordinarily will regard the delay as unreasonable and will dismiss the protest unless special circumstances are shown to justify the delay.

(c) Protests shall be filed with the Secretary of the Office of Price Administration, Washington 25, D. C. A copy of the protest shall also be filed with the appropriate Regional Administrator or rent director as provided in § 1300.218 of this regulation.

§ 1300.218 *Form of protest.* (a) Every protest shall be clearly designated "Protest" and shall contain upon the first page thereof, (1) the name of the protestant, and of the defense-rental area for which the maximum rent regulation or order protested was issued, (2) a statement whether the protest is against a maximum rent regulation or order, and (3) the date of issuance and the number of such maximum rent regulation or order.

(b) One original and five copies of the protest and of all accompanying documents and briefs shall be filed with the Secretary of the Office of Price Administration, Washington 25, D. C.

(c) In cases where the protest is directed against an order issued under § 1300.210 of this regulation, an additional copy of the protest, accompanying documents and briefs, shall be filed

with the Regional Administrator issuing the order being protested.

(d) In cases where the protest is directed against either an order entered under section 5 (d) of any maximum rent regulation, or an order entered by the rent director under § 1300.207 of this regulation, and an application for review has not been filed, an additional copy of the protest, accompanying documents and briefs, shall be filed with the rent director issuing the order being protested.

(e) Each copy of the protest, accompanying documents and briefs, shall be printed, typewritten, mimeographed or prepared by similar process and should be plainly legible. Copies shall be double-spaced except that quotations shall be single-spaced and indented.

§ 1300.219 *Assignment of docket number.* Upon receipt of a protest it shall be assigned a docket number, of which the protestant shall be notified, and all further papers filed in the proceedings shall contain on the first page thereof the docket number so assigned and the information specified in § 1300.218 of this regulation.

§ 1300.220 *Protest and evidential material not conforming to this regulation.* In any case where a protest or accompanying evidential material does not conform, in a substantial respect, to this revised procedural regulation, the Administrator may dismiss such protest, or, in his discretion, may strike such evidential material from the record of the proceedings in connection with the protest.

§ 1300.221 *Joint protests.* Two or more landlords may file a joint protest. Joint protests shall be filed and determined in accordance with the rules governing the filing and determination of protests filed severally. A joint protest shall be verified in accordance with § 1300.226 (a) (7) of this regulation by each protestant. A joint protest may be filed only where at least one ground is common to all persons joining in it. Whenever the Administrator deems it to be necessary or appropriate for the dispostion of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by each individual protestant.

§ 1300.222 *Consolidation of protests.* Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests, the Administrator may consolidate such protests.

§ 1300.223 *Amendment of protest and presentation of additional evidence.* In general, all of the objections upon which a protestant intends to rely in the protest proceedings must be clearly stated in the protest when it is filed, and all of the evidence which the protestant wishes to offer in support of the protest must be filed at the same time. Exceptions to this rule are stated in §§ 1300.227(b) and 1300.228 relating to evidence not subject to protestant's control and the submission of oral testimony. A protestant may, however, be granted permission to amend his protest so as to state additional objections or to present further evidence in connection therewith upon a showing of reasonable excuse for failure to present such objections or evidence at the time the protest was first filed. The permission will be granted only if, in the judgment of the Administrator, it will not unduly delay the completion of the proceedings on the protest.

§ 1300.224 *Action by the Administrator on protest.* (a) Within a reasonable time after the filing of any protest in accordance with this revised procedural regulation, but in no event more than thirty days after such filing, the Administrator shall:

(1) Grant or deny such protest in whole or in part;

(2) Notice such protest for hearing of oral testimony in accordance with §§ 1300.228 or 1300.232 of this revised procedural regulation;

(3) Notice such protest for hearing of oral argument by a board of review in accordance with § 1300.236;

(4) Provide an opportunity to present further evidence in connection with such protest. Within a reasonable time after the presentation of such further evidence, the Administrator may notice such protest for hearing of oral testimony in accordance with subparagraph (2) of this section, notice the protest for hearing of oral argument by a board of review in accordance with subparagraph (3) of this section, include additional material in the record of the proceedings on the protest in accordance with §§ 1300.230 and 1300.231 of this revised procedural regulation, or take such other action as may be appropriate to the disposition of the protest.

(b) Notice of any such action taken by the Administrator shall promptly be served upon the protestant.

(c) Where the Administrator has ordered a hearing on a protest or has provided an opportunity for the presentation of further evidence in connection therewith, he shall, within a reasonable time after the completion of such hearing or the presentation of such evidence, grant or deny such protest in whole or in part.

§ 1300.225 *Basis for determination of protest*—(a) *Record of the proceedings.* The factual basis upon which a protest is determined is to be found in the record of the proceedings. This record consists of the following:

(1) The designation of the defense-rental area, the rent declaration, and the maximum rent regulation involved;

(2) The protest and supporting evidential material properly filed with the Secretary of the Office of Price Administration in accordance with §§ 1300.226 to 1300.228, inclusive, of this revised procedural regulation;

(3) If the protest is against an order, the evidence and all documents in proceedings had in connection therewith;

(4) Materials incorporated into the record of the proceedings by the Price Administrator under §§ 1300.230 and 1300.231 of this regulation;

(5) Oral testimony taken in the course of the proceedings in accordance with §§ 1300.228 and 1300.232;

(6) All orders and opinions issued in the course of the proceedings.

(b) *Facts of which the Administrator has taken official notice.* The above-listed documents may contain, as provided by section 203 (b) of the Act, statements of economic data and other facts of which the Administrator has taken official notice, including facts found by him as a result of reports filed and studies and investigations made pursuant to section 202 of the Act.

(c) *Briefs and arguments.* Briefs and oral arguments submitted or presented in accordance with this revised procedural regulation are, of course, considered in the determination of a protest. They are, however, not a part of the record of the proceedings and are not included in the transcript of protest proceedings which is filed, in case of appeal, with the Emergency Court of Appeals.

CONTENTS OF PROTESTS AND SUPPORTING MATERIALS

§ 1300.226 *Contents of protests*—(a) *What each protest must contain.* Every protest shall set forth the following:

(1) The name and the post office address of the protestant, the manner in which the protestant is subject to the provision of the maximum rent regulation or order protested, and the location, by post office address or otherwise, of all housing accommodations involved in the protest.

(2) The name and post office address of any person filing the protest on behalf of the protestant and the name and post office address of the person to whom all communications from the Office of

Price Administration relating to the protest shall be sent;

(3) A complete identification of the provision or provisions protested, citing the number of the maximum rent regulation or order, the section or sections thereof to which objection is made, and the date of issuance thereof;

(4) A clear and concise statement of all objections raised by the protestant against the provision or provisions protested, each such objection to be separately stated and numbered;

(5) A clear and concise statement of all facts alleged in support of each objection;

(6) A statement of the relief requested by the protestant, including, if the protestant requests modification of a provision of the maximum rent regulation, the specific changes which he seeks to have made in the provision;

(7) A statement signed and sworn to (or affirmed) before an officer authorized to take oaths either by the protestant personally, or, if a partnership, by a partner, or, if a corporation or association, by a duly authorized officer, that the protest and the documents filed therewith are prepared in good faith and that the facts alleged are true to the best of his knowledge, information and belief. The protestant shall specify which of the facts are alleged and known to be true and which are alleged on information and belief.

(b) *Request for consideration by a board of review.* A protestant who wishes his protest considered by a board of review must specifically so request, indicating, if he wishes to offer oral argument, the order of his preference as to (1) argument before a board of review in Washington, D. C.; (2) argument before a subcommittee consisting of one member of a board at a location named by him. § 1300.235 of this revised procedural regulation sets forth the considerations which will be determinative in the decision as to where oral argument may be heard. The request for consideration by a board of review must be made either in the protest or in an amendment thereto filed within fifteen days of the date the protest is filed. Such an amendment shall be deemed filed within the fifteen day period if it is received by the Secretary, Office of Price Administration, Washington, D. C., no later than the fifteenth day after the protest was filed. Further provisions with respect to proceedings before a board of review are to be found in §§ 1300.233 to 1300.240, inclusive, of this regulation.

§ 1300.227 *Affidavits or other written evidence in support of protests.* Every protestant shall file together with his protest the following:

(a) Affidavits setting forth in full all the evidence the presentation of which is subject to the control of the protestant and upon which the protestant relies in support of the facts alleged in the protest. Each such affidavit shall state the name, post office address, and occupation of the affiant; his business connection, if any, with the protestant; and whether the facts set forth in the affidavit are stated from personal knowledge or on information and belief. In every instance, the affiant shall state in detail the sources of his information: *Provided,* That on a protest of an order, the evidence and all documents in proceedings had in connection therewith shall be a part of the record on protest and need not be filed by the protestant.

(b) A statement by the protestant in affidavit form setting forth in detail the nature and sources of any further evidence, not subject to his control, upon which he believes he can rely in support of the facts alleged in his protest. Such statement shall be accompanied by an application for assistance by way of subpoena, interrogatories, or otherwise, in obtaining the documentary evidence or the evidence of persons not subject to protestant's control, showing in every instance what material facts would be adduced thereby. Such application, if calling for the evidence of persons, shall specify the name and address of each person, and the facts to be proved by him, and if calling for the production of documents, shall specify them with sufficient particularity to enable them to be identified for purposes of production.

§ 1300.228 *Receipt of oral testimony.* (a) In most cases, evidence in protest proceedings will be received only in written form. Experience in the consideration of protests has demonstrated that this procedure is most conducive to the fair and expeditious disposition of protests. However, the protestant may request the receipt of oral testimony. Such request shall be accompanied by a showing by the protestant as to why the filing of affidavits or other written evidence will not permit the fair and expeditious disposition of the protest.

(b) In the event that the Administrator orders the receipt of oral testimony, notice shall be served on the protestant not less than five days prior to the receipt of such testimony, which notice shall state the time and place of the hearing and the name of the presiding officer designated by the Administrator.

(c) A stenographic report of any hearing of oral testimony shall be made, a copy of which shall be available during business hours in the Office of the Secretary, Office of Price Administration, Washington, D. C.

§ 1300.229 *Submission of brief by protestant.* The protestant may file with his protest and accompanying evidential material a brief in support of the objections set forth in the protest. Such brief shall be submitted as a separate document, distinct from the protest and evidential material.

MATERIAL IN SUPPORT OF THE REGULATION OR ORDER PROTESTED

§ 1300.230 *Incorporation of material in the record by the Administrator.* The Administrator shall incorporate in the record of the proceedings on the protest such evidence, in the form of affidavits or otherwise, as he deems appropriate in support of the provision against which the protest is filed. When such evidence is incorporated into the record, and is not so incorporated at an oral hearing, copies thereof shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.231 *Other written evidence in support of the maximum rent regulation or order.* (a) Any person affected by the provisions of a maximum rent regulation, or of an order issued thereunder, may at any time after the issuance of such regulation or order submit to the Administrator a statement in support of any such provision or provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum rent regulation or order in question, and may be accompanied by affidavits and other data in written form. Each such supporting statement shall conform to the requirements of § 1300.227(a) of this regulation.

(b) In the event that a protest has been, or is subsequently, filed against a provision of a maximum rent regulation or order in support of which a statement has been submitted, the Administrator may include such statement in the record of the proceedings taken in connection with such protest. If such supporting statement is incorporated into the record and is not so incorporated at an oral hearing, copies of such supporting statement shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.232 *Receipt of oral testimony in support of the regulation or order.* Ordinarily, material in support of the maximum rent regulation or order protested, like material in support of protests, will be received in the protest proceeding only in written form. Where, however, the Administrator is satisfied that the receipt of oral testimony is necessary to the fair and expeditious disposition of the protest, he may, on his own motion, direct such testimony to be received. In that event, the oral testimony will be taken in the manner provided in § 1300.228 of this regulation.

BOARDS OF REVIEW

§ 1300.233 *Right to consideration by a board of review.* Under section 203 (c) of the Act, a protest filed after September 1, 1944 must, upon the protestant's request, be considered by a board of review before it can be denied in whole or in part. Consideration of the record in a protest proceeding by a board of review is undertaken for the purpose of reconsidering the provision or provisions of the maximum rent regulation or order protested and recommending action relative thereto to the Administrator. A board of review considers the protest upon the basis of the record which has been developed in the proceedings. Protestant is accorded an opportunity to present oral argument to a board upon the basis of the objections raised in the protest and the evidence in the record, and guided by the explanatory statement of the issues in the notice of consideration by a board of review, § 1300.225 of this revised procedural regulation explains the nature of the record in the proceedings. § 1300.226 (b) explains the nature of such a request and states the time within which it must be filed.

§ 1300.234 *Composition of boards of review.* A board of review is composed of one or more officers or employees of the Office of Price Administration designated by the Administrator to review the record of the proceedings on a particular protest and made recommendations to him as to its disposition. The number of members constituting a board will be determined in the light of the scope and complexity of the issues presented. When a board consists of more than one member, ordinarily at least one member shall be selected who has been directly responsible for the formulation or administration of the maximum rent regulation or order protested. The protestant will be advised of the membership of a board considering his protest, and, if the board consists of more than one member, of the member selected to preside, in the notice of consideration by a board provided for in § 1300.236. When necessitated by incapacity of a member or other good cause, the Administrator may make substitutions in the membership of the board as originally constituted.

§ 1300.235 *Where boards of review hear oral argument.* A board of review consisting of more than one member will ordinarily hear oral argument at the National Office in Washington, D. C., and only in exceptional cases and for good cause shown will the full board hold hearings elsewhere. A board consisting of only one member may hear argument at a Regional or District Office or elsewhere. Where the protestant has requested that oral argument be heard at some other place than the National Office and where the board consists of more than one member, a subcommittee thereof may be designated to hear argument at the place requested or at some other convenient place.

§ 1300.236 *Notice of consideration by board of review.* Before denial in whole or in part of any protest in which the protestant has requested consideration by a board of review in accordance with § 1300.226 (b) of this revised precedural regulation, which request has not subsequently been waived by the protestant, notice of consideration by a board of review will be sent by registered mail to the protestant. Sending of the notice marks a close of the evidential record in the proceeding. The notice will indicate the issues thought to be determinative of the protest, and may serve as a guide to the protestant in planning oral argument. The notice of consideration shall contain, or be accompanied by, the following items, as nearly as the circumstances permit:

(a) Information identifying the protest, including the maximum rent regulation or order being protested and the docket number;

(b) A list of the documents comprising the record of the proceeding;

(c) A brief statement of the issues involved;

(d) A statement of the time (which shall not be less than seven days from the date of the mailing of the notice) and place where the board of review or a subcommittee thereof will hear oral argument;

(e) A list of persons comprising the board of review which is thereby appointed to consider the protest, with their official titles and a designation of the presiding member if the board of review is composed of more than one person.

§ 1300.237 *Waiver of right to consideration in whole or in part.* A protestant who has properly requested consideration by a board of review in accordance with § 1300.226 (b) may, if he so desires, waive his right to consideration by a board. If he chooses, he may have his protest considered by a board, waiving his right to oral argument before a board. Such a waiver shall be in writing and shall constitute a part of the record of proceedings on the protest. Failure of a protestant to appear at a hearing of oral argument, which he has not waived in accordance with the foregoing, at the time and place specified in the notice of consideration shall, unless a reasonable excuse is shown, also constitute waiver of his right to consideration by a board. Unexcused failure to appear at a hearing of oral argument shall be noted on the record of proceedings. A waiver by less than all of a group of joint protestants shall not affect the rights of a protestant who has made no waiver.

§ 1300.238 *Hearing of oral argument.* (a) Argument before a board of review by a protestant shall ordinarily be limited to one hour except for good cause shown. Where the magnitude of the issues involved warrants more extended discussion or where the protestants are numerous, the board may extend or limit the time of each protestant in its discretion. A board may exclude specific argument deemed to be irrelevant to the objections set forth in the protest or unsupported by any evidence in the record. Hearings of argument will be open to the public. Where argument is to be heard by a board of review consisting of more than one member, a majority of such board shall constitute a quorum for the purpose of hearing argument. Presentation of oral argument may be accompanied by submission of a brief.

(b) A stenographic report of all hearings of oral argument by boards of review or subcommittees thereof shall be taken. The report will be transcribed at the direction of the board if a transcription is desired to facilitate consideration of the protest. The report will ordinarily be transcribed if the argument is heard by a subcommittee of a board. If the report is transcribed, a copy shall be available in the Office of the Secretary, Office of Price Administration, Washington, D. C. Any protestant who wishes a copy of the report may obtain it by requesting the reporter at the hearing to make a copy for him and paying the cost thereof.

§1300.239 *Action by boards of review at conclusion of their consideration of a protest.* Within a reasonable time after the hearing of oral argument or after the closing of the record, if such argument has been waived, a board of review shall

submit its recommendations in writing to the Administrator as to the disposition of the protest. The recommendations of a majority of the members of a board shall constitute the recommendations of the board, but the disagreement of any member with the recommendations shall be expressly noted. The protestant will be advised of the recommendations of the board in an appendix to the Administrator's opinion disposing of the protest or closing the docket. Copies of these documents, containing the board's recommendations, will be sent to the protestant by registered mail. A board of review shall have authority to recommend to the Administrator that the protest be granted or denied in whole or in part. If it is the opinion of the board that the record in the proceeding should be expanded, it may refer the record of the proceeding to the Administrator in order that the Administrator may consider permitting the amendment of the protest or the receipt of additional evidence. Records will, however, be reopened only in very exceptional circumstances and where the requirements of § 1300.223 can be met.

§ 1300.240 *Action by Administrator after receipt of board of review's recommendations.* After receipt of a board of review's recommendations as to the disposition of the protest, the Administrator shall, within a reasonable time, grant or deny the protest in whole or in part.

DETERMINATION OF PROTEST

§ 1300.241 *Opinion denying protest in whole or in part.* In the event that the Administrator denies any protest in whole or in part, the protestant shall be informed of any economic data or other facts of which he has taken official notice, the grounds upon which such decision is based, and (if the protest has been considered by a board of review) the recommendations of a board of review and, if any recommendation of such a board has been rejected, the reason for rejection. Any order entered in such protest proceedings shall be effective from the date of its issuance unless otherwise provided in such order.

§ 1300.242 *Treatment of protest as petition for amendment or for adjustment or other relief.* Any protest filed against a provision of a maximum rent regulation may, in the discretion of the Administrator, be treated not only as a protest but also as a petition for amendment of the regulation protested, or as a petition for adjustment or other relief pursuant thereto, when the facts produced in connection with the protest justify such treatment.

PART 1305—ADMINISTRATION

[Supp. Order 96]

MAXIMUM PRICES OF CERTAIN GOODS REJECTED OR NOT DELIVERED UNDER A WAR PROCUREMENT CONTRACT

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set forth in that statement, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, it is hereby ordered:

§ 1305.124 *Maximum prices of certain goods rejected or not delivered under a war procurement contract*—(a) *Sales covered by this supplementary order.* (1) This supplementary order applies, except as set forth in subparagraph (2) below, to sales by a prime contractor or subcontractor of (i) rejects or overruns of textiles, apparel and related goods in the form in which they were manufactured, processed or procured pursuant to a war procurement contract, or of (ii) commodities manufactured or processed from such goods.

(2) This supplementary order does not supersede applicable maximum price regulations in any respect other than to modify the pricing method.

(b) *Maximum prices for commodities covered by this order.* The maximum price for a commodity subject to this supplementary order shall be the lower of the following:

(1) The adjusted contract price as hereinafter defined, or

(2) The maximum price established for that commodity under the applicable maximum price regulation. Such maximum price must be determined and recorded in accordance with the provisions of such regulation although it exceeds the adjusted contract price and hence cannot be used.

For example. A seller establishes the ceiling price for sale of a particular commodity under this order by using the following steps: He first finds the ceiling price for that commodity under the OPA regulation which applies to the sale he is making. If the commodity is a reject, he must find the ceiling price for that reject under the regulation. If that ceiling price is lower than the war procurement contract price, as adjusted, he must use that ceiling price. If the adjusted contract price is lower than that ceiling price, he must use the adjusted contract price.

(c) *Invoices.* Every person who makes a sale subject to this supplementary order must give the purchaser an invoice, a copy of which he must keep, which shall include (in addition to his own and the purchaser's name and address, a brief description of the commodity, and the date, price, terms and quantity of the sale) the following: (1) The number of the war procurement contract pursuant to which the goods were manufactured, processed or procured, and in the case of a subcontract, the name of the other contracting party, and (2) a statement as follows:

The price of this commodity does not exceed the maximum price established by Supplementary Order No. 96, Maximum Prices of Certain Goods Rejected or Not Delivered Under a War Procurement Contract.

(d) *Definitions*—(1) *Adjusted contract price.* "Adjusted contract price" means the price established in the war procurement contract for goods meeting the contract specifications, adjusted by: (i) Subtracting the cost of material, processing, finishing, packing, freight, etc., ordinarily incurred in the performance of the war procurement contract, but not incurred with respect to the commodity being priced; and (ii) adding the net cost of all material, processing, finishing and packing not ordinarily incurred in the performance of the war procurement contract, but incurred in preparing the commodity being priced for sale: *Provided, however,* That freight may not be added and all prices so established shall be f. o. b. seller's plant.

(2) *Contract.* A "contract" is a letter of intent, purchase order, or any other offer or agreement by which a war procurement agency or any other person undertakes to purchase goods, and all amendments and supplements thereto.

(3) *Overrun.* The term "overrun" means a commodity which utilizes materials obtained through use of a preference rating assigned to the seller in connection with a war procurement contract, which is manufactured, processed, or procured in whole or in part to specifications the same as or similar to those set forth in such war procurement contract, but which is not accepted under the contract, although it is not a reject as hereinafter defined.

(4) *Preference rating.* A "preference rating" is a designation issued under authority of the War Production Board which indicates the order in which requests for certain materials may be filled.

*Copies may be obtained from the Office of Price Administration.

(5) *Reject.* The term "reject" means a commodity manufactured, processed or procured pursuant to a war procurement contract, but which fails to meet the contract specifications for first quality goods, whether inspected and rejected by, or never offered to, the war procurement agency or prime contractor under the war procurement contract.

(6) *Subcontract.* A "subcontract" is a contract to supply a prime contractor with a product for use in fulfilling his contract with a war procurement agency. The product may be either (i) a complete product called for by the prime contract, or (ii) a product for fabrication or processing, or one for physical annexation to or incorporation into a product, in the course of fulfilling the prime contract.

(7) *Textiles, apparel and related goods.* When used in this supplementary order the term "textiles, apparel and related goods" means any of the following:

(i) Yarns, textiles and textile products;

(ii) Leather, fur, and products thereof, or

(iii) Wearing apparel, including findings, and other individual, organizational or ship's personnel equipment made in whole or in part of any of the materials listed in (i) or (ii) of this subparagraph.

(8) *War procurement agency.* When used in this supplementary order, the term "war procurement agency" means the War Department, the Department of the Navy, the United States Maritime Commission, the Training Organization of the War Shipping Administration, or the Procurement Division of the Department of the Treasury of the United States, or any agency of any of the foregoing.

(9) *War procurement contract.* "War procurement contract" means either a contract entered into with the agencies specified in (8) above by a prime contractor, or a subcontract thereunder.

(10) *Applicable maximum price regulation.* The term "applicable maximum price regulation" means any price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, as amended, any maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration and in effect, or any amendment or supplement thereto or order issued thereunder, which currently establishes a maximum price or a method for establishing the maximum price for any commodity subject to this supplementary order.

This supplementary order shall become effective August 21, 1944.

AUTHORITY: § 1305.124 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

NOTE: The record-keeping requirement of this supplementary order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of August 1944.

Acting Administrator.

SALES AND FABRICATION OF TEXTILES, APPAREL AND RELATED ARTICLES FOR MILITARY PURPOSES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 157 is amended in the following respects:

1. Section 1378.2 (a) (3) is amended to read as follows:

(3) No person shall offer, solicit, or attempt to do any of the foregoing. But any person may sell or agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery or supply. However, if the maximum price at the time of delivery or supply is higher than the maximum price at the time of contract, that higher maximum price may be collected only for those commodities or services which, pursuant to the terms of the contracts, are scheduled to be delivered or supplied on or after the date when the higher price became effective. Moreover, no person, except as provided in § 1378.2 (c), may deliver, supply, or agree to deliver or supply at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery or supply.

2. Section 1378.2 (c) is amended to read as follows:

(c) Any person who has entered into or proposes to enter into a contract with any war procurement agency of the United States Government, or a subcontract under such contract, who believes that a maximum price established by this regulation impedes or threatens to impede production of any textile, apparel or related article which is essential to the war program, and which is or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum price established by this regulation in accordance with Procedural Regulation No. 6 issued by the Office of Price Administration. Upon the filing of an application for adjustment and pending the issuance of an order granting or denying such application, contracts or subcontracts may be entered into, or offered to be entered into, and deliveries may be made, at the price requested in such application or at a lower price subject to adjustment up to the price requested: *Provided*, That final settlement shall be made in accordance with the order, and, if required, refunds shall be made.

This amendment shall become effective August 25, 1944.

§ 1418.103 *Less than maximum prices.* Lower prices than those set forth in this Maximum Price Regulation No. 201 may be charged, demanded, paid or offered.

§ 1418.104 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1418.105 *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the price is as much a violation of this regulation as an outright over-ceiling price. (b) *Specific practices.* The following are among the specific practices prohibited:

(1) Getting the effect of higher prices by changing the credit practices or cash discounts which prevailed during the period from November 7 to December 6, 1941, inclusive. The cash and credit practices recognized by the seller during the period from November 7 to December 6, 1941 inclusive, shall not be reduced;

(3) Wholesalers selling to other wholesalers and adding to direct cost a mark-up greater than the amount added on such sales during the period November 7 to December 6, 1941, inclusive. If during this period a wholesaler sold only to retailers the wholesaler must apply to OPA for a mark-up on sales to other wholesalers and cannot use the mark-up he took on his sales to retailers.

(4) All statements submitted shall be signed under oath or affirmation.

(5) The statements required under this § 1418.106 shall be kept up to date by the seller from time to time by including therein all unreported commodities newly received. Supplementary statements shall be filed as to all such newly received commodities within three days after offering such commodities for sale. Such statements shall contain the information set forth in paragraph (c) (1) of this § 1418.106.

[Subparagraph (5) amended by Am. 4, 7 F.R. 10790, effective 12-21-42; Am. 9, 9 F.R. 4100, effective 4-20-44]

§ 1418.107 *Sales slips and receipts.* Every seller at retail of the commodities subject to this Maximum Price Regulation No. 201 who has customarily given purchasers sales slips or receipts shall continue to do so. Upon request from a purchaser, every such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the commodity sold, and the price received for it.

§ 1418.107a *Transfers of business or stock in trade*—(a) *Stock in trade.* Where the business, assets or stock in trade involved in liquidation, located in the Virgin Islands of the United States and belonging to any person, are or have been sold or otherwise transferred on or after August 17, 1942, the transferee shall be bound by the maximum prices to which the transferor would have been subject for such stock in trade sold in the Virgin Islands of the United States, and the transferee may not sell such stock in trade at prices in excess of those to which the transferor would have been subject. The transferer shall preserve and make available to the transferee the records required under paragraph (a) and paragraph (c) (2) of § 1418.106, as well as every price authorization or adjustment received by him from the Office of Price Administration. The transferor shall indicate his maximum prices for different classes of purchasers and for similar units of stock received at different costs.

The Territorial Director may at his discretion adjust the maximum prices of such stock in trade by an amount not to exceed such part of the costs of moving which, in his judgment, are reasonable. Unless the transferee makes such an application, and unless the Territorial Director issues an order adjusting his maximum prices, the transferee may not sell such stock in trade at prices in excess of the prices established in paragraph (a) above.

(c) *Continuation of the business.* Where the transferee of stock in trade involved in liquidation subject to paragraph (a) above carries on the business of the transferor or continues to deal in the same type of commodities as those transferred in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which the transferor would have been subject if no such transfer had taken place. The transferor shall preserve and make available to the transferee the records, price authorizations, price adjustments and information specified in paragraph (a) above. If, however, the transferee carries on the business or continues to deal in the same type of commodities in an establishment previously owned or operated by him, the maximum prices of the transferee for all commodities other than those transferred and subject to paragraph (a) above shall be unaffected by the transfer.

A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(11) "Purchaser of the same class", as used in this regulation, refers to the different classes of purchasers created by any practice adopted by the seller in setting different prices for commodities in connection with sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or to purchasers located in different areas or of different quantities or under different conditions of sale. But if during the mark-up period provided in § 1418.102 of this Maximum Price Regulation No. 201, a seller (i) had an established practice of making allowances, discounts or price differentials to different classes of purchasers, and (ii) raised his general level of prices for a commodity but thereafter, during such mark-up period, made no delivery to any purchaser of a particular class, he shall, for that particular class of purchasers, calculate the highest selling price by taking the highest selling price during such mark-up period to a purchaser of another class and then adjusting such price to reflect his established allowances, discounts and price differentials. No seller shall evade any of the provisions of this regulation by changing his customary allowances, discounts or other price differentials.

1. The table in section 1(a) is amended by adding item 6 to read as follows:

Column 1 Item No.	Column 2 Product	Column 3 Section	Column 4 Section	Column 4 Appendix

2. In section 16, Appendix C is added to read as follows:

APPENDIX C—SWEET CHERRIES

Explanation of how maximum prices for packed sweet cherries are figured. For packed sweet cherries, conversions for grade, for syrup differential, and for container type and size under subparagraph (2), (3) or (4) of section 5 (a) of this supplement are to be made in the same order and in the same manner as those for packed apricots. The explanation at the beginning of Appendix B of this section applies to this appendix for that purpose, except that since permitted increases are provided for only one style, no conversion is made here for style of pack.

PART 1432—RATIONING OF CONSUMERS' DURABLE GOODS

[RO 9A[1], Amdt. 13]

STOVES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 9A is amended in the following respects:

1. The undesignated paragraph following section 2.7 (a) (4) is designated (b), and the following sentence is inserted after the first sentence of that paragraph: "This shall be done by placing a mark (with ink, indelible pencil or typewriter) in the space immediately to the right of the box preceding the description of the type of stove and by punching a hole through that box."

2. Section 3.2 (e) is amended to read as follows:

(e) *Dealers and distributors who do not register on time.* A dealer or distributor who has failed to register within the time fixed by this section may file his registration form with his Board but must submit with it a written statement giving the reasons why he did not register on time and the following information:

(1) The number of stoves, by type, on hand;

(2) The number of certificates, by type, on hand.

(3) A schedule of all stoves, by type, transferred on or after August 24, 1943, with the date of each transfer, the make, model, and the price obtained for each stove, and the name and address of each transferee;

(4) A schedule of all stoves, by type, acquired on or after September 1, 1943, with the date of each acquisition, the make and model of each stove acquired, and the name and address of each transferor;

(5) The number of certificates, by type, given up by him to anyone after September 1, 1943.

The Board shall send the application and the written explanation to the District Director and may attach its recommendation. If the District Director is satisfied that the failure to register on time was for good cause, it may approve

---

[1] 8 F.R. 11564.

the registration, with such conditions as it finds proper.

3. Section 3.2 (f) is added as follows:

(f) *Correction of registration.* A dealer or distributor who finds that his registration statement on OPA Form R–902 filed with the Board is inaccurate in any respect, may file with his Board three (3) copies of a corrected registration on OPA Form R–902. The corrected registration must be accompanied by a written signed statement bearing the date of filing and containing the facts which he claims support the corrected registration. The Board will send to the District Director the corrected registration and the accompanying statement together with its recommendation. If the District Director is satisfied that the corrections to the registration are proper, he will approve the application and direct the Board to issue any inventory certificates due by reason of the corrected registration. However, no inventory certificates shall be issued to a dealer or distributor registered before September 1, 1944, unless the corrected registration and statement is filed on or before November 30, 1944, or to a dealer or distributor who registers on or after September 1, 1944, unless his corrected registration and statement are filed within ninety (90) days after registration.

4. Section 3.10 is amended to read as follows:

SEC. 3.10 *Distributors and dealers must keep records*—(a) *The kind of records to be kept.* Every dealer and distributor must keep the following records:

(1) A copy of his registration on OPA Form R–902 and of any work sheets used by him in taking inventory for registration.

(2) A record of all orders for stoves, whether written or oral, placed by him with any person (whether or not he is required to surrender certificates for them). That record must show the number of stoves, by type, ordered, the date of the order, the serial numbers of the certificates, if any, given up with the order, and the name and address of the person with whom the order was placed. If stoves ordered are received, the record must also indicate the number of the stoves, by type, and the date they were received.

(3) A record of all stoves acquired by him, other than through orders placed by him (whether or not he is required to surrender certificates for them). That record must show the number of stoves, by type, acquired, the date acquired, the serial numbers of certificates, if any, given up, and the name and address of the person from whom the stoves were acquired.

(4) All invoices for stoves received by him; if the invoices give all the information required by the preceding subparagraph (2) or (3), no additional record of the same information is required.

(5) A record of all orders for stoves placed with him (whether or not he is required to get certificates for those stoves). That record must show the name and address of the person who placed the order, the number of stoves, by type, ordered, and the number of stoves, by type, transferred on that order, the date of the transfer and the serial numbers of the certificates, if any, given him with the order. He must make and keep a duplicate of the sales slip for each transfer made by him. If the sales slip gives all the information required by this subparagraph, no additional record of the same information is required.

(6) A record of all transfers of stoves made by him, other than through orders placed with him (whether or not he is required to get certificates for these stoves). That record must show the number of stoves, by type, transferred, the date transferred, the serial numbers of certificates, if any, given him, and the name and address of the person to whom they were transferred. He must make and keep a duplicate of the sales slip for each transfer made by him. If the sales slip gives all the information required by this subparagraph, no additional record of the same information is required.

5. Section 5.3 is amended to read as follows:

SEC. 5.3 *Certificates must be endorsed*—(a) *A consumer must endorse his certificate.* A certificate issued to a consumer must be endorsed by him (or by a person authorized to sign for him) in the name in which it is issued before it is delivered by him to any person for any purpose. However, if a consumer mails an order for a stove with his certificate which he has not endorsed, the person so receiving the certificate may endorse the name of the consumer on it, but only if he has shipped the stove ordered with the certificate to that consumer.

(b) *A dealer, distributor or manufacturer must endorse a certificate issued or delivered to him.* A certificate issued to or received by a dealer, distributor or manufacturer must be endorsed by him (or by a person authorized to sign for him) before it is delivered by him to any person for any purpose. However, if a dealer or distributor mails an order with a certificate without his endorsement, the person so receiving the certificate may endorse the name of the dealer or distributor on it, but only if he has shipped the stove ordered with the certificate to that dealer or distributor.

6. Section 7.12 is added as follows:

SEC. 7.12. *Certificate-free transfers of stoves by agencies of the United States to manufacturers who made them.* Any agency of the United States may transfer certificate-free stoves to the manufacturer who made them (or to a manufacturer who is the successor of the person who made them) upon receipt of a statement in writing from the transferee that the stoves were made by him or that he is the successor of the manufacturer who made them. The manufacturer must report the stoves acquired under this section in his regular monthly report to the War Production Board. No manufacturer may acquire stoves under this section unless they were made by him or unless he is the successor of the manufacturer who made them.

7. Section 9.3 (a) is amended by inserting the phrase "on and" before the phrase "after July 1, 1943" in the first sentence.

8. Section 9.3 (c) is added as follows:

(c) If the application is not approved, the applicant may dispose of the stoves he has on hand at the date of his application in the same manner that a registered dealer or distributor is permitted to transfer stoves. He must within thirty (30) days after the transfer of each stove surrender to the Board to which he applied, the certificate obtained for the stove, and he may not use any certificates to acquire stoves.

This amendment shall become effective on September 1, 1944.

NOTE: All reporting and record-keeping requirements of this ration order have been approved by the Bureau of the Budget in accordance with the provisions of the Federal Reports Act of 1942.

(ii), any such seller may sell, deliver, exchange, or offer to sell, deliver or exchange, and any person may buy, offer to buy or receive from such seller any such commodity at the price submitted for approval. If, however, the price submitted is disapproved, the selling price shall be revised downward to the maximum price which shall be approved, and any payment made in excess of the price so approved may be required to be refunded to the buyer within fifteen days after the date of the written instrument informing the seller of such revision: *Provided*, That the price submitted by the seller shall be deemed to be approved unless the Office of Price Administration specifically disapproves such price within fifteen days from the date on which the receipt of the request for approval is acknowledged by the Office of Price Administration, or, if further information is requested from the seller within such fifteen-day period, then within fifteen days from the date on which the receipt of such information is acknowledged by this Office.

When filing such a price with the Office of Price Administration, the seller shall set forth, in addition to the net price, his list price, and all discounts, allowances and differentials for all classes of buyers, a description and identification of the commodity, a statement of facts differentiating such commodity from the other commodities sold by the seller, a statement showing how the proposed price was determined, and a description of the use or uses for which the commodity is to be produced.

4. Section 1438.12 (a) is amended by the addition of two new paragraphs, (4) and (5), to read as follows:

(4) The Office of Price Administration may, on its own motion or on application, adjust the maximum price or prices of a distributor of any commodity subject to this regulation when the maximum price or prices paid by such distributor for the commodity are or have been increased above the level of March, 1942, and the adjustment of the distributor's maximum price or prices appears to be reasonably necessary in order to insure orderly and customary distribution.

The amount of adjustment that may be granted to any such distributor shall not exceed the amount of the actual dollar-and-cents increase in the price of the commodity (not in excess of the maximum) which must be paid by him.

(5) Upon the receipt of an acknowledgment from the Office of Price Administration of the filing of an application for adjustment, and until final disposition of the application, contracts may be entered into or proposed and deliveries made at the prices requested in the application, except that the seller may not receive and the buyer may not pay the amount by which the price exceeds the maximum price until an order granting the requested adjustment, and establishing an effective date, has been issued. Any seller making a sale, contract to sell or offer to sell at the price requested in his application shall inform the buyer of the following and shall show the same on his invoice:

(i) The maximum price established for the commodity or product in question,

(ii) A statement that the quoted price is subject to approval by the Office of Price Administration, and

(iii) A statement that an appropriate application has been filed with the Office of Price Administration at Washington, D. C.

This amendment shall become effective September 2, 1944.

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

AWARDING OF SUBSISTENCE ALLOWANCE DURING PERIOD OF EDUCATION OR TRAINING

The following regulations govern (1) determinations as to whether a discharge or release from active service was by reason of an actual service-incurred disease or injury, within the purview of Veterans' Regulation No. 1 (a), Part VIII—Public No. 346, 78th Congress; and (2) Awarding of subsistence allowances under Veterans' Regulation No. 1 (a), Part VIII—Public No. 346, 78th Congress:

Sec.
36.201 Authority.
36.202 Jurisdiction as to discharge or release.
36.203 Jurisdiction as to award of subsistence allowance.
36.204 Apportionment of subsistence allowance.
36.205 Awards of subsistence allowance and effective date.
36.206 Applicability of provisions of regulations defining relationship, dependency, etc.

AUTHORITY: §§ 36.201 to 36.206, inclusive, issued under 58 Stat. 248.

§ 36.201 *Authority.* The adjudication division in each regional office or facility under the direction of an adjudication officer, and the claims division, veterans claims service, central office, under the direction of a chief, are vested with authority to determine whether a discharge or release from active service was by reason of an actual service-incurred disease or injury and to award

subsistence allowances payable during the period of education or training.

§ 36.202 *Jurisdiction as to discharge or release.* Rating boards in the adjudication division, field office, and the central disability board, claims division, veterans claims service, central office, will have original jurisdiction to determine whether a discharge or release from active service was by reason of an actual service-incurred disease or injury.

(a) When an application for education or training is received and the veteran had less than 90 days' service within the purview of Veterans Regulation No. 1 (a), Part VIII, but was discharged or released for disability, the vocational rehabilitation and education division will refer the claim to the adjudication division, field office or the claims division, veterans claims service, central office, for a formal rating to determine whether such discharge or release was by reason of an actual service-incurred disease or injury. The adjudication division, field office, or the claims division, veterans claims service, central office, will process the application as expeditiously as possible, securing the necessary service records and such additional evidence as may be required, and upon the basis of the assembled evidence a formal rating will be rendered with the use of the applicable code or codes. If the disability for which the veteran was discharged or released is shown to be actually service incurred, an evaluation of the degree of disability will not be entered in order to guard against inadvertent awards thereon. There will be entered on the rating sheet the legend: "For Education or Training Purposes Only Under Veterans Regulation No. 1 (a), Part VIII."

(b) The criteria in making the above determination will be those which govern under §§ 35.011 (a) (1) and 35.012 (a) (1) of this chapter, as amended. The presumptive provisions of §§ 35.011 and 35.012 (a) (2) of this chapter are not applicable.

§ 36.203 *Jurisdiction as to award of subsistence allowance.* The authorization unit, adjudication division, field office, and the authorization subdivision, claims division, veterans claims service, central office, will have jurisdiction to award subsistence allowance during the period the veteran is pursuing a course of education or training.

(a) Immediately upon entrance of the disabled veteran into education or training the vocational rehabilitation and education division will notify the adjudication division, field office, or claims division, central office, depending upon the jurisdiction of the claim, by appropriate form showing veteran's name, claim number, and date of entrance into, and type of education or training, that is, whether part-time or whether he is receiving compensation for productive labor performed as a part of his apprentice or other training on-the-job at institutions, business or other establishments. The vocational rehabilitation and education division will also notify the adjudication division, or claims division by form, of any change in status which would affect the rate of subsistence allowance.

(b) The monthly rate of subsistence allowance, where claimed by the veteran and while he is pursuing a full-time course of education or training will, except as hereinafter provided, be as follows:

(i) If the disabled person is without a dependent or dependents, $50.00;

(ii) If he has a dependent or dependents, $75.00.

(iii) The $50.00 or $75.00 rate will be awarded according to the information shown on the veteran's application for education or training. The veteran will be informed of the necessity of submitting formal proof of relationship and dependency and that in the event it is not submitted within 60 days the award will be adjusted on the basis of a veteran without dependents from the effective date of the subsistence allowance. If proof of relationship or dependency is received within one year from the date requested, see § 36.205 (b).

(iv) If attending a course on a part-time basis or if receiving compensation for productive labor performed as a part of his apprentice or other training on-the-job at institutions, business or other establishments the veteran shall be entitled to receive such lesser sums, if any, as subsistence or dependency allowances, as may be authorized by the vocational rehabilitation and education division.

(v) In any case where the veteran is entitled to vocational rehabilitation under Public No. 16, 78th Congress, as amended, in no event will the combined disability pension and subsistence allowance exceed the amount authorized by Part VII, Veterans Regulation No. 1 (a), as amended.

(vi) Where the disabled person pursuing a course of education or training is furnished hospitalization by the United States Government or a political subdivision thereof, other than during approved leave, he will be entitled only to the monthly amount of pension or retirement pay authorized for the service-connected disability, and this disability pension or retirement pay will be subject to reduction or discontinuance as provided in § 35.06 of this chapter.

§ 36.204 *Apportionment of subsistence allowance.* Where in order under the conditions specified in §§ 3.1310 to 3.1317 of this chapter, inclusive, subsistence allowance payable on account of education or training will be apportioned $50.00 to the veteran and $25.00 to the dependent. In the event that there are more than one dependent the $25.00 will be equally divided among them. Where the veteran is receiving a reduced subsistence allowance under the provisions of § 36.203 (b) (iv), such reduced subsistence allowance will be apportioned two-thirds to the veteran and one-third to the dependent or dependents. Where there is more than one dependent such one-third share shall be equally divided among them. If the application of the above provisions should in any case work a hardship upon the veteran or any of his dependents appropriate consideration may be had under § 3.1315 of this chapter.

§ 36.205 *Awards of subsistence allowance and effective date.* Original awards of subsistence allowance on account of education or training will be prepared upon Form 553 or Form 553 (e) according to the period of the veteran's service; apportioned awards to dependents, on Form 553 (a); awards adjusting the monthly rate of subsistence allowance will be prepared upon Form 553 (c). Subsistence allowances are not pensions and separate awards will therefore be required. At the top of the award brief face there will be inscribed in capitals "subsistence allowance" and under "Remarks" there will be quoted "Part VIII, Veterans Regulation No. 1 (a), as amended—Public No. 346, 78th Congress."

(a) The effective date of an award of subsistence allowance on account of education or training shall be the date of entrance into training or reentrance, if interrupted.

(b) The effective date of an increased award of subsistence allowance on account of education or training based on the marriage of the claimant, the birth or adoption of a child, or dependency of a parent, shall be the date of receipt of claim by the Veterans Administration or the date the evidence of relationship or dependency shows entitlement, whichever is the later. In the event claimant's application is not complete, he will be advised of the evidence necessary to complete the application, and if such evidence is not received within one year from the date of request therefor, increased subsistence allowance will not be paid by virtue of that application.

(c) Reduction of an award of subsistence allowance payable on account of education or training shall be effective:

(i) In the event of death of a dependent, as of the date of death;

(ii) In the event of divorce, the date preceding date of divorce;

(iii) In case of a child, the date preceding the eighteenth anniversary of date of birth or if attending school after age 18, the date of cessation of school attendance or the date preceding the twenty-first anniversary of the date of birth, whichever is the earlier; the date preceding date of marriage; in case of cessation of incapacity to support self by reason of mental or physical defect last day of month in which reduction is approved;

(iv) By reason of wages, compensation or other income received while performing productive labor as a part of his apprentice or other training on-the-job at institutions, business or other establishments, last date of month in which award effecting reduction is approved.

(d) Discontinuance of an award of subsistence allowance payable on account of education or training because of interruption of course or termination thereof, shall be effective:

(i) Interruption of course, date following date of interruption of course;

(ii) Termination of course, the end of the month in which the course is completed.

§ 36.206 *Applicability of provisions of regulations defining relationship, dependency, etc.* Section 400 (b) of Public

No. 346, 78th Congress, amends §§ 36.011 to 36.016 of this chapter as amended. Accordingly, except as otherwise provided herein, the provisions of Regulations and Procedure, Veterans Administration, pertaining to definitions of relationship, dependency, jurisdiction, appeals, etc., under Public No. 2, 73d Congress, insofar as applicable, will control under §§ 36.201 to 36.206 inclusive.

FEDERAL POWER COMMISSION.

[Docket Nos. G-569, G-570, G-571, G-572, and G-573]

HOPE NATURAL GAS CO.

NOTICE OF APPLICATIONS

AUGUST 25, 1944.

Notice is hereby given that on August 12, 1944, Hope Natural Gas Company, a West Virginia corporation having its principal place of business at 445 West Main Street, Clarksburg, West Virginia, filed with the Federal Power Commission five (5) applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, seeking permission and approval to abandon certain natural gas transmission facilities described in such applications as follows:

(1) Docket No. G-569. Applicant abandoned at its Hastings Compressor Station located in Wetzel County, West Virginia, the following equipment consisting of:

One 1,625 horsepower Snow Engine to which is attached one 25¼" x 60" gas compressor and appurtenant piping equipment.

In the application it is stated that the abandonment of this equipment was commenced in February 1944.

(2) Docket No. G-570. Applicant proposes to abandon its Kinsey Compressor Station located in Marion County, West Virginia. The equipment in this compressor station consists of:

One 15" x 24" 80 horsepower Clark and Norton gas engine to which is attached one 13" x 24" Clark and Norton compressor.

Appurtenant equipment consisting mainly of: Water pumps, air compressor, tanks, miscellaneous station piping and structures.

In the application it is stated that Kinsey Compressor Station has not been in operation since December, 1943. Formerly this station pumped casinghead gas from a group of oil wells owned by Hope Construction and Refining Company. These wells were sold to South Penn Oil Company which company diverted the casinghead gas through its own pipe-line system, thus terminating the need for Applicant to maintain and operate Kinsey Station.

(3) Docket No. G-571. Applicant proposes to abandon its Hawkins Compressor Station located in Marion County, West Virginia, the following equipment consisting of:

Two 150 horsepower Bessemer gas engines to which are attached two gas compressors, one 6" x 12" Gould water pump and appurtenant piping equipment.

In the application it is stated that the Applicant has located at its Hawkins Compressor Station, together with other pumping facilities, the two 150 horsepower gas engines and attached gas compressors proposed to be abandoned, and that due to the diminishing local gas supply in the area adjacent to this station the operation of the two compressor units has not been necessary in the past few months.

(4) Docket No. G-572. Applicant proposes to abandon its Macfarlan Compressor Station located in Ritchie County, West Virginia. The equipment at this compressor station consists of:

One 16" x 20" 80 horsepower Clark Brothers Gas Engine to which is attached one 11" x 20" Clark and Norton compressor.

Appurtenant equipment consisting of: Gas scrubber, tanks, air compressor and engine, miscellaneous station piping and structures.

In the application it is stated that Macfarlan Compressor Station was built by Applicant in 1938 for the purpose of withdrawing natural gas from a group of low pressure wells located adjacent to this station. As a result of changed operating conditions, it is now feasible and economic for Applicant's Craig Compressor Station, located a distance of approximately five miles to the east, to pump all the low pressure gas handled by MacFarlan Station. Therefore, the operation and maintenance of Macfarlan Station is no longer necessary.

(5) Docket No. G-573. Applicant abandoned at its Smithburg Compressor Station located in Doddridge County, West Virginia, the following equipment consisting of:

One 20" x 36" 470 horsepower National Transit gas engine to which is attached one 17" x 36" gas compressor.

Appurtenant equipment consisting mainly of: Miscellaneous station piping,

gas cooler and part of pump house structure.

In the application it is stated that the abandonment of this equipment was commenced in September, 1943.

In the application it is stated further that due to the diminishing supply of gas adjacent to Smithburg Compressor Station the facilities covered by the application were no longer needed at this location. Applicant had need for additional pumping facilities to increase utilization of an underground gas storage area near its Fink Compressor Station and to which the above-described equipment and building were moved.

Any person desiring to be heard or to make any protest with reference to said applications should, on or before the 11th day of September, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[Region II Order G–4 Under MPR 426]

FRESH FRUITS AND VEGETABLES IN EX PITTSBURGH PRODUCE TERMINAL BUILDING

Order No. G–4 under Maximum Price Regulation No. 426. Markups for sales of certain fresh fruits and vegetables ex-Pittsburgh Produce Terminal Building by primary receivers.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Maximum Price Regulation No. 426, and for the reasons stated in the accompanying opinion, this order is hereby issued.

SECTION 1. *What this order does.* This order establishes adjusted markups for less than carlot or less than trucklot sales of certain fresh fruits and vegetables by primary receivers or carlot or trucklot receivers from the Pittsburgh Produce Terminal Building of the Pennsylvania Railroad in Pittsburgh, Pennsylvania. These markups are to be used in determining maximum prices instead of the markups named in the applicable appendix of Maximum Price Regulation No. 426 for such sales by primary receivers or carlot receivers. They may only be used for "sales ex-Pittsburgh Produce Terminal Building" as defined in this order.

SEC. 2. *Definitions.* (a) When used in this order the term: (1) "Carlot receiver" or "trucklot receiver" means a person who for his own account and profit buys the fresh fruit or vegetable being priced in unbroken carlots or unbroken trucklots for resale in less than carlots or less than trucklots to persons other than ultimate consumers.

(2) "Primary receiver" means:

(i) As to certain deciduous tree fruits, a person who for his own account and profit buys the deciduous tree fruit being priced (1) in unbroken carlots or trucklots from any person or (2) in any quantity from a primary seller selling either direct or through auction or through any agent (except a commission merchant in less than carlots or less than trucklots), for resale in less than carlots or less than trucklots to persons other than ultimate consumers;

(ii) As to peaches, a person other than a service wholesaler who for his own account and profit buys the fruit being priced (1) in unbroken carlots or unbroken trucklots from any person or (2) in any quantity from a grower, grower-packer or shipping point distributor selling either direct or through any agent (except a commission merchant in less-than-carlots or less-than-trucklots), or (3) at auction, for resale in less-than-carlots or less-than-trucklots to persons other than ultimate consumers.

(3) "Sale ex-Pittsburgh Produce Terminal Building" means a sale of a fresh fruit or vegetable which has been unloaded into the Pittsburgh Produce Terminal Building of the Pennsylvania Railroad at Pittsburgh, Pennsylvania, placed in the space assigned to the seller, and from that space delivered to the buyer either at his premises or at the loading platform of the terminal building.

(b) Unless contrary to the context of this order, the definitions contained in Maximum Price Regulation No. 426 and

in the Emergency Price Control Act of 1942, as amended, shall apply to terms used in this order.

SEC. 3. *Applicability.* This order applies only to "sales ex-Pittsburgh Produce Terminal Building" by carlot or trucklot receivers or primary receivers. It does not apply to any other sales. In order to qualify for the markups established by this order the seller must satisfy the definition of "carlot or trucklot receiver" or "primary receiver", as the case may be, and the sale of the commodity being priced must satisfy the definition of "sale ex-Pittsburgh Produce Terminal Building" in every respect.

SEC. 4. *Maximum markups for sales ex-Pittsburgh Produce Terminal Building, Pittsburgh, Pennsylvania.* (a) Markups for certain deciduous tree fruits. The markups for sales by primary receivers contained in Column 5 of Table B of paragraph (e) of Appendix J of Maximum Price Regulation No. 426 shall not apply to sales ex-Pittsburgh Produce Terminal Building in Pittsburgh, Pennsylvania. The maximum markups which may be added to the maximum delivered prices as provided in Column 6 of the tables in paragraph (d) of Appendix J for sales by "primary receivers" in less than carlots or less than trucklots ex-Pittsburgh Produce Terminal Building shall be as follows:

(e) *Addition of increases in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in his purchase cost or in his supplier's maximum prices occurring after the effective date hereof, but increases in the maximum prices set hereby, to reflect such increases are within the discretion of the Administrator or of the Regional Administrator of Region IV.

(f) *Power to amend or revoke.* This order, or any provision thereof, may be revoked, amended, or corrected at any time by the Administrator or by the Regional Administrator of Region IV.

(h) *Applicability of other regulations*—(1) *Licensing and registration.* Every dealer subject to this order is subject to the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. It is not necessary to apply for a license, but a dealer may later be required to register. A license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

He shall post his prices in his place of business in a manner plainly visible to, and understandable by, the purchasing public. (2) Every dealer selling solid fuels for the sale of which a maximum price is set by this order shall, within 30 days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged and separately stating, any item which is required to be separately stated by this order. This paragraph (j) (2) shall not apply to sales of quantities of less than one-quarter ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941 customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size, and quantity of the solid fuel sold to him, or the price charged, the dealer shall comply with the buyer's request as made by him.

Order No. G–1 under § 1439.3–15 Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1351.1254a (a) of Maximum Price Regulation No. 285. Delivery differentials for wholesalers of certain fresh fruits and vegetables in Cedar Falls, Cedar Heights, Cedar Rapids, Creston, Des Moines, Fort Dodge, Mason City, Ottumwa and Waterloo, Iowa.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Des Moines, Iowa District Office of the Office of Price Administration, by §§ 1439.3–15, Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1351.1254a (a) of Maximum Price Regulation No. 285, it is hereby ordered:

(a) *What this order does.* This order determines the limits of the free delivery zone at the wholesale receiving points of Cedar Rapids, Waterloo, Fort Dodge, Mason City, Creston, Des Moines and Ottumwa, Iowa. It also establishes differentials for non-delivered sales in the free delivery zones and for delivered sales beyond the free delivery zones. The order applies to such fresh fruit and vegetable items as are now or may hereafter be subject to the pricing provisions of Maximum Price Regulation No. 285, imported fresh bananas, sales except at retail, and Appendices H and I of Maximum Price Regulation No. 426, fresh fruits and vegetables for table use. The only sellers who are subject to this order are those wholesalers who price under Maximum Price Regulation No. 285, and secondary jobbers and service wholesalers, as these terms are used in Appendices H and I of Maximum Price Regulation No. 426.

(b) *Establishment of delivery zones.* 1. The seven free delivery zones established by this order shall be the area within the city limits of Waterloo, Cedar Heights and Cedar Falls, and the areas within the city limits of and a radius of three (3) miles of the city limits of Cedar Rapids, Fort Dodge, Mason City, Creston, Des Moines, and Ottumwa, Iowa.

2. The zones in which charges may be made for delivery are the areas outside the free delivery zones.

(c) *Differentials for non-delivered and delivered sales of items listed in Appendices H and I of Maximum Price Regulation No. 426—1. Non-delivered sales.* For sales on a non-delivered basis of the commodities covered in Appendices H and I of Maximum Price Regulation No. 426, there shall be deducted from the price for delivered sales in a free delivery zone, 5¢ per container for standard shipping containers weighing under 50 pounds gross weight, and 10¢ per container for standard shipping containers weighing 50 pounds or over gross weight. A deduction of 2¢ or 5¢, respectively, shall be made for non-delivered sales of half standard shipping containers or more, or for bulk sales weighing as much as or more than half a standard container of the item being sold. No deductions need

be made for sales in less than half containers and for bulk sales which weigh less than half a standard container of the item being sold.

2. *Delivered sales in a free delivery zone.* The maximum price for delivered sales in a free delivery zone shall be the maximum delivered price computed under Maximum Price Regulation No. 426 for the type of sale being made without any deduction from or addition thereto.

3. *Delivered sales beyond a free delivery zone.* For deliveries beyond a free delivery zone, the amount set out below may be added to the price for delivered sales in the free delivery zone. Mileage beyond the free delivery zone shall be computed via the nearest publicly traveled route. The prices set forth below shall be computed on the gross weight, whether in bulk or in containers:

25 miles or less	*Beyond 25 miles*
Beyond free delivery zone:	From free delivery zone:
25¢ per cwt. except that the rate for deliveries at Agency Iowa by wholesalers in the Ottumwa Area shall be 10¢ per cwt.	5¢ per cwt. for each successive 25 miles, provided that the total amount added as delivery charges on any sale described herein may not exceed 50¢ per cwt.

(d) *Differentials for non-delivered and delivered sales of items under Maximum Price Regulation No. 285—1. Non-delivered sales and delivered sales in a free delivery zone.* For non-delivered sales and for deliveries in the free delivery zone the maximum price shall be the maximum delivered price computed under Maximum Price Regulation No. 285 for the type of sale being made. Customary discounts and price differentials including any differential or discounts for f. o. b. seller or non-delivered sales must be maintained.

2. *Delivered sales beyond the free delivery zone.* For deliveries beyond a free delivery zone, the amount set out below may be added to the price for delivered sales in the free delivery zone. Deliveries beyond the free delivery zone shall be computed via the nearest publicly traveled route. Delivery charge shall be computed for the net weight of bananas delivered.

25 miles or less, beyond free delivery zone: 25¢ per cwt., except that the rate for deliveries at Agency, Iowa by wholesalers in the Ottumwa Area shall be 10¢ per cwt.

Beyond 25 miles, from free delivery zone: 5¢ per cwt. for each successive 25 miles, provided that the total amount added as delivery charges on any sale described therein may not exceed 35¢ per cwt.

(e) *Definitions.* 1. Unless the context otherwise requires, the terms used herein shall have the same meaning as given them in Maximum Price Regulation No. 285 and Maximum Price Regulation No. 426.

2. "Delivery" means physical delivery to the premises of a retail store, hotel, restaurant or institution.

3. Delivery within a free delivery zone or "delivered within a free delivery zone" means delivery by a seller who maintains facilities within that zone. Delivery by a seller in a free delivery zone, who has his distribution facilities in a different free delivery zone, shall not constitute a delivery in a free delivery zone as herein defined, and such seller shall be entitled to add the delivery charges beyond the free delivery zone in which he has his distribution facilities.

(g) *Effective date.* This order shall become effective on the 26th day of July 1944.

[Region IV, Rev. Order G–7 Under RMPR 122]

SOLID FUELS IN KNOXVILLE, TENN., AREA

Revised Order No. G–7 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for solid fuels in the City of Knoxville and adjacent territory in the State of Tennessee.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator, Region IV, Office of Price Administration, by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* (1) This order establishes maximum prices for sales of specified solid fuels when the delivery is made to any point in the area set out in paragraph (c) hereinafter.

(2) Paragraph (c) of this order contains a price schedule applicable to sales of the solid fuels named therein. Special charges and discounts applicable to such sales are likewise found in that paragraph.

(b) *What this order prohibits.* Regardless of any contract, agreement, or other obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this order, but less than maximum prices may, at any time, be charged, paid or offered; or

(2) Obtain a higher than maximum price by:

(i) Charging for a service which is not expressly requested by the buyer or which is not specifically authorized by this order;

(ii) Using any tying agreement by making any requirement that anything other than the fuel requested by the buyer be purchased by him; or

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(c) *Price schedule, consumer sales.* (1) This price schedule sets maximum prices for sales of specified sizes, kinds, and quantities of solid fuel to consumers when the delivery is made to any point within the corporate limits of Knoxville, Knox County, Tennessee and within the area lying within four (4) miles thereof (measured by the most direct highway route), and when delivery is made to any point within the villages of Bearden, Westmoreland Heights, Inskip, and Fountain City, Tennessee.

(i) "Direct delivery or domestic" basis:

HIGH VOLATILE BITUMINOUS COAL FROM DISTRICT NO. 8

Size	Per ton 2,000 lbs.	Per ½ ton 1,000 lbs.
Lump, chunk, or block	$7.25	$3.75
Egg	6.95	3.60
Junior egg or stove	6.45	3.35
Stoker	7.00	3.63
Run-of-mine	6.45	3.35
Nut and slack	5.15	2.70

(2) *Maximum authorized service charges and required deductions.*—(i) *carry or wheel service.* If the buyer requests such service, the dealer may not charge more than 25¢ per ton therefor.

(ii) *Yard sales.* When the buyer picks up coal at the dealer's yard in lots of not less than one-half ton, the dealer must reduce the domestic price at least 75¢ per ton.

(iii) *Bagged coal.* When the buyer picks up coal at the dealer's yard in less than one-half ton lots, the dealer may charge not more than 36¢ per 100 lbs. If such coal is bagged, an additional charge, not exceeding the applicable maximum price, may be made for the bag.

(iv) *Quantity sales.* When the buyer purchases lump, chunk, block, egg, junior egg, or stove coal in quantities of 40 tons or more, the dealer must reduce the domestic price not less than 50¢ per ton. This quantity discount is not applicable to sales of stoker, run-of-mine, nut, or slack coal.

(v) *Southern Appalachian coals.* To the maximum prices for bituminous coals from sub-district No. 6 (Southern Appalachian) of District No. 8, may be added the sum of 15¢ per ton and 8¢ per one-half ton.

(vi) *Treated coal.* If a dealer's supplier has subjected the coal to oil or calcium chloride treatment to allay dust or to prevent freezing and makes a charge to the dealer therefor, the dealer selling such coal may add to the applicable maximum price set by this order the amount of such charge, not to exceed 10¢ per net ton. Any such treatment charge shall be stated separately from all other items on the invoice.

(vii) *Bearden.* Any dealer in the village of Bearden, Tennessee purchasing coal from the Southern Coal and Coke Company shipped from a mine located on the L. & N. Railroad may add to the prices specified herein an amount not exceeding $1.10 per ton.

(viii) *Credit.* No additional charge over the prices specified herein may be made for the extension of credit.

(d) *Ex Parte 148 freight rate increase; transporation tax.*—(1) *The freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December, 1941; therefore, no dealer may increase any price specified herein on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected, in addition to the maximum prices set by this order. It may be collected only if the dealer states such tax separately from the price of the coal on the invoice. (The tax need not be stated separately on sales to the United States or any agency thereof—see amendment 12 to Revised Maximum Price Regulation No. 122.) No part of this tax may be collected in addition to the maximum prices specified on sales of one-quarter ton or lesser amounts of coal, or on sales of any quantity of bagged coal.

(e) *Addition of increases in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in his purchase cost or in his supplier's maximum prices occurring after the effective date hereof, but increases in the maximum prices set hereby, to reflect such increases are within the discretion of the Administrator or of the Regional Administrator of Region IV.

(f) *Power to amend or revoke.* This order, or any provision thereof, may be revoked, amended, or corrected at any time by the Administrator or by the Regional Administrator of Region IV.

(g) *Petitions for amendment.* Any person seeking an amendment of this order may file a petition for amendment with the Administrator in accordance with the provisions of Revised Procedural Regulation No. 1, or in the alternative, may file such petition with the Regional Administrator, Region IV, Office of Price Administration, Candler Building, Atlanta 3, Georgia. If such petition is filed with the Regional Administrator, action thereon shall be taken by him. When such a petition is filed with the Regional Administrator, all requirements of Revised Procedural Regulation No. 1, relative to the filing of such petitions, are applicable except the place of filing specified therein.

(h) *Applicability of other regulations.*—(1) *Licensing and registration.* Every dealer subject to this order is subject to the licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation. These sections provide, in brief, that a license is required of all persons selling, at retail, commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for a license, but a dealer may later be required to register. A license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(2) *Effect of this order on Revised Maximum Price Regulation No. 122.* To the extent applicable, the provisions of this order supersede the provisions of Revised Maximum Price Regulation No. 122.

(i) *Records and reports.* Every person making sales of solid fuels for which maximum prices are established by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in this order. This record shall also separately state each service rendered and the charge made therefor.

(1) It is not necessary that these records or your maximum prices be filed with the War Price and Rationing Board.

(j) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set hereby for all of his types of sales. He shall post his prices in his place of business in a manner plainly visible to, and understandable by, the purchasing public. He shall also keep a

copy of this order available for examination by any person inquiring as to his prices for solid fuels.

(2) Every dealer selling solid fuels for the sale of which a maximum price is set by this order shall, within 30 days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged, and separately stating any item which is required to be separately stated by this order. This paragraph (j) (2) shall not apply to sales of quantities of less than one-quarter ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December, 1941 customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size, and quantity of the solid fuel sold to him, or the price charged, the dealer shall comply with the buyer's request as made by him.

(k) *Enforcement.* (1) Persons violating any provisions of this order are subject to the civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violations of this order are urged to communicate with the Nashville District Office of the Office of Price Administration.

[File No. 70-954]

CENTRAL VERMONT PUBLIC SERVICE CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 24th day of August, A. D. 1944.

Notice is hereby given that an application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Central Vermont Public Service Corporation, a public utility subsidiary of New England Public Service Company, a registered holding company, which in turn is a subsidiary of Northern New England Company, also a registered holding company. All interested persons are referred to said application-declaration which is on file in the office of this Commission for a full statement of the transactions therein proposed, which are summarized as follows:

Central Vermont Public Service Corporation proposes to refinance its presently outstanding 37,856 shares of Preferred Stock, no Par Value, $6 Dividend Series (hereinafter referred to as "$6 Preferred Stock"), by making an offer to the holders of such stock whereby they will be afforded an opportunity to exchange each share of presently held stock for one share of Preferred Stock, $100 Par Value, 4¼% Dividend Series (hereinafter referred to as the "New Preferred Stock"), plus a cash payment equal to the difference (estimated at $4.50 per share) between $107.50, the redemption price of the $6 Preferred Stock, and the public offering price of the New Preferred Stock, plus an amount equal to accrued dividends on the $6 Preferred Stock to the exchange date. Any shares not exchanged will be called for redemption at the redemption price of $107.50 per share plus accrued dividends. Central Vermont Public Service Corporation proposes to enter into an agreement with underwriters whereby the latter will solicit the exchanges and, upon the termination of the exchange period, will purchase from Central Vermont Public Service Corporation such number of the 37,856 shares of the New Preferred Stock as have not been taken up under the exchange offer.

Central Vermont Public Service Corporation also proposes to solicit proxies from the holders of its common stock, in connection with the amendment of its Articles of Association to authorize 100,000 shares of Preferred Stock, $100 Par Value, and to define the preferences and rights thereof, and to reduce its presently authorized capital stock by the 50,000 shares of Preferred Stock, No Par Value (of which 37,856 shares are presently outstanding), upon the retirement of the presently outstanding $6 Preferred Stock.

Applicant-declarant requests that the Commission enter an order finding that, with respect to the proposed issue and sale of the New Preferred Stock, compliance with paragraphs (b) and (c) of Rule U-50 is not necessary or appropriate.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said application shall not be granted nor said declaration be permitted to become effective except pursuant to further order of the Commission:

On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why such application-declaration shall be granted or shall be permitted to become effective.

It is further ordered, That any person desiring to be heard in connection with this proceeding or proposing to intervene herein shall file with the Secretary of the Commission on or before September 7, 1944, his request or application therefor, as provided by Rule XVII of the Rules of Practice of the Commission.

2. Whether the proposed transactions are appropriate and in the public interest and the interest of investors and consumers.

ORDER GRANTING REQUEST FOR LEAVE TO WITHDRAW APPLICATION AND REVOKING PREVIOUS ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa. on the 25th day of August, A. D. 1944.

The Detroit Edison Company having filed an application under section 2 (a) (8) of the Public Utility Holding Company Act of 1935 for an order declaring it not to be a subsidiary of The North American Company, American Light & Traction Company, The United Light and Railways Company and The United Light and Power Company, all registered holding companies; and

The Commission having on August 5, 1940, denied said application with respect to The North American Company; but having granted said application by The Detroit Edison Company to be declared not to be a subsidiary of American Light & Traction Company, The United Light and Railways Company and The United Light and Power Company, subject to the condition that The Detroit Edison Company shall file with the Commission annually on or before each 15th day of August a report which shall disclose whether any directors or officers of The Detroit Edison Company are at the same time directors or officers or are representatives or designees of The United Light and Power Company or any of its subsidiary companies or affiliates, and whether there have been transactions between The Detroit Edison Company and The United Light and Power Company or any of its subsidiary companies or affiliates; and

The Commission having on the basis of information contained in its public official files indicating substantial changes in the circumstances upon which its said order granting the application of The Detroit Edison Company had been based, issued an order on July 10, 1944, reopening the record and reconvening the hearing in these proceedings for the purpose of adducing additional evidence so as to enable the Commission to determine whether The Detroit Edison Company is now controlled or its management and policies are now subject to a controlling influence, directly or indirectly, by American Light & Traction Company, The United Light and Power

Company or The United Light and Railways Company (either alone or pursuant to an arrangement or understanding with one or more other persons) so as to make it necessary or appropriate in the public interest or for the protection of investors or consumers that The Detroit Edison Company be subject to the obligations, duties and liabilities imposed by the Act upon subsidiary companies of registered holding companies and whether the Commission's previous order granting the application of The Detroit Edison Company with respect to American Light & Traction Company, The United Light and Power Company and The United Light and Railways Company should be revoked; and

The Detroit Edison Company having filed an answer in the proceedings in which it is stated, among other things, that American Light & Traction Company is the largest single stockholder of The Detroit Edison Company, owning beneficially 20.2% of its voting securities, that the next largest stockholders own 4.2%, 2.3% and 1.2%, respectively, of its voting securities, that the company has 37,008 stockholders of record and that on February 15, 1944, two nominees who are officers and directors of American Light & Traction Company, The United Light and Railways Company, and The United Light and Power Company were designated for election to the board of directors of The Detroit Edison Company and were elected thereto at the request of American Light & Traction Company; and

The Detroit Edison Company having on the basis of the changes in circumstances recited in its answer requested leave to withdraw its original application for an order declaring it not to be a subsidiary of American Light & Traction Company, The United Light and Railways Company and The United Light and Power Company and consented to a consequent revocation of the Commission's order of August 5, 1940, granting said application; and

It appearing to the Commission that it is appropriate that such application be withdrawn and that its previous order granting such application should be revoked:

It is ordered, That the request of The Detroit Edison Company for leave to withdraw its said application with respect to American Light & Traction Company, The United Light and Railways Company and The United Light and Power Company be, and hereby is, granted and that the Commission's order of August 5, 1940, granting said application with respect to American Light & Traction Company, The United Light and Railways Company and The United Light and Power Company be, and hereby is, revoked.

REPUBLIC SERVICE CORP., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING AND RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of August, A. D. 1944.

The Commission having on February 19, 1943, in proceedings under sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935, ordered Republic Service Corporation ("Republic"), a registered holding company, among other things, to divest itself of its interests in its Virginia subsidiaries and to recapitalize in an appropriate manner so as to ensure that the corporate structure of Republic does not unduly or unnecessarily complicate the structure or unfairly or inequitably distribute voting power among security holders of Republic's holding company system, and that, upon such recapitalization, the common stock of Republic shall be accorded no participation;

Republic having heretofore filed Amendment No. 1 to an application pursuant to section 11 (e) of the Act for approval of a plan to comply with section 11 (b) of the act ("Plan No. 1"), which amendment provides for the sale of its Virginia subsidiary companies and the application of the proceeds from such sales, together with other company funds, to the pro rata payment of 60% of the outstanding principal amount of Republic's Collateral Trust Bonds; said amended application being presently pending before the Commission;

Notice is hereby given that Republic has filed Amendment No. 2 to the said application ("Plan No. 2"), which amendment relates to a plan for the recapitalization of Republic to comply with the order of this Commission dated February 19, 1943.

All interested persons are referred to such documents, which are on file in the offices of this Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

I. Republic, at July 25, 1944, had outstanding the following securities:

(a) $4,772,000 principal amount of 5% First Lien Collateral Trust Twenty-five Year Bonds. This principal amount of bonds includes an amount of $118,000 of bonds held in escrow to secure the indebtedness of Republic to two of its subsidiary companies and treasury bonds in the amount of $244,500, which will, prior to the effective date of the plan, be surrendered to the Indenture Trustee and cancelled.

(b) 17,581 shares of $6 no par value cumulative preferred stock with a liquidating value of $100 per share. At April 30, 1944, accrued and unpaid dividends on said shares of preferred stock aggregated $1,155,951 or $65.75 per share.

(c) 54,467 1/10 shares of no par value common stock (including 8 1/10 shares reserved for unexchanged scrip).

II. Plan No. 2 is made contingent upon the approval by the Commission and any other requisite authorities and the consummation of the transactions proposed in Plan No. 1. If the transactions contained in Plan No. 1 are approved and consummated, Republic will have outstanding $1,763,800 principal amount of its Collateral Trust Bonds represented by "Adjusted Bonds" in denominations of $200 and $400.

Plan No. 2 proposes that Republic simplify its capital structure and redistribute voting power among its security holders by converting all such "Adjusted Bonds" and all of Republic's outstanding preferred stock into a single class of common stock ("New Stock"), par value $15 a share, the common stock not to participate in such recapitalization. To effectuate this objective, it is proposed:

(a) To change the authorized capital stock of Republic to 120,000 shares of New Stock and to issue 114,590 shares of said New Stock in exchange for the said "Adjusted Bonds" and Preferred Stock on the following basis:

11 shares for each $200 face amount of Adjusted Bonds or a total of 97,009 shares (84.66% of the total New Stock proposed to be issued).

1 share for each share of preferred stock or a total of 17,581 shares (15.34% of the New Stock proposed to be issued).

(b) Interest on Adjusted Bonds accrued and unpaid on the effective date of the plan is to be paid in cash at the time of distribution of the New Stock. All bond interest is to cease to accrue on the effective date of the plan.

(c) No premiums are to be paid on account of the retirement of the bonds prior to the maturity date thereof.

(d) The carrying value of investments in the Pennsylvania subsidiaries of Republic is to be reduced from $3,105,264 to $2,190,000.

(e) Distribution of the New Stock under the proposed plan is to be made by the Directors of Republic acting as Reorganization Managers over a period of two years from the effective date of the plan, upon surrender of the Adjusted Bonds and preferred stock certificates. As soon thereafter as is feasible all shares of New Stock then represented by outstanding bonds or Adjusted Bonds or preferred stock certificates are to be sold in the open market and the proceeds, together with any dividends theretofore paid thereon and any cash held for the payment of principal or interest on bonds or interest on Adjusted Bonds (less expenses), are to be held for the pro rata benefit of the holders of such unexchanged securities for an additional three years. At the expiration of the fifth year from the effective date of the proposed plan, holders of such unexchanged securities are to have no further rights to any balance of such proceeds and dividends then held against unexchanged securities which are to then revert, and belong, to Republic.

(f) A meeting of the holders of New Stock to elect a new Board of Directors will be held not more than 120 nor less than 60 days after the effective date of the plan, in conformity with such orders as this Commission shall make regarding the machinery for nomination and election.

Republic requests, if the Commission approves the said plan, that the Commission apply to a Federal Court, pursuant to the provisions of sections 11 (e) and 18 (f) of the Act, to enforce and carry out its terms and provisions.

III. Notice in further given that Irving H. (j) "Manpower priority committee" means a group of representatives of Federal procurement services and other Federal manpower claimant agencies who

advise State Directors with respect to priorities service and ceiling adjustments.

(k) "Priority referral" is a program which provides that employers in an area may hire male workers only from among those referred by the United States Employment Service of the War Manpower Commission or in accordance with arrangements approved by the United States Employment Service, so that workers may be referred to jobs in the order of the relative importance of these jobs to the war effort.

SEC. 5. *General.* A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(a) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(b) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

SEC. 6. *Issuance of statements of availability by employers.* An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from his employer if:

(a) He has been discharged, or his employment has been otherwise terminated by his employer, or

(b) He has been laid off for an indefinite period or for a period of seven or more days, or

(c) Continuance in his employment would involve undue personal hardship, or

(e) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

SEC. 7. *Issuance of statement of availability by United States Employment Service.* A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in section 6 is found to exist in his case. SEC. 9. *Workers who may be hired only upon referral by the United States Employment Service.* A new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or in accordance with arrangements with, the United States Employment Service when:

SEC. 11. *Employment ceilings.* The State Manpower Director may fix for all or any establishments in the State of Wyoming fair and reasonable employment ceilings and manpower allowances limiting the number of employees or specified types of employees which such establishments may employ during specified periods. Such ceilings and allowances will be determined on the basis of the establishment's actual labor needs, the available labor supply and/or the relative urgency of the establishment's products or service to the war effort. Except as authorized by the State Manpower Director or his representative, no employer shall hire any new employee for work in such establishments, if the hiring of such an employee would result in such establishhment's exceeding the employment ceiling or manpower allowance currently applicable to it.

SEC. 12. *Control of migration*—(a) *Out-migration.* Any resident of the State of Wyoming wishing to seek employment in any area within the States of Utah, Idaho, Montana, Colorado and Wyoming in which he has not worked or lived during the preceding 30-day period shall apply to the United States Employment Service nearest his present home or place of employment for a statement of inter-area clearance. Such inter-area clearance statement shall be granted if:

Any worker so released shall be issued or denied a statement of availability or referral so far as practicable on the basis of the facts existing when he was improperly hired.

SEC. 14. *Short term employment.* In order to facilitate the employment of individuals during vacation, off-season, or similar short periods, the United States Employment Service may, upon consent of the worker entitled thereto, issue statements of availability or referral cards containing limitations as to the length of time for which the worker is available for employment. (c) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii;

(d) The hiring by a foreign, State, country or municipal government, or their political subdivisions or their agencies and instrumentalities, or to the hiring of any of their employees, unless such foreign, State, county or municipal government or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum exent practicable under the Constitution and laws applicable to it, with the program;

Statement of availability forms are available at each office of the United States Employment Service.

SEC. 18. *Retention of statement of availability or referral card by employer.* Each employer upon hiring a worker upon presentation of a United States Employment Service referral card or a statement of availability where referral cards are not necessary, shall retain and file such statement or referral card and shall make them available for inspection upon request of the United States Employment Service.

When a worker is employed who does not need a referral card or a statement of availability, the employer shall retain a signed statement in his file showing the worker's name, address, last employer and final employment date of the worker's last employment. This statement shall be retained in the file in lieu of the statement of availability or referral card.

SEC. 22. *Representation.* Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

SEC. 23. *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 24. *Enforcement of program.* (a) Violations of this program which constitute violations of War Manpower Commission Regulations No. 4 as amended August 16, 1943, issued pursuant to Executive Order 9328, are subject to the penal provisions of the act of October 2, 1942, (Pub. PART 3270—CONTAINERS

[Limitation Order L-336 as Amended Aug. 29, 1944]

PAPER CUPS AND PAPER FOOD CONTAINERS

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of paper cups and paper food containers and the material used in their manufacture, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

Definitions

§ 3270.61 *Limitation Order L-336*—(a) *Definitions.* For the purpose of this order:

(1) "Paper cups and paper food containers" means all empty .open nested paper cups and round nested paper food containers with or without lids. The term does not include flat envelope types of cup, wedge-shaped food pails or nested paper plates.

(2) "In-plant feeding" means the serving of food, drink or refreshments on the premises of a plant, business activity, governmental agency or institution to its employees when the food or drink is prepared on the premises of the plant, business activity, governmental agency or institution or when the food, or drink prepared in bulk (such as coffee or soup), is brought to the plant, business activity, governmental agency or institution and served in paper cups or paper food containers on the premises. It shall also include the serving of food, drink and refreshments by (i) military exchanges and service departments, (ii) hospitals serving their patients, (iii) service welfare organizations such as USO, Red Cross, etc., (iv) persons engaged in serving passengers in trains and in planes, and (v) educational institutions in serving their students. In-plant feeding includes the serving of food, drink and refreshments between meals as well as at meal-time. For instance, the use of paper cups for drinking water is included within the meaning of the term.

(3) "A caterer or concessionaire" means a person who has an agreement with an operator of a plant, business activity, governmental agency or institution to regularly provide in-plant feeding for its employees, and who prepares his food or drink on the premises of the plant, or brings his food, or drink prepared in bulk (such as coffee or soup), to the plant and serves it on the premises. It does not include persons supplying drink or refreshments in paper cups or paper food containers from outside the plant.

(4) "Hot drink cup" means any unwaxed tall cup, double-wrapped, or single-wrapped of comparable weight, which is suitable for dispensing hot liquids.

(5) "Cold drink cup" means any one or two-piece waxed cup of six-ounce size or larger.

(6) "Military exchanges and service departments" means U. S. Army and Marine Corps Post Exchanges; U. S. Navy and Coast Guard Ship's Service Departments; War Shipping Administration Training Organization Ship's Service activities.

General Restrictions

(b) *Prohibitions.* (1) No manufacturer shall make packages of cups for retail sales.

(2) No person shall sell or deliver the following types of paper cups if he knows or has reason to believe that they will be used for the purposes stated:

(i) Paper cups for retail sales. This restriction shall not apply to stocks of paper cups made up for retail sales which were on hand on January 29, 1944.

(ii) Hot drink cups for any purpose other than military or in-plant feeding.

(iii) Paper cups for serving beverages out of individual paper, glass or metal containers (except for in-train feeding).

(iv) Portion control cups for retail sales or for party favors.

(3) No person shall commercially use paper cups to serve beverages out of individual paper, glass or metal containers. This restriction shall not apply to users' stocks on hand on January 29, 1944, or to in-train feeding.

(c) *Quantity limitation of hot drink cups.* No person shall commercially use more hot drink cups in any month than 80% of his average monthly consumption during the months of January through March 1944. This provision does not apply to the Army, Navy, military exchanges or service departments. However, the War Production Board may authorize a quota to a person who does not have one or an increase in quota, where there has been an increase in the number of production workers, installation of new in-plant feeding facilities, or where such action appears justified from the facts presented. Application for authorization of a quota to a person who does not have one or an increase in quota may be made by letter to the appropriate field office of the War Production Board.

(d) *Inventory.* No user shall accept delivery of, or have set aside or held by any person for his account any paper cups and paper food containers which will increase his inventory of any size and type to more than his reasonably anticipated requirements for the ensuing thirty days, subject to the following exceptions:

1. A user may accept the minimum commercial packing case quantity whenever his inventory is less than a thirty-days' supply.

2. A user whose purchase orders during 1943 for a particular kind of paper cup or paper food container printed specially for him averaged less than 25,000 in number, may accept that kind of printed paper cup or paper food container in quantities equal to the average order for it placed by him during 1943, provided he has on hand less than a two months' supply.

Restriction on Manufacturers

(e) *Maintenance of production of hot drink cups and flat bottom cold drink cups.* To meet the requirements of the armed forces and in-plant feeding operations, manufacturers of hot drink cups and flat bottom cold drink cups shall maintain a rate of monthly production of these items equivalent to the highest monthly production attained during 1943 and the first quarter of 1944 to the extent permitted by Paragraph (f) and subject to contingencies beyond his control.

(f) *Restrictions on tonnage of paper and paperboard to be processed.* No person shall, unless specifically authorized by the War Production Board, accept more paper and paperboard for the manufacture of paper cups and paper food containers in the second and third quarters of 1944 combined than 200% of the tonnage of paper and paperboard that he used for that purpose in the fourth quarter of 1943. No person shall, unless specifically authorized by the War Production Board, accept more paper and paperboard for the manufacture of paper cups and paper food containers in any calendar quarter beginning October 1, 1944 than his quota for the fourth quarter of 1944 and for each succeeding quarter, until the War Production Board determines otherwise, is 100% of the tonnage of paper and paperboard that he used for the manufacture of paper cups and paper food containers in the fourth quarter of 1943. A change in these quotas may be made necessary by a change in the amount of pulp which may be allocated to the entire industry for any quarter.

Restrictions on Distribution

(g) *Distribution of production between military and civilian requirements.* (1) Regardless of preference ratings, each manufacturer of paper cups must set aside the following percentage of his production of paper cups in each month beginning with July 1944, for delivery to the Army and the Navy (excluding domestic military exchanges and service departments but including those located outside the continental United States) on orders received from them before the 15th of the preceding month:

17% of his monthly production of 6 to 9 oz. hot drink cups but not more than 60% of these shall be of any one size.

45% of his monthly production of 6 to 10 oz. flat bottom cold drink cups but not more than 60% of these shall be of any one size.

80% of his monthly production of 12 to 24 oz. flat bottom cold drink cups.

If he has not received orders from the Army or Navy by the 15th of the preceding month for the full amount of the set-aside, he may release any surplus for delivery on orders as specified below. He shall make up his set-aside of flat bottom cold drink cups within each of the two size groupings specified above from sizes in accordance with orders placed by the Army and Navy. Set-asides under this paragraph shall be computed on the basis of the number of cups.

The balance of each manufacturer's monthly production of hot drink cups and flat bottom cold drink cups shall be used exclusively to fill non-military orders and orders from domestic military exchanges and service departments in accordance with Priorities Regulation No. 1 and the provisions of this order.

(2) Any distributor who delivers hot drink cups or flat bottom cold drink cups to the Army or Navy including military exchanges and service departments outside continental United States shall notify the manufacturer who supplied him with the cups, giving the contract or purchase order number, and the cups so sold shall be deducted from the set-aside for the following month by the manufacturer. No manufacturer shall make any deduction from the military set-aside because of deliveries made by a distributor unless he receives the above information from the distributor.

Use of Preference Ratings

(h) *Assignment of ratings.* Any person may use the blanket MRO rating assigned to him by any regulation of the War Production Board (including CMP Regulation No. 5, CMP Regulation No. 5A and orders in the P or U series to buy paper cups and paper food containers for in-plant feeding, subject to the restrictions contained in this order.

(i) *Use of rating by caterer.* A caterer or concessionaire may use his customer's blanket MRO rating to buy paper cups and paper food containers for use in providing in-plant feeding to employees of the customer.

(j) *Ratings on application.* Preference ratings for users not included above and preference ratings differing from those assigned may be assigned on application by any person on Form WPB-541 (formerly PD-1A). The assignment of a rating to an applicant on this form will permit him to use that rating to get only the specific quantities and items authorized. This application shall be filed with the appropriate field office, and shall be given consideration on the basis of the requirements for extreme emergencies in in-plant feeding operations, disaster and blood donor feeding by the Red Cross or operating supplies for industrial plants.

(k) *Application and extension of ratings.* The ratings assigned pursuant to or permitted to be used by this order may be applied or extended in accordance with Priorities Regulation No. 3. Ratings applied or extended to get paper cups or paper food containers may not be extended to obtain materials for use in their manufacture.

(l) *Equipment for use of chinaware.* No person may use his blanket MRO rating to purchase paper cups or paper food containers for the serving of hot food or beverages if such person is equipped to use chinaware or other containers. In the event that such equipment can only serve a portion of his needs, he may use his MRO rating to order only the quantity of paper cups or paper food containers required in excess of such equipment.

(m) *Paper cups for packaging purposes.* Attention is called to the fact that persons buying paper cups and paper food containers for use in packaging food or other products for shipment or delivery are not permitted to use blanket MRO ratings for this purpose. Persons engaged in in-plant feeding operations also may not use their blanket MRO ratings to buy paper cups and paper food containers which are to be sent to a food packer to be filled and returned to the plant for in-plant feeding.

Miscellaneous

(n) *Appeals.* Appeals from Order L-336 shall be filed by addressing a letter to the appropriate field office of the War Production Board.

The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provisions appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(o) *Reports.* Any person affected by this order shall file such reports and questionnaires as the War Production Board may request from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(p) *Communications.* All inquiries relating to this order other than requests for authorization or appeals shall be addressed to War Production Board, Containers Division, Washington 25, D. C., reference Order L-336.

Issued this 29th day of August 1944.

PART 3287—GOVERNMENT SERVICES

[Supplementary Limitation Order L-286-b]

AMMUNITION

§ 3287.23 *Supplementary Limitation Order L-286-b*—(a) *Purpose.* In order to protect crops and livestock and to increase the food supply, this order permits all persons, including farmers and ranchers, to get special and additional quotas of ammunition to shoot predators and to hunt game.

(b) From now through December 31, 1944, a manufacturer, supplier or dealer may sell and deliver to any person for protection of crops and livestock, or for hunting, or both, upon receipt of a certificate as provided in paragraph (f), and any person may buy and accept delivery for those purposes, not more than:

150 rounds of .22 caliber rim fire cartridges.
40 rounds of center fire rifle ammunition (or 50 rounds of the kind ordinarily packaged fifty to the box, such as .25–20, .32–20, .22 Hornet, .38–40 and .44–40).
100 rounds of shotgun shells of any gauge.

(c) *Farmers and ranchers.* It is the intent of this order to let farmers and ranchers get this special quota of ammunition during the rest of 1944 but not to get more than that. If a farmer or rancher gets any of this special quota of ammunition, he may not get any more of his regular quarterly quotas of ammunition under Limitation Order 286 before January 1, 1945. If a farmer or a rancher gets any of his regular quarterly quotas of ammunition under Limitation Order 286 after August 29, 1944 and before January 1, 1945, he must charge it against this special quota and get only what is left of this special quota. He does not have to charge against this special quota any of his regular quarterly quotas of ammunition that he has actually received before August 29, 1944.

(d) *What does not have to be charged against this special quota.* A person does not have to charge against this special quota any ammunition that he gets or has gotten under specific authorization by the War Production Board on Form WPB–2682 or the old Form PD–360.

(e) *How this ammunition may be bought.* A person does not have to buy all of his special quota at one time. He may do so, but instead he may get parts of it from time to time before January 1, 1945, as long as he signs for it each time and, counting what he has already bought and what he is buying, never goes over his quota.

(f) *Certificate.* Before buying or accepting delivery of any ammunition under this supplementary order, a person must sign and deliver to the seller a certificate in substantially the form set out below (The standard certificate in Priorities Regulation 7 may be used instead provided the address of the purchaser is included). The seller shall be entitled to rely on it unless he knows or has reason to know it is false. The certificate records may be handled in either or both of these ways: the purchaser may sign and deliver to the seller a separate certificate with his purchase or the seller may simply write out the certificate one time at the top of a paper and have the purchasers sign one after the other below the certificate. In either case the purchaser must sign and give his address.

CERTIFICATE

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the U. S. Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order and to receive the item(s) ordered for the purpose for which ordered.

(g) *Applicability of regulations.* This supplementary order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time. Particular attention is called to the record-keeping requirements in Priorities Regulation 1.

(h) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L-23-c, as Amended August 29, 1944]

DOMESTIC COOKING APPLIANCES AND DOMESTIC HEATING STOVES

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of domestic cooking appliances and domestic heating stoves for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.66 *Limitation Order L-23-c*—(a) *Definitions.* For the purpose of this order:

(1) "Domestic cooking appliances" means the following non-electric appliances: Gas ranges, cook stoves and hot plates for household use; coal and wood ranges and cook stoves for household use; fuel oil ranges, cook stoves, table stoves and hot plates for household use; combination ranges (including dual oven types, ranges with built-in kitchen heaters, and bungalow types) for household use; camp and trailer stoves for cooking purposes; fuel oil conversion range burners; and drum and portable ovens.

(2) "Domestic heating stoves" means any device (except electric) for the direct heating of the space in and adjacent to that in which the device is located, designed for use without heat distribution pipes or ducts as integral parts of such heating devices, and includes but is not limited to circulating, radiant and portable heaters; trailer and caboose stoves; and laundry stoves (except water jacketed and permanently built-in coil types). Domestic heating stoves shall not include floor or wall furnaces.

(3) "Stove" means any domestic cooking appliance or domestic heating stove.

(4) "Accessories" means aprons, high closets, high shelves, clocks, lights, timers, broilers not using the oven burner, broiler pans other than iron, steel or aluminum, cover-alls and any other instruments, attachments, or appurtenances (except top-burner lighters, thermostats, thermometers, top work space and storage compartments) for domestic cooking appliances not essential to any of the following three major cooking operations: Top burner cooking, oven baking and oven broiling.

(5) "Steel coal or wood range or cook stove" means a coal or wood range or cook stove in which the total weight of steel is 20% or more of the total weight of metal in the unit.

(6) "Base period" means the twelve month period from July 1, 1940 to June 30, 1941.

(b) *General restrictions on production.* (1) [Deleted Aug. 29, 1944.]

(2) No person shall manufacture, fabricate or assemble any stove except to the extent authorized by the War Production Board on Form GA-1850. (Application for authorization should be made in accordance with paragraph (b) (3)). The War Production Board will authorize limited production quotas so that the aggregate production of each type of stove will not exceed the percentage of the base period production specified in Schedule A. Production will not be authorized in any plant where such production, or labor requirements therefor, will interfere with war production in that plant, or in any other plant located in the same area.

(3) A person wishing to make stoves under paragraph (b) (2), should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., reference L-23-c. This letter should state the proposed production in units of each model per quarter. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by an application on form CMP-4B for the controlled materials.

(c) *Special restrictions on production.* In addition to the restrictions contained in paragraph (b), all of the following special restrictions must also be complied with:

(1) [Deleted Aug. 29, 1944.]

(2) No person shall manufacture, fabricate or assemble any accessories or incorporate them into any stove except that those non-electric accessories, not including cover-alls, which were in his stock in a completely assembled and finished condition on June 7, 1944, may be used in the production of stoves.

(3) No thermostats for use with stoves shall be produced.

(4) [Deleted Aug. 29, 1944.]

(5) No person shall use any "bright work", "bright finish", metal finish or trim containing copper, nickel or chrome in the production of stoves.

(d) *Exceptions.* (1) The restrictions of this order do not apply to the production of repair and replacement parts. However, no person shall produce repair or replacement parts in excess of the quantity required to maintain a practicable minimum working inventory.

(2) [Deleted Aug. 29, 1944.]

(3) [Deleted Aug. 29, 1944.]

(e) *Reports.* Manufacturers of stoves shall report on or before the tenth day of each month on Form WPB-3249. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Applicability of regulations.* All persons and transactions affected by this order are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(g) *Applicability of other orders.* Insofar as any other orders heretofore or hereafter issued by the War Production Board limit the use of any material in the production of stoves to a greater extent than the restrictions imposed by this order, the restrictions of such other order shall govern, unless otherwise specified therein.

(h) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture, fabricate or assemble more stoves than he has been authorized to make on Form GA-1850 (including a person who has no authorization) may apply for permission to do so under Priorities Regulation 25. He may still, of course, apply for authorization under paragraph (b) (3) if he desires. Application may also be made under Priorities Regulation 25 by any person for permission to manufacture, fabricate or assemble any accessories or to produce thermostats for use with stoves. Accessories made under Priorities Regulation 25 authorization may be assembled or incorporated into stoves.

(2) *Appeals.* Any appeal from the provisions of this order, other than the restrictions of paragraphs (b) (2), (c) (2) or (c) (3), should be filed on Form WPB-1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeals should be filed from the restrictions of paragraphs (b) (2), (c) (2) or (c) (3).

(i) *Communications.* All communications concerning this order, except appeals, shall unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., reference L-23-c.

(j) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L-74, as Amended Aug. 29, 1944]

OIL BURNERS

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of oil burners for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.71 *General Limitation Order L-74*—(a) *Definitions.* For the purpose of this order:

(1) "Oil burner" means any device which is designed for burning fuel oil for furnishing heat. It includes, but is not limited to the following types:

(i) Mechanical, steam or air atomizer oil burner.

(ii) Vertical or horizontal rotary oil burner.

(iii) Mechanical vaporizing oil burner.

(iv) Pot type vaporizing oil burner.

It shall include any oil burner for any boiler burner unit or for any furnace burner unit, any oil burner used as part of any water heater and any combination oil and gas burner, but does not include any oil burner used as a part of any domestic cooking appliance or of any domestic heating stove as defined in L–23–c, or any oil burner used in connection with any locomotive scheduled under L–97, or any oil burner used as a part of any commercial cooking and food and plate warming equipment as defined in L–182.

(2) "Class A oil burner" means any oil burner which is designed by the producer or approved by the Underwriters Laboratory to burn No. 5, No. 6 or heavier fuel oil, or which regardless of what grade fuel oil it burns, is designed or manufactured specifically for shipboard use or for heat processing. An oil burner will be considered as designed or manufactured specifically for heat processing if it is produced for use in connection with devices intended for the application of heat for purposes other than for space heating or hot water supply systems. Heat processing will, therefore, include, but is not limited to rendering sea water drinkable, melting tar or asphalt for road or roof use, dehydrating milk, sterilizing, and the like.

(3) "Class B oil burner" means any oil burner which is designed by the producer or approved by the Underwriters Laboratory to burn No. 1 (except a Class C oil burner), No. 2, No. 3, or No. 4 fuel oil, but does not include any oil burner designed or manufactured specifically for shipboard use or for heat processing.

(4) "Class C oil burner" means any pot type vaporizing oil burner which is designed by the producer or approved by the Underwriters Laboratory to burn No. 1 fuel oil, but does not include any oil burner designed or manufactured specifically for shipboard use or for heat processing.

(5) "Fuel oil" means any liquid petroleum product commonly known as fuel oil, including Numbers 1, 2, 3, 4, 5, and 6, bunker C, diesel oil, kerosene, range oil, gas oil, or any other liquid petroleum product used for the same purposes as the above designated grades.

(6) "Replacement" means replacement of any oil burner by another oil burner.

(7) "New installation" includes an oil burner installed in a new heating plant or an oil burner installed as a conversion from any other fuel.

(8) "Producer" means any person who manufactures, fabricates or assembles oil burners.

(b) *Restrictions on producers of Class B oil burners.* No producer shall manufacture or assemble a Class B oil burner or deliver such a burner either assembled or in sets of parts except to fill an order already received, which has been approved on Form WPB–1319. He may produce or assemble such burners only to the extent necessary to fill orders on hand which he cannot fill from his inventory of completely assembled burners. Any person who wants to buy a Class B oil burner from a producer should file Form WPB–1319 in triplicate with the War Production Board, Plumbing and Heating Division, Washington 25, D. C.

(c) *Restrictions on delivery of Class B oil burners for installation; restrictions on installation.* No dealer or distributor may deliver a Class B oil burner for installation, either assembled or in sets of parts, and no person may install a Class B oil burner, except as follows:

(1) *Replacement.* A dealer may deliver any Class B oil burner from his stock for installation as a replacement, and the installation may be made, if the owner of the premises has applied for and obtained the approval of the appropriate War Production Board District office on Form WPB 1319. The dealer may deliver and the installation may be made without approval from any source, if the burner to be replaced is over ten years old, or has actually broken down and is beyond repair during the season in which it is in use. No installation may be made for replacement unless the installer arranges to have the old burner scrapped or dismantled, but this requirement does not mean that the installer is entitled to take the old burner without the owner's consent or without crediting him with its value.

(2) *New installations.* Any person may deliver a Class B burner from a dealer's inventory for a new installation if the Petroleum Administration for War has specifically approved in writing the delivery of fuel oil for a Class B oil burner on the premises in question.[1] The authorization of a local War Price and Rationing Board to accept delivery of fuel oil will not be sufficient.

(3) *Food processing installations.* Any person may deliver a Class B burner from a dealer's inventory for use in raising and preparing crops, poultry, livestock and other agricultural products for market.

(4) *Bureaus assembled in other products.* If the War Production Board has approved the delivery of a Class B oil burner on Form WPB–1319 for physical incorporation in or assembly with another product, such as a water heater, further authority under this order is not required for delivery of the assembled unit, but the restrictions of L–79 (prohibiting delivery except to fill a rated order) must be complied with.

(5) *Sales to dealers.* Any dealer or distributor may sell or deliver any Class B oil burner to another dealer or distributor for resale.

(6) *Oversea shipment.* Any dealer or distributor may deliver a Class B burner to fill a rated order for shipment to a foreign country or a territory or overseas possession of the United States.

(d) Restrictions on sale of Class A and Class C oil burners:

(1) Class A oil burners may be delivered only on orders bearing a preference rating of AA–5 or higher. (In case of a new installation in the continental United States, application for preference rating must be accompanied by copy of authorization from the Petroleum Administration for War, permitting the delivery of fuel oil.)

(2) Class C oil burners may be delivered without a preference rating. (However, authorization for delivery of fuel oil must be obtained from the Petroleum Administration for War in accordance with its order PDO–13.)

(e) *General exception.* Regardless of the terms of this order, any Class B oil burner (as defined by this order as in force prior to June 28, 1943) authorized under an appeal from L–74 as in force prior to June 28, 1943, may be manufactured, fabricated, assembled and delivered.

(f) *Exceptions and appeals.*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture or assemble more Class B oil burners than permitted under paragraph (b) may apply for permission to do so as explained in Priorities Regulation 25. However, any Class B oil burners manufactured pursuant to an authorization under that regulation are subject to all delivery restrictions in paragraphs (b) and (c).

(2) *Appeals.* Any appeals from the provisions of this order, other than the manufacturing restrictions of paragraph (b), shall be filed on Form WPB–1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the manufacturing restrictions of paragraph (b).

(g) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Ref: L–74.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(i) *Bureau of the Budget.* The Bureau of the Budget has approved the use of Form WPB–1319 and other reporting requirements of this order, in accordance with the Federal Reports Act of 1942.

Issued this 29th day of August 1944.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L–75, as Amended Aug. 29, 1944]

COAL STOKERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in the manufacture of coal stokers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.76 *General Limitation Order L–75*—(a) *Definitions.* For the purposes of this order,

(1) "Coal stoker" means any device designed and produced for the purpose of feeding coal as a fuel to a combustion chamber; including, but not limited to, any feed screw, ram, spreader, or moving grate. Coal stokers shall not include any device designed and produced for the purpose of feeding coal as a fuel to a locomotive.

(2) "Class A coal stoker" means any coal stoker which has a grate area of 36 square feet or less, and a coal feeding capacity in excess of 60 pounds per hour. For the purpose of this paragraph, side dump plates designed to burn coal shall be considered a part of the grate area.

(3) "Class B coal stoker" means any coal stoker which has a maximum coal feeding capacity not in excess of 60 pounds per hour.

(b) *Restrictions.* (1) No manufacturer, distributor, or dealer may deliver or accept delivery of a new Class A stoker except:

(i) To fill orders of or for ultimate delivery to the Army or Navy;

(ii) For approved installation in a building or project authorized by any order of the P–19 series on Form GA–1456 or in the P–55 series on Form WPB–2896.

(iii) To fill orders authorized on Form WPB–1319. Applications for such authorization must be filed with the appropriate War Production Board Field Office. (This application form may be used by dealers and distributors for inventory. The use of the form, for appropriate War Production Board field plus installation) is no more than $5,000, is required of any ultimate consumer not covered by (i) or (ii) and is permissible in lieu of application under (ii). If the total cost exceeds $5,000, application must be made under (i) or (ii).) Any order so authorized by the War Production Board shall be deemed a "rated order" for the purposes of section 944.2 of Priorities Regulation No. 1. Use of Form WPB–1319 has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) No person shall manufacture a Class B stoker.

(c) *Manufacture of replacement parts.* Nothing in this order shall be construed to prohibit or restrict the manufacture of replacement parts for any type of coal stoker.

(d) *Avoidance of excessive inventories.* No person shall accumulate inventories of any materials (whether raw, semi-processed or processed) for manufacture into coal stokers in excess of the minimum amount necessary to maintain production of coal stokers to the extent permitted by this order.

(e) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Exceptions and appeals.*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture any Class B stokers may apply for permission to do so as explained in Priorities Regulation 25.

(2) *Appeals.* Any appeal from the provisions of this order, other than the restriction of paragraph (b) (2), should be filed on Form WPB–1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the restriction of paragraph (b) (2).

(g) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(h) *Applicability of other orders.* Insofar as any other order heretofore or hereafter issued by the War Production Board, limits the use of any material to a greater extent than the limits imposed by this order, the restrictions of such other order shall govern, unless otherwise specified therein.

(i) *Routing of correspondence.* Reports to be filed and other communications concerning this order shall be addressed to the War Production Board, Plumbing and Heating Division, Washington, D. C., Ref: L–75.

Issued this 29th day of August 1944.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L–182, as Amended Aug. 29, 1944]

COMMERCIAL COOKING AND FOOD AND PLATE WARMING EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials used in the production of commercial cooking and food and plate warming equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.46 *General Limitation Order L–182*—(a) *Definitions.* For the purposes of this order:

(1) "Commercial cooking and food and plate warming equipment" means new equipment (except equipment specially designed to use electricity as the heating agent) designed for the heating of kitchen utensils or plates, or for the cooking or baking of food for consumption or sale on the premises in which the equipment is located. It does not include cooking appliances for household use. It does include, but is not limited to, such items as the following:

Bakers.
Broilers.
Fryers.
Griddles.
Grills.
Hot plates.
Ovens (except built-in types).
Ranges.
Roasters.
Steamers.
Toasters.
Urns.
Warmers.

It also includes new steam-jacketed kettles, regardless of any use to which they may be put, which are designed to use steam at working pressures of less than 90 pounds per square inch, except enamel and glass lined kettles specifically designed for use by the chemical and pharmaceutical industry for the rendering of oils and fats.

(2) "Ultimate consumer" means any person who uses commercial cooking and food and plate warming equipment for the heating of kitchen utensils or plates, or for the cooking or baking of food for consumption or sale.

(b) *Restrictions on production.* (1) No person shall produce any commercial cooking and food and plate warming equipment listed on Schedule I to this order. No person shall produce any other commercial cooking and food and plate warming equipment except:

(i) For delivery to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration; or

(ii) As authorized by the War Production Board on Form GA–1850.

(2) The restrictions of paragraph (b) (1) do not apply to the production of repair and replacement parts, including

repair and replacement parts for equipment listed on Schedule I. However, no person shall produce repair or replacement parts in excess of the quantity required to maintain a minimum practicable working inventory.

(3) A person wishing to produce commercial cooking and food and plate warming equipment which will not be delivered to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration, should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Reference L-182. This letter should give all pertinent information with respect to proposed production. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by application on Form CMP-4B for the controlled materials.

(4) Production will be authorized so that the total production will not exceed the approved War Production Board program and so that the production in any one plant, or labor requirements therefor, will not interfere with war production in that plant, or in any other plant located in the same area. This program calls in each calendar quarter for production by the industry as a whole of not more than 18% of the aggregate production of the industry in the year 1941, in addition to production of repair and replacement parts and of equipment to be delivered to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration. Individual authorizations will be issued in amounts sufficient to carry out this program.

(c) *Restrictions on delivery.* No manufacturer, distributor or dealer may deliver or accept delivery of new commercial cooking and food and plate warming equipment except as follows:

(1) To fill orders of or for ultimate delivery to the Army,[1] Navy, Maritime Commission or War Shipping Administration, or to any agency of the United States Government placing orders for equipment to be delivered to or for the account of any other country under the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or to fill ship chandlers' or marine distributors' orders authorized by the Maritime Commission on Form WPB-646 and to fill orders for equipment obtained by ship chandlers or marine distributors by the use of Form WPB-646 for delivery only to persons as authorized by that form.

(2) For approved installation in a building or project authorized by any order of the P-19 series on Form CMPL-224 or Form GA-1456, or in the P-55 series on Form WPB-2896.

(3) As appproved by the War Production Board on Form WPB-1319. The ultimate consumer should apply to the Plumbing and Heating Division, War Production Board, Washington 25, D. C. on this form, describing the equipment to be delivered. The War Production Board will return a copy to him with its approval or denial of the application indicated. If approval is granted, the ultimate consumer may certify by endorsement on his purchase order in the standard form prescribed in Priorities Regulation 7, adding the serial number of authorization on Form WPB-1319 he has received, or, if he prefers, he may certify as follows:

> The War Production Board has authorized me to accept delivery on this order, under the terms of Order L-182 (and L-248) with which I am familiar. Delivery approved on Form WPB-1319, serial number .....
>
> .....
> (Consumer)

A dealer or distributor receiving an order so certified may obtain delivery of material to fill the order if he endorses a similar certificate on his purchase order. Any person may deliver in reliance on such a certificate unless he knows or has reason to believe it to be false. A dealer or distributor who wants to buy for inventory must also apply on Form WPB-1319, filed with the Plumbing and Heating Division, War Production Board, Washington 25, D. C., indicating the manufacturer of the product he wishes to buy. If his application is approved, the procedure to be followed is the same as set forth above with respect to consumers' applications, except that he may buy only the product of the manufacturer indicated. Applications for material under this order and Order L-248 may be made on a single Form WPB-1319.

(4) Delivery of repair parts may be made as limited in Order L-79.

(d) *Exceptions.* The restrictions of paragraph (c) do not apply to griddles, hot plates, grills and coffee urns (1 to 3 gallon), provided the net weight of each does not exceed 50 lbs., nor do they apply to coffee makers of any weight. Also, the restrictions of this paragraph do not apply to deliveries by an ultimate consumer to a dealer, or by a dealer to another dealer or manufacturer.

(e) *Reports.* Every manufacturer of any commercial cooking and food and plate warming equipment who has an inventory of such equipment, either new or used, shall execute and file with the War Production Board on or before the 10th day of each calendar quarter a report on Form WPB-1509 (formerly PD-638), which may be obtained from the nearest field office of the War Production Board. Reports under this order and Order L-248 may be made on a single Form WPB-1509. The Bureau of the Budget has approved the reporting requirements of this order in accordance with the Federal Reports Act of 1942.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(g) *Exceptions and appeals.*—(1) *Production under Priorities Regulation 25.* Any person who wants to produce any commercial cooking and food and plate warming equipment listed on Schedule I, and any person who wants to produce more commercial cooking and food and plate warming equipment not so listed than he has been authorized to produce on Form GA-1850 (including a person who has no authorization), may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for authorization under paragraph (b) (3) if he desires.

(2) *Appeals.* Any appeal from the provisions of this order, other than the restrictions of paragraph (b) (1), should be filed on Form WPB-1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the restrictions of paragraph (b) (1).

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L-185, as Amended Aug. 29, 1944]

WATER HEATERS

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of water heaters for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.51 *General Limitation Order L-185.*—(a) *Definitions.* (1) "Direct fired water heater" means any device for the direct transference of heat produced by electricity or by the combustion of coal, wood, fuel oil or gas, or derived from solar rays, to the water of a hot water supply system. The term includes, but is not limited to, coils, side-arm water heaters, bucket-a-day stoves, laundry stoves (with cored water sections), dome type water heaters, steel hot water supply heaters, or service water tank heaters having not more than two cored water sections, automatic storage water heaters, instantaneous or continuous flow water heaters, underfired storage water heaters, electric water heaters, and solar water heaters. The term does not include any low pressure cast iron or steel boiler designed for the purpose of heating water to provide heat for the interior of a building by means of circulating steam or hot water.

(2) "Indirect water heater" means any device to which steam or hot water is piped for the transference of the heat of such steam or hot water to the water of a hot water supply system, or the water of a hot water space heating system. The term includes, but is not limited to, coils, side arm water heaters, submerged type water heaters or any indirect water heater (including tanks) commonly referred to as a storage water heater consisting of a heating element installed in a hot water storage tank for the purpose of heating and storing hot water for any use, and any indirect water heater consisting of a coil or a nest of tubes installed in a shell or pressure vessel having a diameter 12" or less (if other than circular in cross section and internal cross sectional area 113 sq. in. or less) and designed for the purpose of supplying hot water to a hot water supply system or a hot water space heating system. The term does not include any storage tank, the manufacture of which is governed by Limitation Order L-199, even though used in conjunction with any indirect water heater. It is not intended by the foregoing definition to include any product which is controlled by Limitation Order L-123.

(3) "Hot water supply system" means any system of supplying hot water used in whole or in part for bathing, washing, cleaning, cooking or other similar purposes. The term does not include any system for supplying hot water for specialized industrial or agricultural purposes.

(4) "Hot water space heating system" means any system which is designed for the purpose of heating the interior of a building or other structure (including ships) by utilizing the heat of hot water.

(5) "Metal jacket" means any metal covering, lining, or portion thereof (but not any metal band two inches or less in width used to support a jacket which holds dry insulation) for any direct fired or indirect water heater, except any metal covering, lining, or portion thereof which conducts flue gases, water, or steam through and to the outside of a direct fired or indirect water heater, and except any ferrous metal wire netting used as a base for the wet application of insulating material.

(6) "Copper base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(b) *Use of copper, stainless steel, and monel metal in manufacture.* No person shall use in the manufacture, fabrication, or assembly of any direct fired or indirect water heater, any copper, copper base alloy, stainless steel, or monel metal except:

(1) For repair parts not including tanks;

(2) For temperature, pressure, vacuum or electrical controls, safety devices or valves;

(3) For tank spuds or tappings;

(4) For coils and tubular units built with copper tubing of 1½" outside diameter or less, in indirect water heaters only. However, the shells, steam heads, tube plates and other cast parts of indirect water heaters shall be of ferrous metal, or non-metallic materials except that terminal outlets and spacer plates may be of a copper base alloy in which no primary tin or copper is used, and the alloy shall be of no higher grade than alloy 5A of the A. S. T. M. specification B-145-42-T.

The exceptions to the restrictions in the use of copper, stainless steel, or monel metal contained in paragraphs (b) (2) and (b) (4) do not apply to the production of indirect water heaters designed for hot water space heating systems.

(5) For coils and terminal outlets for direct fired side-arm water heaters, except that any copper base alloy used in the production of terminal outlets may contain no primary tin or copper, and the alloy shall be of no higher grade than alloy 5A of the A. S. T. M. Specification B-145-42-T.

(6) For current carrying parts and heating elements for electric water heaters.

(c) *Use of copper, stainless steel, and monel metal in the installation of repair and replacement parts.* (1) No person shall in any repair or replacement use or install parts containing in the aggregate more than two pounds of copper or copper base alloy, stainless steel, or monel metal, if the weight of the copper, copper base alloy, stainless steel, or monel metal so used or installed exceeds by more than one pound the weight of copper, copper base alloy, stainless steel, or monel metal replaced. The restrictions in this subparagraph do not apply to the replacement of ferrous heating elements for direct or indirect water heaters.

(2) All copper and copper base alloy replaced in any repair shall be delivered by the person making the repair to a scrap dealer or other person specified under Copper Order M-9.

(d) [Deleted Aug. 29, 1944.]

(e) *Restrictions on production.*—(1) *Water heaters except electric.* No person shall manufacture or assemble more units of direct fired (other than electric) or indirect water heaters than his quota, which for each calendar year, shall be determined by the percentage indicated on Schedule A of his 1941 unit production of the same classification of water heaters. However, regardless of the number of water heaters he may have produced before July 1, 1944, his quota for the period from that date through December 31, 1944, shall be ½ the quota for each calendar year. If additional production is necessary to fulfill the approved War Production Board program, any person may request authorization to exceed his quota by addressing a letter to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., stating his proposed additional production in units per quarter, and the War Production Board may authorize additional production on Form GA-1850. Where the applicant will need controlled materials in order to produce the additional equipment, the letter requesting authorization should be accompanied by an application on Form CMP-4B for the controlled materials.

(2) *Electric water heaters.* (i) No person shall manufacture or assemble any electric water heaters except to the extent authorized by the War Production Board on Form GA-1850. The War Production Board will authorize limited production so that the aggregate production of electric water heaters for each calendar year will not exceed 37 per cent of the aggregate production of the industry from July 1, 1940 through June 30, 1941, except that for the period from July 1, 1944, through December 31, 1944, the aggregate production shall not exceed 18½ per cent. Production will not be authorized in any plant where such production or labor requirement therefor will interfere with war production in that plant or in any other plant located in the same area.

(ii) A person wishing to make electric water heaters (other than those excepted by paragraph (f)), should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., reference L-185. This letter should state the proposed production in units per quarter. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by an application on Form CMP-4B for the controlled materials.

(iii) No person may manufacture or assemble electric water heaters in more than three sizes (based on water storage

capacity) nor in more than one model in each size, but a change in the number or design of heating elements shall not constitute a change in size or model. Each person shall report in a letter the size and model designation of the electric water heaters he intends to produce. Each person shall thereafter produce only those sizes and models so reported unless written authorization is received from the War Production Board to produce any other models or sizes. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Exceptions to manufacturing restrictions.* The restrictions of this order do not apply to the production of water heaters or parts required by the Army, Navy, Maritime Commission, or War Shipping Administration, or by rules and regulations promulgated by the Coast Guard for merchant vessels, for use in ships, boats, planes, laundries, kitchens, hospitals, bakeries, or advance bases, or to fill orders authorized by the Maritime Commission on Form WPB-646. Water heaters produced under this paragraph (f) shall not be charged against the production quotas set forth in paragraphs (e) (1) and (e) (2).

(g) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture or assemble more direct fired or indirect water heaters than the quota fixed for him or the amount he has been authorized to make on Form GA-1850 (including a person who has no such quota or authorization), may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for authorization under paragraphs (e) (1) and (e) (2) (ii).

(2) *Appeals.* Any appeal from the provisions of this order, other than the restrictions of paragraphs (e) (1) and (e) (2) (i), shall be filed on Form WPB-1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the restrictions of paragraphs (e) (1) or (e) (2) (i).

(h) *Communications.* All communications concerning this order, unless otherwise directed should be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Reference L-185.

(i) *Reports.* Manufacturers of water heaters shall report on or before the tenth day of each month on Form WPB-3717, following the instructions on the form. This reporting requirement has been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

PART 3288[1]—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L-187 as Amended Aug. 29, 1944]

CAST IRON BOILERS

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of cast iron boilers for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.56[1] *General Limitation Order No. L-187*—(a) *Definition.* For the purposes of this order: "Cast iron boiler" means any pressure vessel designed to absorb heat generated by the burning of a fuel through cast iron heating surfaces in order to provide heat for the interior of structures, for processing, or for domestic hot water supply. It does not mean a small heater known in the industry as a dome top, a flat top, or a bucket-a-day hot water supply boiler or laundry stove, or any heating device commonly known as a gas steam radiator.

(b) *Restrictions on production.* No person shall in the first three months of 1944, and in each following three months period, manufacture more low pressure cast iron boilers than 25% of the low pressure cast iron boilers he manufactured in the whole year 1940, except that any person may exceed this quota if he applies to the War Production Board by letter for permission and permission is granted. These quota limitations do not apply to the manufacture of repair parts for boilers. The War Production Board will not authorize for production by all manufacturers more low-pressure cast iron boilers than were produced in 1940.

(c) *Reports.* Manufacturers of low pressure cast iron boilers shall report on or before the tenth of each month on Form WPB-1510. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(d) *Communications.* All reports to be filed and other communications concerning this order, except appeals, shall be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Ref.: L-187.

(e) *Violations and false statements.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(g) *Production under Priorities Regulation 25.* Any person who wants to make more cast iron boilers than the quota fixed in paragraph (b) (including a person who has no quota under this order) may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply under paragraph (b) for special permission to exceed his quota. No appeals should be filed under this order.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L-199 as Amended Aug. 29, 1944]

PLUMBING AND HEATING TANKS

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of plumbing and heating tanks for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.6 *General Limitation Order L-199*—(a) *Definitions.* For the purpose of this order:

(1) "Tank" means any metal expansion tank, metal hot water storage tank

and metal range boiler, if the tank or range boiler is used in hot water supply systems or in hot water space heating systems. The term does not include any tank used as an integral part of a direct fired water heater or indirect water heater, the manufacture of which is covered by Limitation Order L–185.

(2) "Hot water supply system" means any system for supplying hot water used in whole or in part for bathing, washing, cleaning, cooking or other similar purposes. The term does not include any system for supplying hot water for specialized industrial or agricultural purposes.

(3) "Hot water space heating system" means any system which is designed for the purposes of heating the interior of a building or other structure (including ships) by utilizing the heat of hot water.

(4) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(5) "Base period" means the calendar year 1941.

(b) *Use of copper, stainless steel, and monel metal in manufacture.* No person shall use in the manufacture, fabrication or assembly of any tank, any copper, copper base alloy, stainless steel, or monel metal except:

(1) For repair parts;

(2) For temperature, pressure, and vacuum safety valves;

(3) For tank spuds or tappings.

(c) *Restrictions on sizes and design of tanks.* No person may fabricate, manufacture, or assemble black iron, galvanized iron, or porcelain enameled range boilers or black iron or galvanized iron expansion tanks, except in accordance with the specifications in Schedules A, B and C.

(d) *Use of non-ferrous tanks for replacement.* No person may deliver or install copper, copper base alloy or monel metal tanks in existing inventories except to replace a non-ferrous tank of similar capacity or larger.

(e) *Restrictions on production.* No person shall manufacture or assemble more tanks than his quota, which, for each calendar year, shall be determined by the percentage indicated below of his base period unit production of the same classification of tanks. However, regardless of the number of tanks he may have produced before June 2, 1944, the quota for the period from that date through December 31, 1944 shall be 7/12 the quota for each calendar year:

	Percent
Range boilers and expansion tanks	70
Storage tanks	75

Any person may request authorization to exceed his quota by addressing a letter to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., stating his proposed additional production in units per quarter, and the War Production Board may authorize additional production on Form GA–1850, if additional production is necessary to fulfill the approved War Production Program. Where the applicant will need controlled materials in order to produce the additional equipment, the letter requesting authorization should be accompanied by an application on Form CMP–4B for the controlled materials.

(f) *General exceptions.* The restrictions of paragraphs (b) and (c) do not apply to the production of articles or parts not available in the producer's inventory for use in ships, boats, planes or advance bases when required by the Army, Navy, Maritime Commission, War Shipping Administration, or Coast Guard, or by rules and regulations promulgated by the Coast Guard for merchant vessels.

(g) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture or assemble more tanks than the quota fixed in paragraph (e) (including a person who has no quota under this order) may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for authorization under paragraph (e).

(2) *Appeals.* Any appeal from the provisions of this order, other than the restrictions of paragraph (e), should be filed on Form WPB–1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the restrictions of paragraph (e).

(h) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Reference L–199.

(i) *Reports.* Each producer shall execute and file with the War Production Board such reports as the War Production Board may specify from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L–248 as Amended Aug. 29, 1944]

COMMERCIAL DISHWASHERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in the manufacture of commercial dishwashers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.61 *General Limitation Order L–248*—(a) *Definitions.* For the purposes of this order:

(1) "Commercial dishwasher" means any new mechanical device designed for washing dishes, cutlery, glassware or kitchen utensils in establishments where

food is prepared for consumption or sale on the premises. The term does not include dishwashers designed for domestic use.

(2) "Ultimate consumer" means any person who uses a commercial dishwasher for washing dishes, cutlery, glassware and kitchen utensils.

(3) [Deleted June 7, 1944]

(4) [Deleted June 7, 1944]

(5) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy. It shall include alloy metal produced from scrap.

(b) *Restrictions on production.* (1) No person shall produce any commercial dishwashing equipment except:

(i) For delivery to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration; or

(ii) As authorized by the War Production Board on Form GA–1850.

(2) The restrictions of paragraph (b) (1) do not apply to the production of repair and replacement parts. However, no person shall produce repair or replacement parts in excess of the quantity required to maintain a minimum practicable working inventory.

(3) A person wishing to produce commercial dishwashing equipment which will not be delivered to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration, should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Ref: L–248. This letter should give all pertinent information with respect to proposed production. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by application on Form CMP–4B for the controlled materials.

(4) Production will be authorized so that the total production will not exceed the approved War Production Board program and so that the production in any one plant, or labor requirements therefor, will not interfere with war production in that plant, or in any other plant located in the same area. This program calls in each calendar quarter for production by the industry as a whole of not more than 23% of the aggregate production of the industry in the year 1941, in addition to production of repair and replacement parts and of equipment to be delivered to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration. Individual authorizations will be issued in amounts sufficient to carry out this program.

(c) *Restrictions on delivery.* No manufacturer, distributor, or dealer may deliver or accept delivery of new commercial dishwashers except as follows:

(1) To fill orders of or for ultimate delivery to the Army,[1] Navy, Maritime Commission or War Shipping Administration, or to any agency of the United States Government placing orders for equipment to be delivered to, or for the account of, any other country under the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), or to fill orders authorized by the Maritime Commission on Form WPB–646.

(2) For approved installation in a building or project authorized by any order of the P–19 series on Form CMPL–224 or Form GA–1456, or in the P–55 series on Form WPB–2896.

(3) As approved by the War Production Board on Form WPB–1319. The ultimate consumer should apply to the Plumbing and Heating Division, War Production Board, Washington 25, D. C., on this form, describing the equipment to be delivered. The War Production Board will return a copy to him with its approval or denial of the application indicated. If approval is granted, the ultimate consumer may certify by endorsement on his purchase order in the standard form prescribed in Priorities Regulation 7, adding the serial number of authorization on Form WPB–1319 he has received, or, if he prefers, he may certify as follows:

The War Production Board has authorized me to accept delivery on this order, under the terms of Order L–248 (and L–182) with which I am familiar. Delivery approved on Form WPB–1319, serial number ----------

---

(Consumer)

A dealer or distributor receiving an order so certified may obtain delivery of equipment to fill the order if he endorses a similar certificate unless he knows or has reason to believe it to be false. A dealer or distributor who wants to buy for inventory must also apply on Form WPB–1319, filed with the Plumbing and Heating Division, War Production Board, Washington 25, D. C., indicating the manufacturer of the product he wishes to buy. If his application is approved, the procedure to be followed is the same as set forth above with respect to consumers' applications except that he may buy only the product of the manufacturer indicated. Applications for equipment under this order and Order L–182 may be made on a single Form WPB–1319.

(4) Delivery of repair parts may be made as limited in Order L–79.

(5) A dealer or distributor may make delivery to another dealer or distributor or to a manufacturer.

(d) *Delivery of repair and replacement parts.* Nothing in this order shall prevent the delivery of repair or replacement parts for commercial dishwashers.

(e) *Simplified practices.* No person shall manufacture, fabricate or assemble any commercial dishwasher designed for washing cutlery, glassware or kitchen utensils exclusively. No person shall manufacture, fabricate or assemble any other type of commercial dishwasher except in accordance with the specifications and practices given below in this paragraph. However, this paragraph does not revoke or modify the terms of any appeal granted under this order.

(1)

Minimum capacity (dishes per hour)	Maximum content exclusive of motor, switches and wiring (pounds)		Maximum motor size (h. p.)
	Iron and steel	Copper base alloy	
1,500	600	18	¾
3,500	900	22	2
5,000	1,150	35	3

(2) Body (hood and tanks) shall be manufactured of not heavier than 14 gauge black iron or 14 gauge galvanized iron.

(3) No thermostatic controls shall be used.

(4) Spray pipes, feed pipes, and other piping shall be galvanized iron.

(5) To the extent that copper base alloy castings are permitted by this order, the alloy shall be of a type and grade in the production of which the use of refined copper or refined tin is not necessary.

(6) No metal other than iron, steel, aluminum, magnesium or copper base alloy shall be used, except zinc for coating or spraying, and metal necessary for assembling or installing.

(f) *Exceptions from simplified practices.* None of the restrictions in paragraph (e) shall apply to commercial dishwashers manufactured to specifications of the Army, Navy, Maritime Commission or War Shipping Administration of the United States for use on ships.

(g) *Reports.* Every manufacturer of any commercial dishwashers who has an inventory of such equipment, either new or used, shall execute and file with the War Production Board on or before the 10th day of each calendar quarter a report on Form WPB–1509 (formerly PD–638), which may be obtained from the nearest field office of the War Production Board. Reports under this order and Order L–182 may be made on a single Form WPB–1509. The Bureau of the Budget has approved the reporting requirements of this order in accordance with the Federal Reports Act of 1942.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of all the regulations of the War Production Board, as amended from time to time.

(i) *Applicability of other orders.* Insofar as any other order issued, or to be issued hereafter, limits the production or delivery of commercial dishwashers to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Exceptions and appeals*—(1) *Production under Priorities Regulation 25.* Any person who wants to manufacture, fabricate or assemble any commercial dishwashers designed for washing cutlery, glassware or kitchen utensils only, and any person who wants to produce more commercial dishwashers than he has been authorized to make on Form GA–1850 (including a person who has no authorization) may apply for permission to do so as explained in Priorities Regulation 25. He may still, of course, apply for authorization under paragraph (b) (3) if he desires.

(2) *Appeals.* Any appeal from the provisions of this order, other than the quota restrictions of paragraph (b) or the prohibition of paragraph (e) against the manufacture of dishwashers designed for washing cutlery, glassware or kitchen utensils exclusively, should be filed on Form WPB–1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates. No appeal should be filed from the quota restrictions of paragraph (b) or the prohibition of paragraph (e) against the manufacture, fabrication or assembly of commercial dishwashers designed for washing cutlery, glassware or kitchen utensils exclusively.

(k) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Plumbing and Heating Division, Washington (25), D. C., Ref: L–248.

[Utilities Order U–7, as Amended Aug. 29, 1944]

NATURAL GAS

Whereas, increased gas requirements for war production and civilian uses, coupled with scarcity of materials for the construction of pipelines and other facilities, have resulted in shortages of nat-

[1] Under Interpretation 1 to the preceding version of this order, material for Army Pre-Flight training schools, to be owned privately and not by the Army, could not be delivered without War Production Board approval. This is still true.

ural gas in certain areas of the United States and are threatened in others; during periods of adverse weather conditions the demand for natural gas in almost all areas increases beyond the capacity of existing facilities to meet such demands; and the following order is deemed necessary to conserve existing reserves of natural gas and to safeguard deliveries to war industries and essential civilian services, and in other respects is necessary and appropriate in the public interest and to promote the war effort:

§ 4500.10 *Utilities Order U–7*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Natural gas" means any combustible natural gas or gases and fuel gas derivatives of natural gases, fuel gas derivatives of petroleum produced as by-products in the production, refining or processing of petroleum, or mixtures of any of the aforesaid gases with blue gas, carburetted water gas, coke oven gas, producer gas, blast furnace gas, oil gas, or any other manufactured gas; but does not include liquefied petroleum gas in the liquid phase.

(3) "Utility" means any person supplying natural gas for general use by the public.

(4) "Non-utility supplier" means any person supplying or capable of supplying natural gas or who owns or operates natural or manufactured gas production, transmission, or distribution facilities and who is not included in the definition of "utility" in paragraph (a) (3): *Provided*, That no person engaged in the production, refining or processing of petroleum or natural gas shall be considered a non-utility supplier, except as to the use or disposition of natural gas as a combustible fuel gas after completion of such production, refining or processing.

(5) "Consumer" means any ultimate user of gas produced, transmitted or distributed by any "utility" or "non-utility supplier", including any utility or non-utility supplier which is itself an ultimate user of gas.

(6) "Stand-by facilities" means equipment capable of utilizing electrical energy, oil, coal or any other fuel or energy to replace natural gas and for the operation of which a supply of such fuel or energy is obtainable or could have been obtained in the exercise of reasonable diligence.

(7) "Premises" means any building or structure and its adjuncts: *Provided*, That in the case of "consumer" who receive deliveries of gas for the operation of equipment not contained within a building, any delivery point and the confines of the area supplied with natural gas from such delivery point shall be deemed a "premises".

(8) "Residential consumer" means any "consumer" receiving natural gas for the operation of space heating, hot water heating, cooking or refrigeration equipment used for residential purposes, where the total input capacity of the space heating equipment does not exceed 250,000 B. T. U. per hour.

(9) "Non-residential consumer" means any "consumer" other than a residential consumer as defined in (a) (8).

(b) *Integration of gas system operations.* (1) Each utility or non-utility supplier shall, as far as practicable, so operate and maintain its transmission, storage, distribution and gas manufacturing facilities as to achieve maximum deliverability of natural gas in any area or areas in which a shortage exists or is imminent and to conserve existing gas reserves; and no utility or non-utility supplier shall abandon any such facilities except upon specific authorization of the War Production Board. Where necessary for such purposes, the War Production Board may, from time to time, issue specific directions as to the operation of gas manufacturing, transmission, storage and distribution facilities.

(2) Each utility or non-utility supplier shall maintain in operating condition all gas manufacturing facilities owned or operated by such utility or non-utility supplier which were in operating condition on November 12, 1942. Each utility or non-utility supplier shall repair and maintain in operating condition such other facilities including gas manufacturing facilities owned or operated by such utility or non-utility supplier as the War Production Board may, from time to time, direct. Wherever repair and maintenance of gas facilities requires the use of materials in excess of those available under any order issued by the War Production Board, application for authority to use or acquire such materials should be made to the War Production Board in accordance with established procedures.

(3) The War Production Board may, from time to time, issue specific directions respecting the delivery of natural gas from one utility or non-utility supplier to another or to any consumer, and respecting the interconnection of any facilities; and no utility or non-utility supplier shall deliver or accept or fail to deliver or accept deliveries of gas or fail to interconnect facilities in violation of any such direction. Subject to such directions and to the provisions of paragraph (b) (5), each utility or non-utility supplier shall so interchange natural gas with its interconnected utilities or non-utility suppliers as to achieve, directly or indirectly, the maximum deliverability in any area or areas in which a shortage exists or is imminent.

(4) Upon specific direction of the War Production Board, utilities or non-utility suppliers shall curtail gas deliveries to specified classes of consumers on their systems if necessary in order to make available gas for delivery to utilities or non-utility suppliers on whose systems there exists a shortage which adversely affects or threatens service to war producers or other essential consumers. Any utility or non-utility supplier may request the War Production Board to direct another utility or non-utility supplier to deliver gas to it, on the ground that such delivery will safeguard service to war producers or essential consumers, or will otherwise be in the interest of the war effort.

(5) No utility shall deliver natural gas to any other utility or non-utility supplier not theretofore regularly supplied by such utility (except emergency deliveries to relieve a shortage resulting from the failure or breakdown of gas production, transmission or distribution facilities), without specific approval of the War Production Board. Any utility making such emergency deliveries shall report directly to the War Production Board, Office of War Utilities, Natural Gas Division, Ref.: U–7, the nature of the emergency and the amount and duration of such deliveries.

(6) Each non-utility supplier in any area served by any utility with which such non-utility supplier is interconnected or is capable of being interconnected, shall upon notice from the War Production Board so order its operations as to make available to such utility, or to any essential war producer or other consumer, all natural or manufactured gas which it is capable of producing or supplying in excess of the minimum requirements of its own essential operations. Any non-utility supplier which on October 1, 1943 was supplying natural gas to a utility in an area in which a shortage exists or is imminent shall not discontinue deliveries to such utility without the approval of the War Production Board, unless it is no longer capable of making such deliveries, or pursuant to the provisions of paragraph (c) (1).

(c) *Operations during gas shortages.* (1) In the event of an existing or imminent gas shortage in any area, each utility or non-utility supplier supplying such area shall conduct its operations and reduce deliveries to non-residential consumers in accordance with the following schedule, subject to such further or special directions as the War Production Board may from time to time issue: *Provided*, That to the extent, if any, required by the emergency nature of the shortage such utility or non-utility supplier may, in the first instance, reduce deliveries without regard to such schedule, but shall, as soon as possible thereafter, readjust its operations and deliveries to conform in all respects to such schedule during the continuance of the gas shortage period. The utility or non-utility supplier shall:

(i) First, within the limit of contractual rights, reduce deliveries to all consumers purchasing natural gas under contracts permitting the supplier to interrupt deliveries: *Provided*, That deliveries of gas to exempted consumers, as defined in paragraph (c) (6), shall be reduced only to the extent that the fuel requirements of such consumers can be supplied from the consumers' stand-by facilities: *And provided*, That deliveries shall be maintained to any consumer to the minimum extent necessary to prevent permanent damage to production and service facilities, except that such deliveries shall be interrupted under paragraph (c) (1) (v) below.

(ii) Second, if such action has not previously been taken, operate utility's or

non-utility supplier's stand-by gas manufacturing facilities up to their maximum operating capacity: *Provided*, That any utility may request the War Production Board to direct the operation of specific consumer stand-by facilities (in addition to those provided above) prior to the operation of such utility's stand-by manufacturing facilities, upon the ground that such action would relieve the gas shortage more expeditiously, or with less use of critical fuels, or would otherwise be in the interest of the war effort.

(iii) Third, reduce deliveries without regard to the supplier's contractual rights or those of any consumer to all remaining consumers having stand-by facilities, to the extent of the capacity of stand-by facilities.

(iv) Fourth, if such action has not previously been taken, notify all domestic and other consumers by radio, newspaper, or any other available means of general communication, that a temporary gas emergency in the area exists or is imminent and appeal for the immediate institution of voluntary curtailment by all gas consumers, to be maintained until notification that the emergency has passed.

(v) Fifth, interrupt deliveries within the limits of contractual rights to any consumers purchasing gas under contracts permitting the supplier to interrupt deliveries, who have not been fully curtailed under previous steps: *Provided*, That deliveries of gas to exempted consumers shall be reduced only to the extent that the full requirements of such consumers can be supplied from the consumers' stand-by facilities.

(vi) Sixth, reduce deliveries to all consumers not fully curtailed under previous steps, without regard to the supplier's contractual rights or those of any consumer or the non-existence of stand-by facilities: *Provided*, That deliveries of gas to exempted consumers shall be reduced only to the extent that the full requirements of such consumers can be supplied from the consumers' stand-by facilities.

(vii) Seventh, reduce deliveries to exempted consumers on a uniform proportionate basis so far as practicable pending receipt of special directions from the War Production Board.

(2) A "gas shortage" shall be deemed to exist whenever (i) a utility or non-utility supplier finds it necessary to reduce deliveries to its consumers, or (ii) the utility or non-utility supplier is able to maintain full deliveries to all consumers only by excessive withdrawals from storage or reserves which impair its ability to meet its forthcoming peak-day requirements to the usual extent, or (iii) the War Production Board notifies a utility or non-utility supplier that it considers a shortage to exist on such system.

(3) Deliveries to residential consumers during gas shortages shall be made pursuant to such directions as the War Production Board may from time to time issue: *Provided*, That any utility may at any time submit to the War Production Board a practicable program for the curtailment of its domestic consumers during such gas shortages and request that it be declared operative by the War Production Board among consumers of such utility.

(4) Except as set forth in the proviso of the first paragraph of paragraph (c) (1), or pursuant to special directions of the War Production Board, deliveries to any consumer in the respective groups defined above in paragraphs (c) (1) (i) to (c) (1) (vii) inclusive, shall not be reduced until deliveries to all consumers in prior groups have been fully suspended in accordance with the specific provisions of such paragraph: *Provided*, That deliveries to consumers in any group who consume less than 3000 mcf of gas per month need not be suspended before commencing curtailment of successive groups where such consumers are scattered or for other reasons not susceptible of speedy curtailment. Reductions to consumers defined in paragraph (c) (1) (i) shall be on such basis as will relieve the shortage most expeditiously; reduction to consumers within all groups defined in paragraph (c) (1) (iii) to (c) (1) (vii) inclusive shall so far as practicable be made on a uniform proportionate basis: *Provided*, That any utility or non-utility supplier may request the War Production Board to approve a specific program for such interruptions within any class of consumers, on a geographic or other basis which will relieve gas shortages more expeditiously.

(5) Each utility or non-utility supplier shall classify each of its non-residential consumers subject to probable curtailment within the applicable grouping set forth in paragraphs (c) (1) (i) to (c) (1) (vi), inclusive. Certain utility or non-utility suppliers will be required by the War Production Board to submit such a classification of non-residential consumers using 3000 MCF or more per month on Form WPB–619, together with the other data relative to operations during shortages required by such form. Only the War Production Board can classify consumers as 'exempted consumers'. Unless modified or revised by direction of the War Production Board, such consumer classification lists submitted on Form WPB–619 shall determine the grouping of each consumer in the application of the curtailment schedule set forth in paragraph (c) (1). At the direction of the war Production Board specific consumers or classes of consumers may at any time be classified in any of the groups defined in paragraphs (c) (1) (i) to (c) (1) (vii), inclusive, or in any special group, without regard to size, nature, or terms of delivery, whenever such action will assist in relieving gas shortage more expeditiously, or with less use of critical fuels, or in other respects will be in the interest of the war effort.

(6) An "exempted consumer" means a non-residential consumer whose operations have been determined by the War Production Board to be so important that an interruption of gas deliveries would seriously impair the war effort. The War Production Board will from time to time provide each supplier with a list of the exempted consumers on its system.

(7) Whenever, pursuant to any of the provisions of this order, or any special direction of the War Production Board, a utility or non-utility supplier is required to reduce deliveries to any consumer, it shall notify such consumer accordingly. Upon receipt of such notification each consumer shall reduce his acceptance of gas deliveries in accordance therewith.

(8) Notwithstanding any provisions of this order, if the War Production Board, after investigation, shall determine that any consumer having stand-by facilities, has failed to provide himself with an adequate supply of fuel for the operation of such stand-by facilities despite the availability of such fuel, the War Production Board may prohibit deliveries of gas to, and acceptances of gas by, such consumer to the extent that his requirements of gas could have been decreased through the operation of such stand-by facilities.

(9) The following reports shall be filed with the War Production Board relative to gas shortages:

(i) Whenever any utility or non-utility supplier reduces deliveries of gas to any consumer pursuant to paragraph (c) (1) (v) above or any subsequent subparagraph of (c) (1), such utility or non-utility supplier shall immediately notify the War Production Board, Office of War Utilities, Natural Gas Division, Ref.: U–7, by telegram, of the extent of such reduction.

(ii) On or before the 15th day of each month following a calendar month during which reductions in delivery have occurred, each affected utility or non-utility supplier shall submit a report on Form WPB–620 of the aggregate volumes of natural gas conserved by such reductions in delivery and the volumes of natural gas replaced by consumer stand-by facilities and by utility or non-utility supplier gas manufacturing stand-by facilities.

(iii) On or before the 15th day of each month, each utility or non-utility supplier in certain areas specifically designated by the War Production Board shall submit on Form WPB–2077 a report of natural gas underground storage operations, summarizing such operations for the calendar month preceding the date of reporting.

(d) *Restrictions on deliveries of natural gas to non-residential consumers.* (1) No utility or non-utility supplier shall deliver natural gas to any non-residential consumer for the operation of any gas-fired equipment (including space heating equipment) and no non-residential consumer shall accept such deliveries, in any area listed on Exhibit B or Exhibit C, except in cases described in paragraphs (d) (2) or (d) (3) below, or unless:

(i) Such equipment was installed and in regular operation at the same premises prior to November 30, 1942: *Provided*, Deliveries of natural gas for the operation thereof were not prohibited prior to that date by Limitation Order L–31, or

(ii) Such equipment was converted from some other fuel to natural gas, and such conversion was completed and in regular operation at the same premises

prior to November 30, 1942: *Provided*, That deliveries of natural gas for the operation thereof were not prohibited prior to that date by Limitation Order L–31, or

(iii) Such equipment replaces gas-fired equipment of equal or greater capacity previously installed and regularly operated at the same premises for the same purposes: *Provided*, That non-space heating equipment is not replaced with space heating equipment, or

(iv) Such deliveries have been specifically approved by the War Production Board: *Provided*, That deliveries of natural gas may be made where necessary for the operation of oil well or gas well drilling equipment.

(2) In any area listed on Exhibit B, a utility or non-utility supplier may deliver and any non-residential consumer may accept deliveries of natural gas for the operation of any gas-fired equipment when all of the following conditions are met:

(i) The aggregate input capacity of such equipment plus the aggregate input capacity of all other gas-fired equipment installed on the premises of the consumer since March 1, 1942 is less than 500,000 Btu per hour;

(ii) Such equipment is not used primarily for space heating purposes;

(iii) Such equipment cannot, for technological reasons, utilize fuel other than natural gas or liquefied petroleum gases;

(iv) Such equipment does not replace, and is not intended to replace, equipment utilizing fuels other than natural gas;

(v) Such equipment has not been converted from some other fuel to natural gas unless such conversion was completed prior to November 1, 1943, at the same premises and deliveries of natural gas for the operation thereof were not prohibited prior to that date.

(3) In any area listed on Exhibit C, a utility or non-utility supplier may deliver and any non-residential consumer may accept deliveries of natural gas for the operation of any gas-fired equipment when all of the following conditions are met:

(i) The aggregate input capacity of such equipment plus the aggregate input capacity of all other gas-fired equipment installed on the premises of the consumer since March 1, 1942 is less than 1,500,000 Btu per hour;

(ii) Such equipment is not used primarily for space heating purposes;

(iii) Such equipment does not replace, and is not intended to replace, equipment utilizing a fuel other than natural gas;

(iv) Such equipment has not been converted from some other fuel to natural gas unless such conversion was completed prior to November 1, 1943, at the same premises and deliveries of natural gas for the operation thereof were not prohibited prior to that date.

(4) The War Production Board may, by specific direction, establish monthly delivery quotas, limit increases in or require decreases of the monthly volume of natural gas which may be delivered to or accepted by any non-residential consumer in certain gas shortage areas, whenever it is determined that such action is necessary or appropriate; and upon the issuance of such directions no person shall make or accept deliveries which are not in conformance therewith.

(e) *Restrictions on deliveries of natural gas to residential consumers.* No utility or non-utility supplier shall deliver to any residential consumer, and no residential consumer shall accept delivery of natural gas for the operation of any space heating equipment, in any area listed on Exhibit B or Exhibit C unless:

(1) In any area listed on Exhibit B:

(i) Such equipment was installed and in regular operation at the same premises prior to December 2, 1942: *Provided*, That deliveries of natural gas for the operation of such equipment were not prohibited prior to the same date by Limitation Order L–31; or

(ii) Such equipment was converted from some other fuel to natural gas, and such conversion was completed and in regular operation at the same premises prior to December 2, 1942: *Provided*, That deliveries of natural gas for the operation of such equipment were not prohibited prior to the same date by Limitation Order L–31; or

(iii) In the case of new construction, such equipment was specified in the construction contract and was installed prior to March 1, 1943: *Provided*, That deliveries of natural gas for the operation thereof were not prohibited prior to that date by Limitation Order L–31; or

(iv) Such equipment replaces gas-fired equipment of equal or greater input capacity installed and regularly operated at the same premises, whether by the same or another consumer; or

(v) Such deliveries have been specifically approved by the War Production Board.

(2) In any area listed on Exhibit C, any of the five conditions set forth in (e) (1) above exists, or the utility, after investigation, certifies on the applicant's Form WPB–3314 that

(i) The equipment was installed in new residential premises whose foundation was completed after May 31, 1944; or

(ii) The existing heating equipment using a fuel other than natural gas has become worn out or unavoidably damaged beyond repair.

(3) In any area listed on Exhibit B or Exhibit C, the utility certifies that on the basis of information submitted by applicant on Form WPB–3314, the case falls into one of the following categories:

(i) Applications from persons transferring from one place of residence to another, who have owned gas-fired equipment which had been installed in the previous premises where its operation was permissible under Limitation Order L–31 or Utilities Order U–7: *Provided*, That the new premises in which the equipment is to be installed are piped for gas and are not presently equipped with other space-heating equipment capable of utilizing a fuel other than natural gas.

(ii) Applications from persons moving into residential premises not equipped with any space-heating equipment, and which can be heated only by gas-fired equipment either because the premises lack flues or fuel storage facilities necessary for the operation of space-heating equipment utilizing a fuel other than natural gas, or because such alternative equipment as would be practicable is not procurable in the locality.

(iii) Applications from persons moving into residential premises already piped for gas, whether or not such premises are equipped with other space-heating equipment, in cases where the applicant owns a room-size space heater having an input capacity not in excess of 25,000 BTU per hour, which the applicant had owned and operated in the previous premises and the operation of which was permitted under Limitation Order L–31 or Utilities Order U–7. (This category does not apply in the State of California.)

(iv) Applications from persons owning or leasing a structure which has been, or is being, converted into dwelling units which have no space-heating facilities and cannot be practicably heated with equipment using a fuel other than natural gas: *Provided*, That the total input capacity of the equipment covered by the application plus the capacity of all other gas-fired space-heating equipment supplying the residential portion of the premises, does not exceed 250,000 BTU per hour.

(4) In any area listed on Exhibit B or Exhibit C an application is filed by the consumer with the utility supplier on Form WPB–3314 and is supported by the following certifications to and by the utility:

(i) A certification by the physician in attendance that the household has no member or employee physically able, or able without injury to health, to tend coal-fired heating equipment; and

(ii) A certification by the applicant on the Form WPB–3314 application that the hardship claimed cannot be relieved by a partial conversion to gas or the installation of an auxiliary single-room gas-fired heater or circulator; and

(iii) A certification by the utility on the Form WPB–3314 application that the case has been investigated, that the facts alleged by the applicant are correct and that it is not possible to alleviate the hardship claimed by installing auxiliary heating equipment using a smaller quantity of gas.

(f) *Conversions and prohibited installations.* (1) No person shall install or cause to be installed gas-fired equipment designed to receive deliveries of natural gas from any utility if such deliveries are prohibited by paragraphs (d) or (e) of this order.

(2) If the War Production Board, after investigation, shall determine:

(i) That the gas-fired equipment owned or operated by any person can, without exceptional expense or hardship to such person, be converted to the use of, or be replaced by equipment using, a less critical fuel of which a supply is available, and

(ii) That such conversion or replacement will contribute to the alleviation of actual or prospective gas shortages, or to the maintenance of gas deliveries to war

producers or essential civilian services, the War Production Board may upon sufficient notice to permit such conversion or replacement, prohibit further deliveries or acceptances of natural gas for the operation of such gas-fired equipment.

(g) *Conservation for war needs.* (1) When the War Production Board by special direction prohibits or limits the use of natural gas for specific purposes in order to safeguard essential gas supplies in the interest of the war effort, no person shall use, deliver, or accept natural gas in violation of restrictions thus established.

(2) The War Production Board may, from time to time, reclassify any area with respect to Exhibit B or Exhibit C whenever such action is in the interest of the war effort.

(h) *Appeals and applications.* (1) Any person affected by this order, or any direction issued thereunder, who considers that compliance therewith or the operation thereof would work an exceptional and unreasonable hardship, or would in other respects be prejudicial, may appeal for relief by letter to the War Production Board.

(2) Any person who considers that any reduction in or prohibition of deliveries of natural gas made, or proposed to be made pursuant to any provision of this order, or any direction issued thereunder, interferes or will interfere materially with war production or essential civilian service, may apply to the War Production Board for relief by letter communication setting forth all relevant details.

(3) In areas listed on Exhibit B or Exhibit C, applications for new deliveries of gas under paragraphs (d) and (e) shall be filed with the utility or non-utility supplier on Form WPB-3314.

(i) New deliveries to non-residential consumers which are clearly permissible under the provisions of paragraph (d) may be made by the utility without referring the application to the pipe line supplier or the War Production Board, but such applications shall be kept in the utility's file with the action taken indicated under Item 15 for inspection by the War Production Board. All other applications for new non-residential deliveries not clearly permissible under the provisions of paragraph (d) must be referred to the pipe line supplier for transmittal to the War Production Board after completion of Item 16 on Form WPB-3314.

(ii) New deliveries to residential consumers which are clearly permissible under the provisions of paragraph (e) may be made by the utility without referring the application to the pipe line supplier or the War Production Board but such applications shall be kept in the utility's file with the action taken indicated under Item 15 for inspection by the War Production Board. Chapter XI—Office of Price Administration

PART 1499—COMMODITIES AND SERVICES

[MPR 539-A]

CUSTOM MILLING AND KILN DRYING OF NORTHEASTERN SOFTWOODS

In the judgment of the Price Administrator, the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended,

and Executive Orders 9250 and 9328. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.* Such specifications and standards as are used in this regulation were, prior to such use in general use in the industry affected.

MAXIMUM PRICE REGULATION 539–A—CUSTOM MILLING AND KILN DRYING OF NORTHEASTERN SOFTWOODS

SEC.
1. Higher than maximum prices prohibited.
2. What is Northeastern softwood lumber.
3. What is "custom milling service".
4. What is a custom mill.
5. Invoicing and records.
6. Services not listed.
7. No quantity limitations.
8. Transportation charges.
9. Enforcement.
10. Licensing.
11. Geographical applicability.
12. Maximum prices.

AUTHORITY: Secs. 1 to 12, inclusive, (§ 1499.2267) issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Sales of custom milling or custom kiln drying services on Northeastern softwood lumber at higher than maximum prices prohibited.* (a) On and after September 2, 1944, no person shall sell or provide, and no person shall buy or receive in the course of trade or business, any "custom milling service", defined in section 3 below, on Northeastern softwood lumber, at prices higher than the maximum prices set by this regulation; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may of course be charged and paid.

SEC. 2. *What is Northeastern softwood lumber.* "Northeastern softwood lumber" under this regulation means any lumber which on sales by the sawmill is subject to RMPR 219[1] (Northeastern Softwood Lumber).

SEC. 3. *What is "custom milling service".* Under this regulation "custom milling" means only the operations specifically priced under section 12 performed, in the States of Maine, New Hampshire, Vermont, Connecticut, Massachusetts, or Rhode Island, as a service for others, upon lumber in which the person performing these services has no financial interest.

SEC. 4. *What is a custom mill.* Even though the services you perform may meet the definition of "custom milling" above, this regulation does not apply to you unless you qualify as a custom mill under this section.

(a) *General.* A custom mill is one which performs custom milling services upon lumber subject at mill level to RMPR 219, and which:

(1) Does not operate as a "mill" under the definitions contained in RMPR 219.

(2) Does not own or control, is not owned or controlled by, and is not under common control with a "mill" producing the species covered by RMPR 219.

(b) *Operation not qualifying under paragraph (a) may get special permission.* If you do not qualify as a "custom mill" under paragraph (a) above, you may under certain special conditions get authority to operate under this regulation. The rules covering this are as follows:

(1) An application must be filed with the OPA Regional Office for the region in which the applicant's mill is located. This application must show:

(i) The location of the plant, with a description of the physical lay-out of operations in relation to any other activities relating to forest products carried on by the applicant wherever located.

(ii) The extent of ownership or control of or by any other operations relating to forest products, or of common ownership or control, giving name, location, and nature of the other operations.

(iii) Applicant's milling facilities, and the capacity thereof in MBM per day, together with a statement of total footage in rough boards and rough or surfaced dimension, plank and timbers, and of green or partially dry lumber in these sizes, sold during the 30 day period preceding date of application.

(iv) Any other information the applicant may wish to submit.

(2) Special authorization under this paragraph (b) will be granted only where the application enables the Regional Office to make findings that the authorization:

(i) Will result in a greater production of surfaced boards or kiln dried lumber.

(ii) Will not encourage producing sawmills having remanufacturing and kiln drying facilities to ship their lumber, green, partially dry, rough, or in thicknesses over 1".

(iii) Will provide necessary milling services which cannot reasonably be supplied by producing mills, or by custom mills qualifying under paragraph (a).

(iv) Will not result in unnecessarily increasing the cost of finished lumber to the ultimate consumer.

In granting the authority, the Regional Office may make such limitations and conditions as to duration of the authority, quantity or lumber to be milled, etc., as may be appropriate and consistent with the above findings. The authorization may be granted, or the application denied, by letter or telegram.

(c) Unless the operation qualifies, or is specially authorized, as a "custom mill" under paragraphs (a) or (b) above, its maximum prices for custom milling of Northeastern softwood lumber are the charges set forth as additions for workings in RMPR 219.

SEC. 5. *Invoicing and records.* Invoices must show the species, size, condition, and workings of the lumber before and after milling, with a detailed description of all services performed thereon for which a charge is made. Copies of invoices, or similar records, must be kept at the place where the custom milling is performed, available for examination by the Office of Price Administration. These records must be kept for two years.

SEC. 6. *Services not listed.* If a custom mill is required to perform a service for which prices are not specifically provided, these services are still under Maximum Price Regulation 165.

SEC. 7. *No quantity limitations.* The maximum prices set forth in this regulation apply to all transactions regardless of the quantity of lumber involved.

SEC. 8. *Transportation charges.* No service charge may be made by a custom mill for the arrangement of transportation of lumber or advancement of freight charges thereon.

SEC. 9. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

SEC. 10. *Licensing.* The provisions of Licensing Order No. 1,[2] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not during the period of suspension, make any sale for which his license has been suspended.

SEC. 11. *Geographical applicability.* This regulation applies to services performed in the States of Maine, New Hampshire, Vermont, Connecticut, Massachusetts, and Rhode Island.

SEC. 12 *Maximum prices.* The maximum prices per one thousand feet board measure for custom milling and custom kiln drying of lumber which on mill sales is subject to RMPR 219, are as follows:

*Copies may be obtained from the Office of Price Administration.

GENERAL NOTES

1. Charges for additional lines of both resawing and ripping are based on original size of piece ripped or resawn.

2. Where surfacing is done following resawing and/or ripping surfacing charges shall be based on size or sizes of stock resulting from the resawing and/or ripping operation.

3. Where stock thinner than 1" is surfaced, resawn, or ripped, charges may be computed on surface measure. Where the first line of resawing reduces thickness to less than 1" additional lines may be figured on surface measure, instead of original size, as provided in Note 1.

4. Fractional or odd thickness: Use price of next thinner even size. Compute footage on actual rough measure.

5. Fractional or odd widths not listed: Use price of next listed width, either wider or narrower, whichever is lower. Compute footage on actual rough measure.

6. Prices on combination milling, such as ripping and resawing, must be computed on the cheapest method of producing the end product from the particular sizes remanufactured, regardless of how the custom mill actually produces the end product.

7. For milling quantities of less than 1,000 feet board measure of any size or operation, the charge for 1,000 feet may be made. For milling lots of not more than 5,000 feet where not part of a larger order, a charge of 50¢ per M feet may be made.

8. The custom kiln drying charges cover only standard grades as described in the official grading rules covering the various Northeastern softwoods subject to RMPR 219, when dried to ordinary commercial standards. Prices on drying special grades, or thicker than 12/4, or moisture content lower than standard will be given on application to the Office of Price Administration, Washington 25, D. C. The application must state the requested price, and contain a complete description of the item to be priced, including species, size, and the maximum moisture content allowed.

9. Customer must furnish accurate inbound piece tally on each shipment; otherwise custom mill may add 50¢ per M for tallying.

10. Where lumber is handled from car to car without processing, regular handling charges will apply.

Effective date. This regulation shall become effective September 2, 1944.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of August 1944.

(i) *Limburger cheese.* The food product commonly known as Limburger cheese, a soft smear ripened cheese with a strong and characteristic odor and taste,

is prepared from cow's milk by the following process:

Milk may or may not be pasteurized. It may be standardized to adjust the fat content by removing a portion of the fat, by the adding of skim milk, or by adding cream. The milk is warmed, when necessary, and subjected to the action of harmless lactic acid forming bacteria present in such milk or which may be added. Sufficient rennet is then added to cause setting to a semi-solid mass. The mass is so cut, stirred, and heated as to promote separation of whey and curd. The final cooking temperature is about 98° F. When the curd is sufficiently firm about one-half of the whey is removed. The curd and whey remaining in the vat is stirred and immediately dipped into forms or molds. (Another method requires draining practically all of the whey and the addition of salt brine to the curd in the vat before dipping.) The forms containing the cheese are usually turned at regular intervals during the first day, and a slight pressure may or may not be applied to the cheese. The cheeses may or may not be cut before being placed on a salting table where they are rubbed with dry salt two or three times during the first 48 hours. The cheeses are then placed in a curing room at a temperature of about 60° F. having a relative humidity of about 95 percent. To develop and control the proper rind smear each cheese is washed in a weak brine solution about every other day until proper color and smear are obtained, which usually requires about 12 days. The cheese is wrapped in parchment, wax and foil, and placed in a cold room for further curing or until shipped. The cheese contains not more than 48 percent of moisture and its solids contain not less than 50 percent of milk fat.

(ii) *Brick cheese.* The food product commonly known as Brick cheese is prepared from cow's milk by the following process:

Milk may or may not be pasteurized. It may be standardized to adjust the fat content by removing a portion of the fat, by adding skim milk, or by adding cream. The milk is warmed, when necessary, and subjected to the action of harmless lactic acid forming bacteria which may be present in the milk or which may be added. Sufficient rennet or other suitable coagulant is added to cause setting to a semi-solid mass. This mass is so cut, stirred, and heated as to promote separation of the whey and curd. The final cooking temperature is about 108° F. When the curd is sufficiently firm about one-half of the whey is removed. The whey and curd remaining in the vat is again stirred and immediately dipped into forms or molds. (Another method requires draining practically all of the whey and the addition of salt brine to the curd in the vat before dipping.) The forms containing the cheese are then turned at regular intervals during the first day and a slight pressure may or may not be applied to the cheese. The cheeses are then salted. They may be dry salted or immersed in brine. They are then placed on shelves in a curing room having a temperature of about 65° F. and a relative humidity of about 85 percent. The cheeses are then washed frequently in a weak brine solution over a period of about 12 days. The cheeses are usually paraffined or waxed, wrapped in parchment or suitable moisture resistant wrapper and then with an overwrap of suitable paper and packed in boxes for further holding or for shipment. The cheese contains not more than 43 percent of moisture and its solids contain not less than 50 percent of milk fat.

The term Brick cheese includes a pasteurized cured Brick cheese made by approximately the same process, including, but not limited to Beer Kaese cheese and cheese sold under such names as Bier Kase, Lager Kase, Baummeister, Milltown Bar and Beer Cheese, which cheese contains not more than 43 percent of moisture and its solids contain not less than 50 percent of milk fat.

(iii) *Munster cheese.* The food product commonly known as Munster cheese, also known as Muenster cheese is prepared from cow's milk by the following process:

Milk may or may not be pasteurized. It may be standardized to adjust the fat content by removing a portion of the fat, by adding skim milk, or by adding cream. The milk may be warmed, when necessary, and subjected to the action of harmless lactic acid forming bacteria which may be present in the milk or which may be added. Sufficient rennet is added to cause setting to a semi-solid mass. The mass is cut into small cubes and stirred gently for a few minutes and then allowed to settle. The final cooking temperature is usually higher than the setting temperature. When the curd is sufficiently firm and there is a slight development of acid the whey is removed and the curd is dipped into perforated round or oblong hoops or forms.

The forms containing the cheese are turned several times at regular intervals during the first day. It is then taken out of the hoop and rubbed with dry salt about 3 days in succession, or it can be brine salted. The cheese is then transferred to the ripening cellar which should have a uniform temperature of about 55° F. and a relative humidity of about 75 percent. During the ripening period the cheese is usually kept on shelves and turned about twice a week. The rind of the cheese is usually colored by dipping in a vegetable coloring matter or by applying the color to the surface of the cheese. It is then wrapped in parchment or moisture resistant material and packed in boxes. The cheese contains not more than 44 percent of moisture and its solids contain not less than 50 percent of milk fat.

(iv) *Swiss cheese.* The food product commonly known as Swiss cheese, drum Swiss or block Swiss is prepared from cow's milk by the following process:

Milk may or may not be pasteurized but is usually clarified. It may be standardized to adjust the fat content by removing a portion of the fat or by adding skim milk. The milk is warmed, when necessary, and subjected to the action of harmless lactic acid forming bacteria which may be present in the milk or which may be added. A propionic acid forming organism may also be added. Sufficient rennet is added to cause setting to a semi-solid mass. The mass is so cut, stirred, and heated as to promote the separation of whey and curd. The final cooking temperature is about 127° F. When the curd is sufficiently firm it is allowed to settle in the kettle and is then removed from the whey with a dipping cloth. The mass of curd is then placed in a cheese hoop or block form on the press table, and put under pressure for a period of about 16 hours. Cheese is removed from the press table and immersed in brine for a period of about 3 days, then it is left in a cold room for about 12 days. It is then held in a curing room at a temperature of about 75° F. for a period of about 6 weeks or until the "eyes" have formed in the body of the cheese. It is then held at a lower temperature for further aging. The cheese contains not more than 40 percent moisture and its solids contain not less than 43 percent milk fat.

(d) Reference to other maximum price regulations governing sales of cheese:

(1) Sales at retail shall be priced under the provisions of Maximum Price Regulations Nos. 422[3] and 423.[4]

This amendment shall become effective September 4, 1944, except as provided in section 27 (a) (1) (ii) and (c) (8).

Issued this 29th day of August 1944.

PART 1358—TOBACCO

[MPR 260,[1] Amdt. 9]

CIGARS, CIGAR CUTTINGS, AND CLIPPINGS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 260 is amended in the following respects:

1. Section 1358.102a is amended to read as follows:

(a) *Maximum prices for imported cigars*—(1) *Listed imported cigars.* The maximum list price and the maximum retail price of any imported cigar listed in § 1358.117, Appendix B, which is sold after September 3, 1944 shall be the maximum prices set forth in that section for the imported cigar of the same brand name and front mark and of the same size, shape and quality.

(2) *Imported cigars not listed.* (i) The maximum list price and the maximum retail price of any imported cigar not listed in § 1358.117, Appendix B, which an importer did not sell prior to September 4, 1944 and which he desires to sell after such date, shall be the maximum prices set forth in that section for an imported cigar of comparable size, shape and quality. Maximum prices for an imported cigar determined by an importer under this subdivision shall not be charged, paid or received until authority to establish such maximum prices has been given by the Office of Price Administration, Washington, D. C. Such authorization will be given only after receipt, in duplicate, of all the information and evidence requested in OPA Form 635–1065, shown in § 1358.117a, Appendix C. Copies of such form will be furnished to each applicant making request therefor to the Office of Price Administration, Tobacco Section, Washington, D. C.

(ii) Within 30 days after September 4, 1944, every importer of an imported cigar, sold prior to such date, which is not listed in § 1358.117, Appendix B, shall apply for authorization of his maximum prices in the same manner provided in (i), above. An importer who has applied for authorization of his maximum prices under this subdivision may continue to sell the cigar being priced at maximum prices heretofore properly established under this regulation, until receipt by him of an order issued by the Office of Price Administration in accordance with (3), below.

(3) After receipt of an application filed under (2), above, the Office of Price Administration, Washington, D. C., will, by order, establish a maximum list price and a maximum retail price for the imported cigar being priced.

(4) Importers' and wholesalers' discounts on sales of any imported cigar priced under (1) or (2), above, shall not be less than those allowed in March 1942 on their sales of imported cigars in the same price class to the same class of purchasers. Importers' and wholesalers' price differentials in packings charged in 1942 on sales of imported cigars in the same price class may be charged on sales of such imported cigar, but shall not be increased. Importers' and wholesalers' price differentials in packings allowed in March 1942 on sales of imported cigars in the same price class shall be allowed on sales of such imported cigar and shall not be reduced. If an imported cigar is of a price class not previously sold by a particular importer, the maximum discounts on sales thereof shall be those established under this regulation for imported cigars of that price class by the most closely competitive importer thereof and packing differentials charged or allowed shall not be greater or less, respectively, than those charged or allowed by such most closely competitive importer on sales of imported cigars of that price class.

(5) On or before the first delivery after September 3, 1944 of an imported cigar for which maximum prices have been established under this regulation, every seller (other than a retailer) shall notify the purchaser of the exact amount of his maximum list price and the exact amount of the maximum retail price of such imported cigar by delivering to such purchaser a written statement as set forth below. However, no such notice shall be required where the maximum list price and the maximum retail price are the same as those previously established for the particular imported cigar under this regulation. Where the imported cigar being priced was imported and sold by the importer prior to September 4, 1944, and an application has been filed by him under (2) (ii), above, notice shall be given by the importer to the purchaser on or before the first delivery of such imported cigar after an order of authorization of maximum prices has been received by the importer, as provided in (3) above; such notice shall be given by other sellers (except retailers) on or before the first delivery of such imported cigar after receipt of notice from their suppliers in accordance with this subparagraph.

On our _____ (describe cigar by brand name, front mark and size) of imported cigars, we are authorized by the Office of Price Administration to establish a maximum list price of $_____ per thousand and a maximum retail price of _____ cents each (or _____ for _____ cents). Importers' and wholesalers' discounts on sales of this cigar are to be not less than those allowed in March 1942 on their sales of imported cigars in the same price class to the same class of purchasers. All packing differentials charged in March 1942 on sales of imported cigars in the same price class may be charged on sales of this cigar and may not be increased. All packing differentials allowed in March 1942 on sales of imported cigars in the same price class are to be allowed on sales of this cigar and may not be reduced. Wholesalers receiving this notice are required to give similar notice to every purchaser to whom they sell or deliver this imported cigar on or before the first delivery to such purchaser. The Office of Price Administration requires you to keep this notice for examination.

(6) The maximum prices of any new imported cigar established under this paragraph shall be subject to modification by the Office of Price Administration or any duly authorized officer thereof at any time.

2. The second sentence of § 1358.103 is amended by deleting the phrase "or by an importer of imported cigars under § 1358.117 Appendix B."

3. Section 1358.113 (c) is revoked.

4. Section 1358.117 is amended to read as follows:

Maximum Price Regulation No. 355 is amended in the following respects:

1. Paragraph (e) of section 5 is added to read as follows:

(e) Except as authorized hereafter in this paragraph (e) of section 5, you must not grind, bone, roll or cube any cut or grade of meat not authorized to be preground, pre-boned, pre-rolled or precubed in sections 20, 22 or 30 of this regulation, unless such preparation is performed in the presence of the customer ordering it, and in such a manner that he can observe it.

If you first have gotten permission from the Director of your appropriate District Office of the Office of Price Administration, you may fill bona fide telephone orders for ground, boned, rolled or cubed cuts of meat (otherwise prohibited from being prepared) even though the purchaser is not present in the store to observe the preparation, but you may prepare them only after you have received a bona fide telephone order requiring such preparation. You must not prepare them in anticipation of orders—telephone or otherwise. If you wish permission to make such sales, you first must submit your written application requesting such permission to your appropriate District Office of the Office of Price Administration. The application must state the name and address of each store for which the permission is requested, the reasons why permission to fill telephone orders is sought, must be signed by you, and must set forth facts which indicate the existence of the following conditions:

(3) That your inability to fill telephone orders on items which required grinding, boning, rolling or cubing in the customer's presence has resulted in delay in filling orders and has caused inconvenience to you and your customers since May 17, 1943.

Upon receipt of an application, the appropriate District Office of the Office of Price Administration shall conduct whatever investigation it deems necessary concerning the statements in the application, and, upon the basis of the statements and such investigations the Director of the appropriate District Office of the Office of Price Administration shall make such findings as are justified. If the findings of the District Director indicate that the requirements of this section have been satisfied, he will grant permission in writing authorizing you to fill telephone orders for such ground, boned, rolled or cubed cuts and grades of meats even though the customer is not present in your store to observe the preparation.

When you receive permission you must comply with the following rules in filling telephone orders:

Notice of correction in the matter of applications of the National Grain Trade Council, millers' national federation and sundry other parties for the exemption of the receiving of grain, soy beans, flaxseed, and buckwheat into grain elevators from the Maximum Hours Provision of the Fair Labor Standards Act of 1938, as industries of a seasonal nature pursuant to section 7 (b) (3) of the act and Part 526, as amended, of the regulations issued thereunder.

Whereas, the text of paragraph numbered 3 of the Administrator's Decision in the above entitled matter, as published in the FEDERAL REGISTER on June 14, 1941 (6 F.R. 2889), reads as follows:

(3) The storing of grain including flaxseed, buckwheat, and soy beans by mill elevators is a branch of an industry and of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938, and regulations issued thereunder, and therefore is entitled to the exemption provided in section 7 (b) (3) of the said act; and

Whereas, the words "wheat flour" immediately preceding the words "mill elevators" in the above paragraph were inadvertently omitted;

Now, therefore, the said paragraph is hereby corrected to read as follows:

(3) The storing of grain, including flaxseed, buckwheat, and soy beans by wheat flour mill elevators is a branch of an industry and of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938, and regulations issued thereunder, and therefore is entitled to the exemption provided in section 7 (b) (3) of the said act.

Signed at New York, New York, this 25th day of August 1944.

1. The plan for joint action above referred to is hereby approved and the persons named in Appendix 1 hereof are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or schedules, or supplements to filed tariffs or schedules, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or schedules, or supplements, to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. The plan for joint action hereby approved and all contractual arrangements made to effectuate the plan shall not continue in operation beyond the effective period of this order.

(a) *General.* A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(1) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(2) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

(b) *Issuance of statements of availability by employers.* An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from his employer if:

(1) He has been discharged, or his employment has been otherwise terminated by his employer, or

(2) He has been laid off for an indefinite period, or for a period of seven or more days, or

(3) Continuance of his employment would involve undue personal hardship, or

(5) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

(c) *Issuance of statements of availability by United States Employment Service.* (1) A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in paragraph (b) is found to exist in his case. If the employer fails or refuses to issue a statement, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual.

(2) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who, the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission Employment Stabilization Plan, regulation or policy, and for so long as such employer continues his non-compliance after such finding.

(d) *Referral in case of under-utilization.* If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

(e) *Workers who may be hired only upon referral by the United States Employment Service.* A new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or with the consent of, the United States Employment Service when:

(3) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii.

(4) The hiring by a foreign, state, county or municipal government, or their political subdivisions, or their agencies and instrumentalities, or the hiring of any of their employees, unless such foreign, state, county or municipal government, or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program.

(j) *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

(l) *General referral policies.* No provisions in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 4. *Existing contracts.* Nothing in this plan shall be construed to prejudice existing rights of an employee under any agreement with his employer.

SEC. 5. *Advertising.* Advertising for employees:

(a) Shall not be of a nature which will have a disruptive effect upon the labor market in a particular area, including either the publication of wage rates which induce turnover and piracy or the solicitation of workers by employers outside an area except through arrangements with the United States Employment Service of the War Manpower Commission.

(b) Should state clearly that employees now employed in essential activity cannot be considered without a statement of availability.

(c) Should state clearly that before employers hire employees possessing skills which appear on the List of Critical Occupations, clearance must be obtained from the United States Employment Service.

SEC. 6. *Advance notice of lay-offs.* Employers are required when possible to provide at least three days advance notice to the United States Employment Service whenever a lay-off of ten or more employees will occur and such notice shall contain a statement as to the number of employees to be laid off by occupation.

SEC. 7. *Limited statements of availability.* Limited statements of availability specifying a particular date on which employees shall be returned to their previous employer shall be issued by the United States Employment Service of the War Manpower Commission whenever, in the judgment of the appropriate Area Manpower Director, the best interests of the war effort will be served by such action: *Provided,* That such action is agreeable to both employer and employees involved: *And provided further,* That such limited statement of availability shall not be issued for a period longer than three months.

SEC. 8. *Request to remain on or return to a job.* The United States Employment Service of the War Manpower Commission shall request any employee to return to or remain on his job and shall request any employer to retain such employee in his employ:

(a) Pending any determination on the employee's request for a statement of availability.

(b) Pending decision on the employee's appeal from a determination denying him a statement of availability.

(c) Upon a final determination that the employee is not entitled to a statement of availability.

SEC. 9. *Release of individuals hired or solicited in violation of employment stabilization plan.* Employers who willingly or knowingly have solicited or hired individuals in violation of provisions of this plan must, upon receiving written notice from the United States Employment Service of the War Manpower Commission, arrange to release these workers within 24 hours after receiving notifications of the violations.

This statement shall be retained in the file in lieu of the statement or availability or referral card.

NOW, THEREFORE, by virtue of the power and authority vested in me by the Constitution and laws of the United States, including Section 9 of the Selective Training and Service Act of 1940, as amended, as President of the United States and Commander in Chief of the Army and Navy of the United States, it is hereby directed as follows:

1. The Secretary of War is hereby authorized and directed, through and with the aid of any persons or instrumentalities that he may designate, to take possession of the plants and facilities of The International Nickel Company, Inc., located in and around Huntington, West Virginia, and to the extent that he may deem necessary, of any real or personal property, and other assets wherever situated, used in connection with the operation thereof; to operate or to arrange for the operation of the plants and facilities in any manner that he deems necessary for the successful prosecution of the war; to exercise any contractual or other rights of the said company, and to continue the employment of, or to employ, any persons, and to do any other thing that he may deem necessary for, or incidental to, the operation of the said plants and facilities and the production, sale and distribution of the products thereof; and to take any other steps that he deems necessary to carry out the provisions and purposes of this order.

2. The Secretary of War shall operate the said plants and facilities under the terms and conditions of employment which are in effect at the time that possession thereof is taken, subject to the provisions of Section 5 of the War Labor Disputes Act.

3. The Secretary of War shall permit the management of said plants and facilities to continue with its managerial functions to the maximum degree possible, consistent with the aims of this order.

4. All federal agencies, including but not limited to the War Manpower Commission, the National Selective Service System, the Department of Justice, and the Office of Price Administration, are directed to cooperate with the Secretary of War to the fullest extent possible in carrying out the purposes of this order.

5. The Secretary of War is authorized to take such action, if any, as he may deem necessary or desirable to provide protection for said plants and facilities and all persons employed or seeking employment therein, and their families and homes.

6. Posession, control and operation of any plant or facility, or part thereof, taken under this order shall be terminated by the Secretary of War within sixty days after he determines that the productive efficiency of said plant, facility or part thereof prevailing prior to the interruptions of production, referred to in the recitals of this order, has been restored.

THE WHITE HOUSE,

[F. R. Doc. 44–13183; Filed, August 30, 1944; 11:17 a. m.]

Administrator by Executive Orders of the President, the regulations for cotton warehouses, as amended, and as they now appear in Title 7, Chapter I, Subchapter D, Part 101, of the Code of Federal Regulations, and the Cumulative Supplement thereto, are hereby amended as follows:

§ 101.16 *Form.* • • •

(b) Except as to warehouse receipts issued on or before August 30, 1944, or when an expiration date authorized by the Department is shown on the face of the receipt, every negotiable receipt issued for cotton stored in a licensed warehouse shall be effective until surrendered for delivery of the cotton, and every nonnegotiable receipt shall be effective until surrendered for delivery of the cotton or until all cotton covered by the receipt has been delivered in response to proper delivery orders of the person rightfully entitled to the cotton: *Provided*, That nothing herein contained shall prohibit a warehouseman from legally selling the cotton when his accrued storage and other charges approach the current market value of the cotton (Reg. 4, sec. 1, par. 2).

§ 101.21 *Return of receipts before delivery of cotton.* Except as permitted by law or by these regulations, a warehouseman shall not deliver cotton for which he has issued a negotiable receipt under the act until such receipt has been returned to him and canceled; and shall not deliver cotton for which he has issued a nonnegotiable receipt until such receipt has been returned to him or he has obtained from the person lawfully entitled to such delivery or his authorized agent a written delivery order, properly signed, specifying by bale or tag number each bale to be delivered from any receipt or receipts. Before delivering, or upon delivery of, all the cotton covered by a nonnegotiable warehouse receipt, the warehouseman may require the surrender of the receipt. For the purpose of these regulations, return of a receipt to a warehouseman means surrender of the receipt to the warehouseman at his office in the city or town in which the cotton is stored (Reg. 4, sec. 6).

§ 101.29 *Warehouse charges.* A licensed warehouseman shall not make any unreasonable, exorbitant or discriminatory charge for services rendered. Before a license to conduct a warehouse is granted under the act, the warehouseman shall file with the Department a copy of his rules, if any, and a schedule of the charges to be made by him if licensed. Effective at the beginning of any cotton season, a licensed warehouseman may change his rate of charges for storage and other services, and the new rates may apply to all cotton then in storage as well as cotton received thereafter. At or before the beginning of each season every licensed warehouseman shall file with the Department a copy of his rules, if any, and of his schedule of charges for the ensuing year. Should a licensed warehouseman wish to make changes in his rates to become effective at any time other than at the beginning of a season, he shall file with the Department an amended schedule showing the contemplated changes, accompanied by a statement, if requested by the Department, setting forth the reasons therefor. No increase shown in such an amended schedule shall apply to cotton in storage at the time the changes become effective, except that any change made under authority of any Federal price control legislation may apply to cotton already in storage: *Provided, however*, That no increase made under such authority shall apply to cotton then in storage unless notice that such increase might be made has been entered in the face of the warehouse receipt. A licensed warehouseman may demand payment of all accrued charges at the close of each cotton season. If, upon demand, the owner of the cotton refuses to pay such charges at the end of a season, the warehouseman may take such action to enforce collection of his charges as is permitted by the laws of the state in which the warehouse is located. Each licensed warehouseman shall keep a copy of his current rules and schedule of charges exposed conspicuously in the place prescribed by § 101.6 (Reg. 2, sec. 4), and at such other place accessible to the public as the Secretary or his designated representative may from time to time designate. (Reg. 5, sec. 7.) For the purposes of this regulation the cotton season shall commence on August 1 of each year and end on July 31 of the following year.

The foregoing amendments shall become effective at 12:01 a. m., e. w. t., August 30, 1944.

Chapter XI—War Food Administration (Distribution Orders)

[WFO 79-108, Amdt. 2]

PART 1401—DAIRY PRODUCTS

FLUID MILK AND CREAM IN COLUMBUS, GA., SALES AREA

Pursuant to War Food Order No. 79 (8 F.R. 12426, 9 F.R. 4321, 4319), dated September 7, 1943, as amended, and to effectuate the purposes thereof, War Food Order No. 79-108 (9 F.R. 142, 9 F.R. 4321, 4319), as amended, relative to the conservation and distribution of fluid milk, milk byproducts, and cream in the Columbus, Georgia, milk sales area, is hereby further amended, so as to read as follows:

§ 1401.146 *Quota restrictions*—(a) *Definitions.* (1) Each term defined in War Food Order No. 79, as amended, shall, when used herein, have the same meaning as is set forth for such term in War Food Order No. 79, as amended.

(2) The term "WFO 79" means War Food Order No. 79, dated September 7, 1943, as amended.

(3) The term "sub-handler" means any handler, such as a peddler, vendor, sub-dealer, or secondary dealer, who (i) receives in a previously packaged and processed form milk, cream, or milk byproducts for delivery, and (ii) does not operate facilities for the processing and bottling of milk.

(4) The term "industrial user" means a person, as determined by the market agent, in his capacity as a manufacturer of products using as an ingredient therein milk, cream, or milk byproducts, which products are disposed of primarily for resale to consumers off the premises where made.

(5) The term "base" means the total pounds delivered by a handler within the sales area during the base period (i) of milk solids in milk, (ii) of butterfat in cream, or (iii) of milk solids in milk byproducts, minus the quota exempt deliveries described in (j) hereof, and then divided by the number of days in the base period. (For the purpose of this order, the milk solids content of milk or milk byproducts shall be computed as follows: Each hundredweight of milk, or milk byproducts other than cottage, pot, or baker's cheese, shall be considered the equivalent of 9.375 pounds of milk solids plus the number of pounds of solids calculated by multiplying the pounds of butterfat content of such milk or milk byproducts by .906, and each hundredweight of cottage, pot, or baker's cheese shall be considered the equivalent of 65.63 pounds of milk solids minus .953 pounds of milk solids for each one-half percent of butterfat content of such cheese.)

(b) *Milk sales area.* The following area is designated as a "milk sales area" to be known as the Columbus, Georgia, milk sales area, and is referred to hereinafter as the "sales area":

The city of Columbus, Georgia, and the county of Muscogee in the State of Georgia, and Phenix City located in Russell County in the State of Alabama.

(c) *Base period.* The calendar month of June 1943 is designated the base period.

(d) *Quota period.* Each calendar month is designated as a quota period.

(e) *Handler quotas.* Quotas for each handler other than a sub-handler or producer-handler shall be determined for each quota period as follows:

(1) For milk, multiply his base of milk solids in milk by 100 percent;

(2) For cream, multiply his base of butterfat in cream by 75 percent;

(3) For milk byproducts, multiply his base of milk solids in milk byproducts by 100 percent; and

(4) Multiply each of the foregoing results by the number of days in the quota period.

(f) *Quotas for handlers who are also producers.* Quotas for each handler who is also a producer and who purchases no milk shall be computed in accordance with (e) hereof, except:

(1) His base period shall be either June or December, 1943, whichever represents his larger total deliveries; and

(2) The applicable percentages shall be 100 percent in lieu of those specified in (e).

(g) *Quota adjustments.* Each handler may, within any quota period, (1) increase his quota of milk solids in milk by one pound for each one pound of milk solids by which he decreases his quota for milk byproducts: *Provided,* That his quota of milk solids in milk shall not be so increased by more than 3 percent, and (2) increase his quota of milk solids in milk byproducts by one pound for each one pound of milk solids by which he decreases his quota for milk.

(h) *Handler exemptions.* Quotas shall not apply to any handler who delivers in a quota period a daily average of less than 125 units of milk, cream, and milk byproducts, unless more than 63 units of such daily average shall consist of cream. For the purpose of this order, a unit shall be the equivalent in volume of the following: (1) One quart of milk, buttermilk, or fluid milk byproducts; (2) one-half pint of cream; and (3) one-half pound of cottage, pot, or baker's cheese.

(i) *Transfers of bases.* The market agent is empowered to transfer base from one handler to another:

(1) Upon receipt of a request in writing from each handler involved; or

(2) Upon application and after written notice to the Director and each handler involved, whenever (i) a handler has denied service to an existing account; (ii) an account customarily rotates among handlers, inclusive of any account with a public agency or institution which is let on a bid basis; (iii) a sub-handler regularly making 50 percent or more of his deliveries under his own brand or trade name submits an application; or (iv) a sub-handler applies in order to consummate a bona fide sale of business: *Provided,* That any ruling by a market agent under this authority may be reviewed by the Director upon petition, or upon the initiative of the Director.

(j) *Quota exclusions and exemptions.* Deliveries of milk, cream, or milk byproducts, (1) to other handlers, except for such deliveries to sub-handlers, (2) to plants engaged in the handling or processing of milk, milk byproducts, cream, or other dairy products, from which no milk, milk byproducts, or cream is delivered in the sales area, (3) to industrial users, and (4) to the agencies or groups specified in (d) of WFO 79, shall be excluded from the computation of deliveries in the base period and exempt from charges to quotas.

(k) *Consumer priorities.* In the distribution of milk subject to quotas established hereunder, a handler shall give preference in the order listed, taking into consideration the type of purchasers served by him in the base period, to:

(1) The need of children, expectant mothers, and invalids requiring milk;

(2) Homes and retail stores handling milk for consumption off the premises; and

(3) Establishments serving milk for consumption on the premises.

(l) *Petition for relief from hardship.* (1) Any person affected by WFO 79 or the provisions hereof, who considers that compliance therewith would work an exceptional and unreasonable hardship on him, may file with the market agent a petition addressed to the Director. The petition shall contain the correct name, address, and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, the hardship involved, and the nature of the relief desired.

(2) Upon receiving such petition the market agent shall immediately investigate the representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall be reviewed by the Director and may be affirmed, modified, or reversed by the Director.

(m) *Reports.* Each handler shall transmit to the market agent on forms prescribed by the market agent the following reports:

(1) Within 20 days following the effective date of this order, reports which show the information required by the market agent to establish such handler's quotas;

(2) Within 20 days following the close of each quota period, the information required by the market agent to establish the volume of deliveries of milk, cream, and milk byproducts, under the provisions of this order, during the preceding quota period; and

(3) Handlers exempt from quotas pursuant to (h) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(n) *Records.* Handlers shall keep and shall make available to the market agent such records of receipts, sales, deliveries, and production as the market agent shall require for the purpose of obtaining information which the Director may require for the establishment of quotas.

(o) *Violations.* The market agent shall report all violations to the Director together with the information required for the prosecution of such violations.

(p) *Effective date.* This order shall take effect at 12:01 a. m., e. w. t., September 1, 1944. With respect to violations of said War Food Order No. 79-108, as amended, rights accrued, or liabilities incurred thereunder, prior to the effective time of this amendment, said War Food Order No. 79-108, as amended, shall continue in full force and effect for the purpose of sustaining any suit, action, or other proceeding with respect to any such violation, right, or liability.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(iii) Telephone resonators,

(iv) Optical or electrical parts for use in implements of war, or for use in research or production instruments manufactured to fill orders bearing a preference rating of AA-2X or higher.

(v) Radio oscillators and filters and optical parts to be used in the replacement of parts which are defective, cracked, or broken, provided the equipment or instruments requiring such parts are implements of war or are needed solely in activities directly connected with defense, public health, welfare, or security, or

(d) *Special directions.* The War Production Board at its discretion may at any time issue special directions to any person with respect to the use, fabrication to final product, delivery, acceptance of delivery, or placing of orders by such person of or for quartz crystals, blanks, or semi-fabricated or fabricated forms thereof, or special directions to any fabricator with respect to the types and sizes of semi-fabricated and fabricated forms of quartz crystals which he may or must fabricate, and the grades and types of quartz crystals which he may or must use in the fabrication of such blanks or fabricated forms of quartz crystals.

(e) *Reports*—(1) *Stocks and inventories.* Every person who, on the 13th day of May, 1942, or on the last day of any calendar month thereafter has title to or is in possession or control of twenty-five (25) pounds or more of quartz crystals, or more than ten (10) pieces in the form of blanks or in other semi-fabricated or fabricated forms thereof, which have not been mounted or installed in holders, shall, on or before the close of business on the 5th day of the succeeding month, report to the War Production Board, in duplicate, on Form WPB-1033 (formerly PD-484).

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-385, Interpretation 1]

The following interpretation is issued with respect to General Conservation Order M-385:

1. Q. Does the four weeks' supply referred to in paragraph (b) (3) include textiles obtained without the use of the preference rating, that is, so called "free" goods?—A. Yes.

2. Q. Does the four weeks' supply referred to in paragraph (b) (3) include all textiles that the manufacturer has on hand?—A. No. It includes only the textiles of the same construction as the textiles for which the rating is used.

3. Q. May a processor who has on hand less than four weeks' supply of a textile accept delivery of the same textile on a rating if as a result of said delivery he will have on hand more than a four weeks' supply?—A. Yes. For example, if a processor has on hand 3½ weeks' supply he may accept delivery of an additional four weeks' supply. However, he may not at any one time accept delivery of more than a four weeks' supply.

4. Q. Does the supply "on hand" referred to in paragraph (b) (3) include goods not located at the Processor's plant ready for production?—A. Yes. It includes goods wherever located if title has passed to the processor.

5. Q. Do the provisions of paragraph (j) of Conservation Order M-317 apply to cotton textiles as defined in that order which are obtained with the rating assigned by order M-385?—A. Yes. Paragraph (j) of M-317 provides that "no person shall accept delivery of any cotton textiles if his aggregate inventory exceeds or would then exceed the lesser of (1) a practicable minimum working inventory, or (2) his requirements for 90 days."

6. Q. Do the provisions of paragraph (b) (7) apply to all textiles obtained on a rating assigned by this order?—A. Yes. All the textiles obtained on the rating must be used for the production of the item for which the rating was used, and production must be completed within 60 days after delivery of the textiles.

7. Q. May processors appeal from the provisions of any of the paragraphs of this order?—A. Yes. Any person who considers that compliance with any of the provisions of this order would work an exceptional and unreasonable hardship on him may appeal for relief pursuant to paragraph (h) (4).

8. Q. Do the words "a processor of the same item" in paragraph (b) (1) mean only a person who made the item from the particular fabrics listed for it in Column 2 of preference rating schedule of Supplement II?—A. No. Any person who made the item, regardless of the material which was used, may use the rating assigned by the order if he meets and complies with the requirements of the order. For example, in Group 1 of the preference rating schedule of Supplement II the item listed is "dresses, misses and women's, sizes 12 to 44". Anyone who made dresses in these sizes, whether of cotton, rayon, wool or other fabrics, may use the rating if he is otherwise qualified.

9. Q. Do the limitations of paragraph (b) (2) on the total production of an item apply to a processor who does not use the rating assigned by this order?—A. No.

10. Q. Do the limitations of paragraph (b) (2) on the total production of an item, regardless of price, apply to a processor's production of that item made of materials other than the textiles for which a rating is assigned?—A. Yes. They apply to the processor's total production of that item, regardless of the material out of which it is made. Thus, if a processor makes dresses out of rayon, wool, or other fabrics and uses a rating to obtain cotton textiles the total production of all dresses, regardless of the material from which they are made, may not exceed his base period production of dresses.

11. Q. Are the prices indicated for each item in the preference rating schedule of Supplement II net prices, or are they subject to the usual discounts?—A. The prices listed are gross. They are subject to the customary trade and other discounts. For example, if the processor's usual practice is to sell the item at a price less 8% discount, the item must be produced for sale by him at or below the price indicated for it in the preference rating schedule less 8%.

12. Q. Do the provisions of paragraph (e) as to equitable distribution apply to all garments manufactured by a processor, whether from "free" goods or rated goods?—A. The provisions of this paragraph apply to the total production of each item for which the rating is used, including production from "free" goods, as well as from goods obtained on the rating. Thus, if a person uses a rating to get material to make misses and women's dresses up to $15.75 per dozen, he must comply with the provisions of paragraph (e) with respect to his total production of dresses up to $15.75 per dozen, even though a large part of this production is from "free" goods.

13. Q. Are nurses' uniforms, or any other type of uniform, included within the term "dresses" in Groups 1 and 2 of the preference rating schedule of Supplement II?—A. No.

14. Q. May a person who manufactures an item for the armed forces, or any other government agency, consider his dollar volume of his production of this item for the government in determining his right to use a rating under (b) (1), or his production quota under (b) (2)?—A. Yes. However, he may not take into consideration his production of other items for the government. For example, if a person manufactured shirts for the Army during the base period, he is qualified to use the rating assigned by Groups 11 and 12 of the preference rating schedule of Supplement II to make men's shirts, and he may consider his dollar volume of production for the Army in computing his quota under paragraph (b) (2). However, if he made men's shorts for the Army, he may not consider this production for the purpose of qualifying him to use a rating for men's shirts, or in computing his production quota for men's shirts.

15. Q. May a person, who during the base period was engaged in production for the armed forces making items not listed in the preference rating schedule, use a rating assigned by Supplement II for an item listed in the schedule?—A. No. However, he may apply for an authorization pursuant to paragraph (b) (8).

[FPR 1,[1] Amdt. 5 to Supp. 7]

PACKED FRUITS, BERRIES AND VEGETABLES OF THE 1944 AND LATER PACKS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

1. The table in section 1 (a) is amended by adding item 7 to read as follows:

Column 1	Column 2	Column 3	Column 4	
Item No.	Product	Section	Section	Appendix
7	Yellow cling peaches, halves, sliced, quartered, and diced (California only)	5	16	D

2. In section 16, Appendix D is added to read as follows:

APPENDIX D—YELLOW CLING PEACHES, HALVES, SLICED, QUARTERED, AND DICED

Explanation of how maximum prices are figured for packed yellow cling peaches, halves, sliced, quartered, and diced.

This appendix includes the specific pricing provisions for packed yellow cling peaches, halves, sliced, quartered, and diced, produced in the state of California. It does not apply to these styles of pack of packed yellow cling peaches produced in states other than California, nor does it apply to packed whole or pickled yellow cling peaches produced in any area.

Conversions for grade, for syrup differential, and for container type and size under subparagraph (2), (3) or (4) of section 5 (a) of this supplement are to be made in the same order and in the same manner as those for packed apricots. The explanation at the beginning of Appendix B of this section applies to this appendix for that purpose, except that no conversion is provided here for style of pack.

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, that the maximum prices of pet foods, as established by the General Maximum Price Regulation, be continued in effect, as provided in this Maximum Price Regulation No. 552.

ARTICLE I—GENERAL PROVISIONS

SECTION 1. *Applicability.* Except for those sales exempted by paragraph (a) of this section, this regulation shall apply to all sales within the United States and to all deliveries, whether immediate or future, pursuant to said sales, of the commodities covered hereby.

(a) *Exempt sales*—(1) *Export sales.* This regulation shall not apply to any export sale. The maximum price for such sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation, as amended.[1]

(2) *Emergency purchases.* This regulation shall have no application to any purchase by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative, and as to render it impossible to secure, or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1[2] to the General Maximum Price Regulation, as amended:[3] *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

(3) *Pet foods containing fresh horsemeat.* If one of the ingredients of a pet food is fresh horsemeat, this regulation shall not apply to any sales, thereof. Maximum prices for such sales shall be determined pursuant to the provisions of Maximum Price Regulation No. 367.[4]

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any of the commodities covered by this regulation, at prices above the maximum prices established by this regulation, nor shall any person agree, solicit, offer or attempt to do any of the foregoing: *Provided, however,* That certain agreements to raise prices are permissible, as provided for in subparagraph (1) of this section.

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, and the Stabilization Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation, may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a seller obtains greater consideration than the maximum price, or where he gives less than the consideration due the buyer for the maximum prices charged, is an evasion of this regulation and, therefore, prohibited, and any offer or agreement which accomplishes or attempts to accomplish such result is equally prohibited.

SEC. 4. *Documents, records and reports.* (a) Every seller, and every purchaser in the course of trade or business, shall keep for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of every sale and purchase covered by this regulation, including the date thereof, the name of the seller and purchaser, the kind and quality of the commodity, the price paid or received, the quantity sold or purchased and, in addition, records showing, as precisely as possible, the basis upon which he determined his maximum price for such sale.

The term "purchaser in the course of trade or business" includes, but is not limited to, commercially operated kennels.

(b) Upon demand, every such person shall submit such records to the Office of Price Administration, and keep such further records as the Office of Price Administration may require from time to time, subject to the approval of the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(c) On each sale covered by this regulation, the seller shall give his customer an invoice or bill of sale which must show the seller's maximum price on the particular type and kind of sale, the sale price, the amount of any freight charges included in the sale price, and the quantity and type of the commodity sold; and

SEC. 8. *Definitions.* When used in this regulation, the following terms shall have the following meanings:

(b) If you so elect, your maximum price on the particular type and kind of sale as recalculated under section 12, hereof, *Provided, however,* That if you do not recalculate your maximum price on each type and kind of sale which you are then making within 30 days after the effective date of this regulation, you shall not, thereafter, make such a recalculation with respect to that type and kind of sale.

However, if you so elect, you may recalculate your maximum price on any such sale in the manner provided for the recalculation of your maximum prices as set forth in section 12 of this regulation: *Provided,* That such recalculation must be made no later than 30 days after the effective date of this regulation.

(b) If you made no previous sales of the particular type and kind to the buyer, your maximum price on the sale to him shall be your maximum price on the same type and kind of sale to his closest competitor.

(1) Your maximum price on the particular type and kind of sales as determined under the General Maximum Price Regulation; and

(2) If your commodity is made by the same formula, as it was in March, 1942, the amount of all increases, since March, 1942, in the cost of ingredients and packaging materials; or

(c) The following is the manner in which you shall determine ingredient and packaging materials costs as of the effective date of this regulation:

(1) If the price of the ingredients or packaging materials is subject to the General Maximum Price Regulation, or to a specific regulation, you shall use the maximum price to you, at your plant, in the quantities you normally purchase, from your customary supplier, as if you

Such application shall contain the information required to be filed by processors under section 12 (b) (1) to (5), and in addition, you shall set forth your supplier's maximum price on the sale of the commodity to you.

The Office of Price Administration shall establish a maximum margin for the particular type and kind of sale. The margin, so established, shall be added to your supplier's maximum price, and the resultant sum shall be your maximum price.

SEC. 14. *Maximum prices on sales to wholesalers.* (a) If you are a processor of, or a private brand dealer in, pet foods, you shall determine your maximum price on sales to wholesalers by allowing the same discount under your maximum price to retailers, to each wholesaler which you allowed to him on the particular type and kind of sale, prior to the effective date of this regulation.

(b) If you did not make the particular type and kind of sale, prior to the effective date of this regulation, you shall give to your buyer the discount you allowed him on your most similar commodity, or if you sold no similar commodity, the discount allowed by your closest competitor, on such a sale.

(c) If you sell to a new purchaser, you shall give him the discount which you allowed to his closest competitor, on the particular type and kind of sale, prior to the effective date of this regulation.

SEC. 15. *Maximum prices of wholesalers and retailers.* Wholesalers and retailers, making sales of pet foods, shall determine their maximum prices, pursuant to Maximum Price Regulations Nos. 421,[8] 422,[9] 423,[10] whichever is applicable to him.

SEC. 16. *Adjustment of prices to nearest quarter cent.* Processors of and private brand dealers in pet foods shall, after determining their maximum price, on a particular type and kind of sale, adjust the same to the nearest five cents per shipping unit of sale. A shipping unit of sale shall have a minimum net weight of 20 pounds and a maximum net weight of 100 pounds.

SEC. 17. *Notification of changes in maximum prices.* With the first delivery of any commodity covered by this regulation, after a seller changes a maximum price pursuant to any provision of this regulation or of any amendment thereto he shall:

(a) Supply each wholesaler and retailer subject to the provisions of Maximum Price Regulation Nos. 421, 422 or 423, who purchases from him with written notice as set forth below:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS SUBJECT TO MAXIMUM PRICE REGULATION NO. 421, 422 OR 423.

Our OPA ceiling price for (describe item by kind, variety, brand and container type and size) has been changed by the Office of Price Administration. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulation No. 421, 422 or 423, you must refigure your ceiling price for this item on the first delivery, of it to you from your customary type of supplier containing this notification on or after (insert date when new price becomes effective). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 421, 422 or 423, whichever is applicable to you.

For a period of 60 days after making such change in the maximum price of an item, and with the first shipment after the 60-day period to each person who has not made a purchase within that time, the seller shall give the written notice set forth above by attaching it to, or writing it on, the invoice issued in connection with the transaction, and by firmly attaching it to the case or carton in which the commodity is shipped.

(b) Notify each purchaser of the item from him who is a distributor, wholesaler or retailer not subject to Maximum Price Regulation No. 421, 422 or 423 of such change in maximum price by the following written notice attached to or written on the invoice issued in connection with his first transaction with such purchaser after the new price becomes effective:

NOTICE TO DISTRIBUTORS, WHOLESALERS OR RETAILERS NOT SUBJECT TO MAXIMUM PRICE REGULATIONS NO. 421, 422 OR 423

Our OPA ceiling price for (describe item by kind, variety, brand and container type and size) has been changed from $_____ to $_____ under the provisions of Maximum Price Regulation No. 552. You are required to notify all wholesalers and retailers for whom you are the customary type of supplier, purchasing the item from you after (insert date when new price becomes effective), of any allowable change in your maximum price. This notice must be made in the manner prescribed in section 17 of Maximum Price Regulation No. 552.

SEC. 18. *Addition of freight charges.* If the seller's maximum price, determined under the General Maximum Price Regulation, did not include freight charges, then he may add actual freight charges incurred to his maximum price, or if he uses a zone freight basis in making sales, he may add to his maximum price, the average freight charge for the zone.

NOTE: The reporting and record keeping provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.[1]

This regulation shall become effective on September 4, 1944.

5. Sections 1394.5325, 1394.5326 and 1394.5329 are revoked.

6. An undesignated center headnote is added preceding § 1394.5330 as follows: "Fuel Oil Limitation Area."

7. Section 1394.5360 is amended to read as follows:

§ 1394.5360 *Who may apply for a renewal.* (a) An application to renew a ration for heat or hot water, or both, for the 1944–45 heating year may be made by any person to whom such a ration for all or part of the 1943–44 heating year was issued, or by any member of his family, or by someone acting for either of them. However, a ration may not be renewed if it has expired for any of the reasons specified in § 1394.5502.

(b) The application may be made at any time during the heating year and must be made on OPA Form R–1167 (Revised). All the information required by the form must be furnished.

8. Section 1394.5361 (a) is amended by substituting the phrase "section 28 (a) (1) of Appendix A" for the phrase "§ 1394.5317 (a) (1)".

9. Section 1394.5361 (d) is added as follows:

(d) *Ration for period less than heating year.* If the renewed ration for heating a private dwelling by means of central heating equipment is needed for less than the entire heating year, the annual ration shall first be figured according to paragraphs (a) and (b) of this section and then reduced for the period for which it is needed, as follows: The appropriate percentages shown opposite the dates between which the ration is needed shall be determined from Revised Table VIII (OPA Form R–1130). The annual ration shall be multiplied by the percentage which is the difference between the appropriate percentages so determined. If the dates are not listed, the appropriate percentages are determined by the Board from the nearest dates which are listed.

10. Section 1394.5363 (d) is added as follows:

(d) *Ration for period less than the heating year.* If the renewed ration for heating any residential premises (other than a house trailer) by means of one or more space heaters is needed for less than the entire heating year, the annual ration shall first be figured according to the preceding paragraphs of this section and then reduced for the period for which it is needed, as follows: The appropriate percentages, shown opposite the dates between which the ration is needed, shall be determined from Revised Table VIII (OPA Form R–1130). The annual ration shall be multiplied by the percentage which is the difference between the appropriate percentages so determined. If the dates are not listed, the appropriate percentages are determined by the Board from the nearest dates which are listed.

11. Section 1394.5365 (a) is amended by substituting the phrase "section 32 (a) (1) of Appendix A" for the phrase "§ 1394.5321 (a) (1)".

12. Section 1394.5365 (b) is amended by substituting the phrase "section 32 (b) of Appendix A" for the phrase "§ 1394.5321 (b)".

13. Section 1394.5366 (a) (3) is amended by substituting the phrase "section 33 of Appendix A" for the phrase "§ 1394.5322".

14. Section 1394.5366 (b) is added as follows:

(b) However, if the months of the 1944–45 heating year for which the renewed ration is needed are not the corresponding or equivalent months for which the ration for the 1943–44 heating year was issued, the renewed ration shall be figured according to § 1394.5378.

15. Section 1394.5367 (a) (1) is added as follows:

(1) Class 3 coupon sheets will also be issued if the ration is granted for less than the period between date of application and the end of the 1944–45 heating year (§§ 1394.5361 (d), 1394.5373 (d), 1394.5375 (b), 1394.5377 (a) (2) or 1394.5378) even though the amount of fuel oil which the applicant may so acquire is more than 300 gallons. However, this subparagraph (1) shall not apply where (i) fuel oil deposit certificates are to be issued or (ii) the period for which the ration is granted begins before April 15, 1945 and ends on a date after April 15, 1945.

16. Section 1394.5367 (c) (2) is added as follows:

(2) However, if the application is made after September 1, 1944 the gallonage value of the first fuel oil deposit certificate issued to the applicant will be the total amount of fuel oil which the applicant may acquire divided by the number of coupon validity periods (for which the ration is to be issued) which begin on or after the date of the application. (However, if the application is made on or after the date on which period 5 begins, only one fuel oil deposit certificate shall be issued for the total amount of fuel oil which the applicant may acquire.) Subsequent fuel oil deposit certificates will be issued according to paragraph (c) (1) of this section.

17. Section 1394.5367a is added as follows:

§ 1394.5367a *Class 3 coupon sheets—*(a) *They have fixed value coupons only.* Class 3 coupon sheets have coupons of a fixed gallonage value of one (1), five (5), twenty-five (25) and one hundred (100) gallons, respectively.

(b) *When these coupons may be used by consumers.* Fuel oil may be transferred to a consumer in exchange for a coupon from a Class 3 coupon sheet only during the validity period of the coupon sheet.

(c) *When these coupons may be used by dealers and primary suppliers.* Fuel oil may be transferred to a dealer or primary supplier in exchange for a coupon from a Class 3 coupon sheet only on and after the first date when the coupon may be used for a transfer of fuel oil to a consumer.

18. An undesignated center headnote "New Applicants for Heat and Hot Water Rations for the 1944–45 Heating Year" immediately preceding § 1394.5371, an undesignated center headnote "Private Dwellings (Heat and central heating equipment; hot water by any equipment)" immediately preceding § 1394.5373, a center headnote "Residential Premises, Including Private Dwellings Using Space Heaters (Excluding House Trailers)" immediately preceding § 1394.5375, an undesignated center headnote "House Trailers" immediately preceding § 1394.5377, an undesignated center headnote "Other Premises (Residential using central heating; non-residential using any equipment)" immediately preceding § 1394.5378, an undesignated center headnote "Deductions of Fuel Oil on Hand" immediately preceding §1394.5380, an undesignated center headnote "Ration Evidences for New Applicants" immediately preceding § 1394.5381, an undesignated center headnote "New Applicants Outside the Limitation Area" immediately preceding § 1394.5382, and §§ 1394.5371, 1394.5372, 1394.5373, 1394.5374, 1394.5375, 1394.5376, 1394.5377, 1394.5378, 1394.5379, 1394.5380, 1394.5381, 1394.5382 and 1394.5383 are added as follows:

§ 1394.5371 *Who is a new applicant.* (a) A new applicant is a person who applies for a ration for the 1944–45 heating year for the operation of fuel oil burning equipment designed for and furnishing heat or hot water, or both, for use in any premises and who may not apply for a renewal ration (§ 1394.5360).

(b) The new applicant must be the person controlling the use of the fuel oil burning equipment, but he may authorize someone to make the application for him.

§ 1394.5372 *How a new applicant applies for a ration—*(a) *What form must*

be *used*. The new applicant who needs a ration for use in a private dwelling, or for use in any other residential premises furnished with heat or hot water, or both, by means of one or more space heaters or units of cooking equipment, must apply on Form OPA R–1100 (Revised). All other new applicants must apply on Form OPA R–1101 (Revised).

(b) *Previous ration holder's name to be given.* The new applicant must, except for good cause shown, submit with his application the name of the person to whom a heat or hot water ration for the premises was issued for any previous heating year.

(c) *Number of applications which may be made.* (1) A separate application must be made for each unit of fuel oil burning equipment serving the premises and the application shall cover only the part of the premises served by such unit, except that if two or more units of equipment serving a single building are under common control, a single application must be made for all such units.

(2) If two or more persons are entitled to apply for a ration for the same unit of equipment, application may be made by either of such persons, or by all jointly.

PRIVATE DWELLINGS

(Heat by central heating equipment; hot water by any equipment)

§ 1394.5373 *How the applicant's heat ration for a private dwelling is figured—(a) Annual ration where central heating equipment used.* The new applicant's ration for heating a private dwelling by means of central heating equipment for the 1944–45 heating year shall be determined by multiplying the amount of fuel oil consumed in heating the dwelling during the base period (adjusted to normal according to section 4 (c) of Appendix A) by two-thirds (⅔). (The amount of fuel oil consumed in heating the dwelling during the base period—that is, from June 1, 1941 through May 31, 1942—is the amount determined by the Board to have been consumed during that period when it figured the ration for any previous heating year, and the new applicant need not furnish any information concerning such consumption.) However:

(1) If two-thirds (⅔) of such fuel oil consumption is more than the maximum of the range for heating the dwelling, the annual ration shall be the maximum of that range (the range is figured according to section 5 of Appendix A); or

(2) If two-thirds (⅔) of such fuel oil consumption is less than the minimum of the range for heating the dwelling, the annual ration shall be either that minimum or 85% of such past consumption, whichever is less; or

(3) If the fuel oil consumption during the base period was not determined by the Board for the purpose of figuring the ration for any previous heating year, or if such consumption was then found to be not representative of normal fuel oil requirements for heating the dwelling, or if such consumption is not available to the Board, the annual ration shall be the midpoint of the range.

(b) If one or more children under six (6) years of age regularly live in the dwelling, the annual ration shall be increased by:

(1) 125 gallons in Zones A–1, A–2 and A–3;
(2) 100 gallons in Zones B–1, B–2 and B–3;
(3) 75 gallons in Zones C–1, C–2 and C–3;
(4) 50 gallons in Zone D.

(c) *Annual ration where both space heaters and central heating equipment used.* Where the new applicant applies for a ration for heating premises by means of both a space heater and central heating equipment, the annual ration shall be figured only for the central heating equipment. The ration issued, however, may be used for the operation of the central heating equipment or space heater, or both.

(d) *Ration for less than heating year.* If the new applicant's ration for heating a private dwelling by means of central heating equipment is needed for less than the entire heating year, the annual ration shall first be figured according to paragraphs (a) and (b) of this section and then reduced for the period for which it is needed as follows: The appropriate percentages, shown opposite the dates between which the ration is needed, shall be determined from Revised Table VIII (OPA Form R–1130). The annual ration shall be multiplied by the percentage which is the difference between the appropriate percentages so determined. If the dates are not listed, the appropriate percentages are determined by the Board from the nearest dates which are listed.

§ 1394.5374 *How the new applicant's hot water ration for a private dwelling is figured.* (a) The new applicant's ration for domestic hot water in a private dwelling for the 1944–45 heating year shall be figured according to § 1394.5362.

RESIDENTIAL PREMISES, INCLUDING PRIVATE DWELLINGS USING SPACE HEATERS (EXCLUDING HOUSE TRAILERS)

§ 1394.5375 *How the new applicant's heat ration is figured for all residential premises (other than a house trailer) using space heaters.—(a) General.* The new applicant's ration for heating any residential premises (other than a house trailer) by means of one or more space heaters, for the 1944–45 heating year, shall be figured according to § 1394.5363.

(b) *Ration for less than heating year.* If the new applicant's ration for heating residential premises (other than a house trailer) by means of one or more space heaters is needed for less than the entire heating year, the ration shall be figured according to § 1394.5363 (d).

§ 1394.5376 *How the new applicant's hot water ration is figured for residential premises (other than a private dwelling) using space heaters, cooking equipment or separate water heating equipment.* (a) The new applicant's ration for hot water in residential premises (other than a private dwelling) furnished by means of an attachment to a space heater or to cooking equipment or by means of separate water heating equipment for the 1944–45 heating year shall be figured according to § 1394.5364.

HOUSE TRAILERS

§ 1394.5377 *How the new applicant's heat or hot water ration is figured for a house trailer.—(a) Heat—(1) General.* The new applicant's ration for heating a house trailer for the 1944–45 heating year shall be the amount of fuel oil the applicant needs for the purpose but not more than twice the maximum of the range (the range is figured according to section 5 of Appendix A).

(2) *Ration for less than heating year.* If the new applicant's ration for heating a house trailer is needed for less than the entire heating year, the annual ration shall first be figured according to paragraph (a) (1) of this section and then reduced for the period for which it is needed as follows: The appropriate percentages, shown opposite the dates between which the ration is needed, shall be determined from Revised Table VIII (OPA Form R–1130). The annual ration shall be multiplied by the percentage which is the difference between the appropriate percentages so determined. If the dates are not listed, the appropriate percentages are determined by the Board from the nearest dates which are listed.

(b) *Hot water.* The new applicant's ration for hot water in a house trailer furnished by means of separate water heating equipment shall be two-thirds (⅔) of the applicant's normal requirements for the purpose, but not more than two-thirds (⅔) of the figure obtained by adding twenty (20) gallons for the first person plus five (5) gallons for each additional person regularly living in the trailer and multiplying that sum by the number of months for which the ration is needed. No ration may be issued for domestic hot water in a house trailer furnished by means of a space heater or cooking equipment, whether or not equipped with a water heating attachment.

OTHER PREMISES

(Residential using central heating; non-residential using any equipment)

§ 1394.5378 *How the new applicant's heat or hot water ration is figured for residential premises (other than a private dwelling) using central heating or separate water heating equipment or for non-residential premises using any equipment.* (a) The new applicant's ration for furnishing heat or hot water, or both, to residential premises (other than a private dwelling) by means of central heating equipment or separate water heating equipment, or to non-residential premises by means of any heating or hot water equipment, for the part of the 1944–45 heating year for which it is needed shall be figured as follows:

(1) If fuel oil was used for the purpose during at least the base period months corresponding or equivalent to the part of the 1944–45 heating year for which the ration is needed, the ration shall be two-thirds (⅔) of the amount of fuel oil consumed for the purpose (adjusted to normal according to section 9 (c) of Appendix A) during those corresponding or equivalent months.

(2) If fuel oil was not used for the purpose during at least those corresponding or equivalent months in the base period, or if for any reason (other than weather conditions) the fuel oil consumption during the corresponding or equivalent months is not representative of the normal fuel oil requirements for the part of the 1944–45 heating year for which the ration is needed, or if the consumption during such months is not available, the ration shall be two-thirds (⅔) of the amount of fuel oil needed to meet the normal requirements of the premises for the purpose for that part of the 1944–45 heating year for which the ration is needed.

§ 1394.5379 *Boards may issue coupons for space heater rations in instalments.* (a) Where application is made for a ration for heat or hot water furnished by means of one or more space heaters in any residential premises, the Board may, after figuring the ration for the period for which it is needed, give the applicant, from time to time during that period, Class 3 coupon sheets containing coupons of such gallonage value as the Board shall determine. However, the gallonage value of the total of all such instalments shall not exceed the total ration figured.

DEDUCTIONS OF FUEL OIL ON HAND

§ 1394.5380 *Fuel oil on hand will be deducted from the new applicant's ration.* (a) The Board shall, before issuing ration evidences to the new applicant, deduct from the ration the amount of fuel oil he has on hand, at the date of application, for the purpose for which the ration is needed.

RATION EVIDENCES FOR NEW APPLICANTS

§ 1394.5381 *The new applicant's ration will be evidenced by coupon sheets or fuel oil deposit certificates—(a) Class 3, 4A, 5A and 6A coupon sheets.* Class 3 coupon sheets (OPA Forms R–1107 through R–1110) and Class 4A, 5A and 6A coupon sheets (OPA Forms R–1137 through R–1166A) will be issued to new applicants in the manner provided in Section 1394.5367. (Sections 1394.5367a and 1394.5368 describe these coupon sheets and explain when and where the coupons from these sheets may be used.)

(b) *When fuel oil deposit certificates will be issued.* If the amount of fuel oil which the applicant may acquire for heat or hot water, or both, for the 1944–45 heating year is twenty thousand (20,000) gallons or more, fuel oil deposit certificates will be issued, instead of coupons, upon the request of the applicant. The fuel oil deposit certificates shall be issued according to § 1394.5367 (c) (2).

NEW APPLICANTS OUTSIDE THE LIMITATION AREA

§ 1394.5382 *Application for, determination and issuance of, rations for new applicants for use outside the limitation area.* (a) Regardless of any other provisions of this Order:

(1) Application by a new applicant for a ration for heat or hot water, or both, for use outside the limitation area shall be made to the nearest Board in the thermal subzone nearest the premises in which the ration is to be used.

(2) The Board shall, in such case, figure the ration and issue coupon sheets or ration checks in the same manner as if such premises were located in the thermal subzone in which the application is made.

§ 1394.5383 *Issuance of ration not a waiver of violations of Section 1394.5603.* (a) The issuance of a ration to a new applicant who was required to apply for a ration for the operation of the equipment in the premises for the 1942–43 or 1943–44 heating year, and omitted to do so, shall not be deemed a waiver of any violation by him of § 1394.5603.

19. Section 1394.5460 (c) is amended by substituting for the phrase "§ 1394.5327", the phrase "§ 1394.5368."

20. Section 1394.5462 (a) is amended to read as follows:

(a) The issuance of fuel oil deposit certificates as renewed rations for heat or hot water for the 1944–45 heating year is covered by § 1394.5368 (d). The issuance of fuel oil deposit certificates to new applicants as rations for heat or hot water for the 1944–45 heating year is covered by § 1394.5381 (b).

This amendment shall become effective on September 1, 1944.

Issued this 30th day of August 1944.

Acting Administrator.

Section 6.56 is added to read as follows:

SEC. 6.56 *Scrap chewing tobacco—(a) Adjustment of manufacturers' maximum prices—(1) For changes in package contents—(i) Increase in package contents from 1¾ to 2¼ oz.* If a manufacturer's maximum list price per dozen, established under § 1499.2 of the General Maximum Price Regulation, for sales of an item of scrap chewing tobacco in packages containing 1¾ oz. each, is 96¢ and his stated retail price per package for such item is 10¢, the maximum list price per dozen for sales of the item in packages containing 2¼ oz. each, shall be $1.23 and the maximum retail price per package for sales of such item shall be 13¢ or two packages for 25¢.

*Copies may be obtained from the Office of Price Administration.

(ii) *Other changes in quantity of package contents.* Any manufacturer of an item of scrap chewing tobacco for which a maximum list price and a maximum retail price have been established under the General Maximum Price Regulation or under this section, who desires to change the quantity of package contents or package size, except as provided in (i) above, shall apply by letter to the Office of Price Administration, Tobacco Section, Washington, D. C., for authority to establish a maximum list price for the new quantity of package contents or package size. The letter shall state:

(*a*) The change in the quantity of package contents or package size the manufacturer desires to make.

(*b*) His maximum list price per dozen packages, together with applicable discounts and allowances, for the present quantity of package contents or package size and his stated retail price per package.

(*c*) His actual costs for packaging material and packaging labor involved in the manufacture of the present quantity of package contents or package size.

(*d*) His estimated costs for packaging material and packaging labor involved for the package contents or package size he proposes to make. Such estimate shall be based upon his most recent accounting period.

After receipt of the application, the Price Administrator will, by order, establish maximum prices for the applicant and subsequent sellers of the new quantity of package contents or package size, which are in line with the maximum prices established by this section. Maximum prices so established may be revoked or modified by the Price Administrator at any time.

Sellers may add to these prices the amount of such tax applicable to the item being priced and paid or payable by them to the taxing authority or to a prior vendor.

(g) *Units of sale.* Maximum prices shall be stated in terms of the same general units (like dozens, packages, etc.) in which the seller has customarily quoted prices for the product.

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war; *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. 8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

OFFICE OF PRICE ADMINISTRATION.

[R. O. 17, Administrative Order 25]

GRIMSRUD HANSON COMPANY

Administrative Exception Order No. 25 under Ration Order 17.

The petitioner, Grimsrud Hanson Company, is a corporation engaged in the sale of shoes, whose principal business office is located at St. Paul, Minnesota. The petitioner sells shoes primarily through approximately 300 small independent retail outlets, such as country stores and shoe repair shops, which handle shoes as a side line in connection with the operation of some other business. In all cases the shoes are delivered to the retail outlet on a consignment basis, and each outlet agrees to handle shoes supplied exclusively by the petitioner.

Because the persons operating the retail outlets handle shoes only as a side line, many of them would not handle shoes unless they were given assistance by representatives of the supplier in preparing and presenting to the District Office the necessary applications, and in preparing and filing inventories, maintaining proper records, and generally in complying with the requirements of the Ration Order.

The outlets through which the petitioner sells shoes are located in Minnesota, Wisconsin, North Dakota, South Dakota, and Iowa and are all in OPA Region VI. To obtain efficient and uniform handling of all problems of the various outlets concerned, the petitioner seeks permission for all distributing establishments handling shoes supplied exclusively by the petitioner, on a consignment basis, to apply at a centrally located District Office for all relief which may be afforded under Ration Order 17.

The relief requested in this case may be granted in this and all similar cases without defeating or impairing the effectiveness or the policy of Ration Order 17.

It is hereby ordered, That each distributing establishment which is now or may be hereafter supplied with shoes, on a consignment basis, exclusively by the Grimsrud Hanson Company, be and hereby is authorized to apply for all relief afforded by Ration Order 17 to the St. Paul, Minnesota, District Office.

It is further ordered, That any establishment subject to this order which

avails itself of the provisions thereof by making application to the St. Paul, Minnesota, District Office shall thereafter be subject to the jurisdiction of that District Office for all purposes of Ration Order 17 so long as it continues to receive its supply of shoes exclusively from the petitioner. However, the District Office serving the area in which a retail outlet is located shall have jurisdiction of that outlet for the purposes of enforcing Ration Order 17 and this exception order. No provision of this order shall be construed to relieve any such establishment of its duty to keep records required by Ration Order 17.

It is further ordered, That the Grimsrud Hanson Company shall file and maintain with each OPA District Office in which it has outlets, a current list of its distributing establishments located within the area served by such District Office.

Issued and effective this 29th day of August 1944.

JEROME M. NEY,
Acting Assistant Deputy Administrator in Charge of Rationing.
